Loaded with practical advice and step-by-step guidance, *Organic Gardening for Everyone* takes a very personal and friendly approach to a subject that can be intimidating. It is a first-class primer on organic vegetable gardening, and an inspirational story about how anyone can balance the rigors of gardening with the demands of a modern, family-oriented lifestyle. In 2012, a California mom decided to start an organic vegetable garden. But she went about it in an unusual way: she crowdsourced it by launching a YouTube channel under the name CaliKim and asking for help. And then she started planting. As questions came up, she turned to her viewers and subscribers and they replied with answers and advice. As she learned, her garden grew successfully—even in the hot, harsh California climate. Her expertise also grew, and now she answers many more questions than she asks and has become a very accomplished home gardener. And CaliKim has a great story to tell: growing healthy organic vegetables for your family is not difficult, even for today’s time-challenged lifestyles. She provides complete step-by-step information on growing the most popular edibles organically, and also gives sound advice on how to take on the challenges of balancing a hectic lifestyle with successful growing—and how to involve the whole family in the process. You'll be rewarded for your effort every time you place a plate of natural, organic vegetables on the family dinner table knowing exactly what they are, what is in them, and where they came from.

The Magic Vine Quilt Eleanor Burns, 2007-04-15 Grow a flower garden in beautiful fabrics to grace your bed or wall as Eleanor Burns presents Magic Vine. The patterns for Magic Vine originated in the 1930's in a newspaper quilt column written by Florence LaGanke Harris. As part of a series, LaGanke presented one new pattern each week. In addition to the pattern, the reader was treated to a fictitious story about a quilt group and their leader, Nancy Page. In the group, they shared stories, and decided on what colors to use for their flowers. Twenty-two flowers are appliqued in rows with twinning vines. It is magical because of the variety of flowers that grow on the vine. The vine grows quickly, like the magic vine in Jack and the Beanstalk. Whimsical flowers and leaves are easily made, using lightweight paper backed adhesive or the quick turn method using non-woven fusible interfacing. The outside edges are finished with a variety of techniques: satin stitch, blanket stitch, blind hemstitch, and hand applique. Give Magic Vine a traditional 1930's look using reproduction fabrics or bright and contemporary with vibrant batiks. Enjoy embellishing the flowers with hand or machine stitches, beads, and crystals. Eleanor offers assistance on fabric selection and yardage and cutting charts for all five quilt sizes. Bonus projects are included. The book is conveniently bound in wire-o to lay flat.
