Aurora Rey,Jaime Clevenger

**Kindsight** Robert Zuckerman,2005 These unusual and frank photos celebrate the beauty of random human encounters and turn everyday experiences into profound visual testaments.

Zuckerman's fresh appreciation of the extraordinary nature of people and other beings is evident in his affecting images. Each meeting is documented by a photograph and paired with personal explanations of the circumstances. Kindsight reveals the emotional, raw and intimate vistas of everyday life as streets, taxis, offices, front doors, and restaurants display richness, divinity and grace.

#### **A Convenient Arrangement** Aurora Rey,Jaime

Clevenger,2021-11-16 Cuffing season has come for lesbians. Jess Archer, digital journalist for the internet's hottest lesbian media platform, has been assigned to research cuffing, from an up close and personal perspective. She's not sure it's really her thing, but the assignment gives her the chance to write something more substantial than her usual fluff pieces. All she needs now is a willing lesbian. For Cody Dawson, signing up for Jess's project is a no-brainer. She gets to date an interesting woman, enjoy her company, and not disrupt the tidy life she's built for her son. Everything's perfect until she starts falling for Jess. When she

realizes she's heart-deep in the feelings she's agreed not to have, their convenient arrangement becomes anything but.

**Pleasure Activism** adrienne maree brown, 2019-03-19 How do we make social justice the most pleasurable human experience? How can we awaken within ourselves desires that make it impossible to settle for anything less than a fulfilling life? Editor adrienne maree brown finds the answer in something she calls Pleasure Activism, a politics of healing and happiness that explodes the dour myth that changing the world is just another form of work. Drawing on the black feminist tradition, including Audre Lourde's invitation to use the erotic as power and Toni Cade Bambara's exhortation that we make the revolution irresistible, the contributors to this volume take up the challenge to rethink the ground rules of activism. Writers including Cara Page of the Astraea Lesbian Foundation For Justice, Sonya Renee Taylor, founder of This Body Is Not an Apology, and author Alexis Pauline Gumbs cover a wide array of subjects—from sex work to climate change, from race and gender to sex and drugs—they create new narratives about how politics can feel good and how what feels good always has a complex politics of its own. Building on the success of her popular *Emergent Strategy*, brown launches a new

series of the same name with this volume, bringing readers books that explore experimental, expansive, and innovative ways to meet the challenges that face our world today. Books that find the opportunity in every crisis!

**Emergent Strategy** adrienne maree brown, 2017-03-20 In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, **Emergent Strategy** teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

**Brotopia** Emily Chang, 2019-03-05 Instant National Bestseller A

PBS NewsHour-New York Times Book Club Pick Excellent. —San Francisco Chronicle

Silicon Valley is a modern utopia where anyone can change the world. Unless you're a woman. It's time to break up the boys' club. Incisive, powerful, and a fierce rallying cry, Emily Chang shows us how to fix Silicon Valley's toxic culture—to bring down Brotopia, once and for all. Silicon Valley is not a fantasyland of unicorns, virtual reality rainbows, and 3D-printed lollipops for women in tech. Instead, it's a Brotopia, where men hold the cards and make the rules. While millions of dollars may seem to grow on trees in this land of innovation, tech's aggressive, misogynistic, work-at-all costs culture has shut women out of the greatest wealth creation in the history of the world. Brotopia reveals how Silicon Valley got so sexist despite its utopian ideals, why bro culture endures even as its companies claim the moral high ground, and how women are speaking out and fighting back. Drawing on her deep network of Silicon Valley insiders, Chang opens the boardroom doors of male-dominated venture capital firms like Kleiner Perkins, the subject of Ellen Pao's high-profile gender discrimination lawsuit, and Sequoia, where a partner once famously said they won't lower their standards just to hire women. Exposing the flawed logic in common excuses for why tech has

long suffered the “pipeline” problem and invests in the delusion of meritocracy, Brotopia also shows how bias coded into AI, internet troll culture, and the reliance on pattern recognition harms not just women in tech but us all, and at unprecedented scale.

**Defying Convention** Lisa Baldez, 2014-08-11 To explain why the United States has not ratified the Convention on the Elimination of All Forms of Discrimination against Women (CEDAW), this book highlights the emergence of the treaty in the context of the Cold War, the deeply partisan nature of women's rights issues in the United States, and basic disagreements about how human rights treaties work.

Ditch the Act: Reveal the Surprising Power of the Real You for Greater Success Leonard Kim, Ryan Foland, 2019-10-25 Be human. It's the only way to get ahead in business today. Competition today is fiercer than ever. It seems that every job candidate is flashing a world-class resume and every business competitor is the absolute best at what they do. Don't be fooled. People exaggerate. And don't be discouraged. By revealing stories of failures, setbacks, and personal flaws without shame or fear, you exhibit greater self-confidence than your competition. You cultivate connections with serious, smart people, and you build loyalty that lasts. Ditch the Act

shows how to present your humanness—imperfect and flawed but honest, resilient, and willing to learn—in strategic ways to achieve clear, defined goals. It provides an actionable program for building an authentic, long-lasting personal brand, explaining why exposure is important and how it cultivates more durable connections than any polished persona can. By creating a personal brand that’s honest and authentic and that reveals personal struggles, you’ll build stronger, longer-lasting relationships—and achieve greater success. Careers and businesses based on authenticity and truth aren’t just more rewarding than those founded on hyperbole and the “hard sell.” Because they’re founded on durable, robust relationships, they’re rock-solid—and better withstand business uncertainty and tough times. Ditch the act, be real—and jump ahead of the competition before they even know you are there.

**The Future AI Gore, 2013-01-29 NEW YORK TIMES**

**BESTSELLER** From the former vice president and #1 New York Times bestselling author comes *An Inconvenient Truth* for everything—a frank and clear-eyed assessment of six critical drivers of global change in the decades to come. Ours is a time of revolutionary change that has no precedent in history. With the same passion he brought to the challenge of climate change, and

with his decades of experience on the front lines of global policy, Al Gore surveys our planet's beclouded horizon and offers a sober, learned, and ultimately hopeful forecast in the visionary tradition of Alvin Toffler's *Future Shock* and John Naisbitt's *Megatrends*. In *The Future*, Gore identifies the emerging forces that are reshaping our world:

- Ever-increasing economic globalization has led to the emergence of what he labels "Earth Inc."—an integrated holistic entity with a new and different relationship to capital, labor, consumer markets, and national governments than in the past.
- The worldwide digital communications, Internet, and computer revolutions have led to the emergence of "the Global Mind," which links the thoughts and feelings of billions of people and connects intelligent machines, robots, ubiquitous sensors, and databases.
- The balance of global political, economic, and military power is shifting more profoundly than at any time in the last five hundred years—from a U.S.-centered system to one with multiple emerging centers of power, from nation-states to private actors, and from political systems to markets.
- A deeply flawed economic compass is leading us to unsustainable growth in consumption, pollution flows, and depletion of the planet's strategic resources of topsoil, freshwater, and living species.
- Genomic, biotechnology,

neuroscience, and life sciences revolutions are radically transforming the fields of medicine, agriculture, and molecular science—and are putting control of evolution in human hands. • There has been a radical disruption of the relationship between human beings and the earth's ecosystems, along with the beginning of a revolutionary transformation of energy systems, agriculture, transportation, and construction worldwide. From his earliest days in public life, Al Gore has been warning us of the promise and peril of emergent truths—no matter how “inconvenient” they may seem to be. As absorbing as it is visionary, *The Future* is a map of the world to come, from a man who has looked ahead before and been proven all too right. Praise for *The Future* “Magisterial . . . The passion is unmistakable. So is the knowledge. Practically every page offers an illumination.”—Bloomberg “In *The Future* . . . Gore takes on a subject whose scale matches that of his achievements and ambition.”—The New York Times Book Review “Historically grounded . . . Gore's strengths lie in his passion for the subject and in his ability to take the long view by putting current events and trends in historical context.”—Publishers Weekly “Provocative, smart, densely argued . . . a tour de force of Big Picture

thinking.”—Kirkus Reviews (starred review) “A luminously intelligent analysis that is packed with arresting ideas and facts.”—The Guardian

**The Radiant Road** Katherine Catmull, 2016-01-19 A gorgeously woven tale of magic, friendship, and self-discovery set in a dream-like landscape filled with fairies. After years of living in America, Clare Macleod and her father are returning to Ireland, where they’ll inhabit the house Clare was born in—a house built into a green hillside with a tree for a wall. For Clare, the house is not only full of memories of her mother, but also of a mysterious boy with raven-dark hair and dreamlike nights filled with stars and magic. Clare soon discovers that the boy is as real as the fairy-making magic, and that they’re both in great danger from an ancient foe. Fast-paced adventure and spellbinding prose combine to weave a tale of love and loyalty in this young adult fantasy. □ A stunningly atmospheric, gorgeously complicated dream of a book. —Publishers Weekly, starred review □ An unforgettable tale . . . that contains all the darkness and light of *A Midsummer Night's Dream*. —School Library Journal, starred review Gorgeous, haunting, and wonderfully strange, *The Radiant Road* establishes Katherine Catmull as a master of the modern fairy tale. —Anne Ursu, author

of *The Real Boy and Breadcrumbs* Katherine Catmull deftly weaves Clare's contemporary story with ancient Celtic lore. *The Radiant Road* is a beguiling novel with a strong, engaging protagonist. —Juliet Marillier, author of *Daughter of the Forest* and *Wildwood Dancing*

*I and Thou* Martin Buber, 2012-10-01 *I AND THOU* is one of the most important books of Western Theology. In it, Martin Buber, heavily influenced by the writings of Nietzsche, unites the proto-Existentialist currents of modern German thought with the Judeo-Christian tradition, powerfully updating faith for modern times. Since its first appearance in Germany in 1923, this slender volume has become one of the epoch-making works of our time. This work is the centerpiece of Buber's philosophy. It lays out a view of the world in which human beings can enter into relationships using their innermost and whole beings to form true partnerships. This is the original English translation, and it was prepared in the author's presence.

*The Third Rainbow Girl* Emma Copley Eisenberg, 2020-01-21  
\*\*\* A NEW YORK TIMES 100 Notable Books of 2020 \*\*\* A stunning, complex narrative about the fractured legacy of a decades-old double murder in rural West Virginia—and the writer

determined to put the pieces back together. In the early evening of June 25, 1980 in Pocahontas County, West Virginia, two middle-class outsiders named Vicki Durian, 26, and Nancy Santomero, 19, were murdered in an isolated clearing. They were hitchhiking to a festival known as the Rainbow Gathering but never arrived. For thirteen years, no one was prosecuted for the “Rainbow Murders” though deep suspicion was cast on a succession of local residents in the community, depicted as poor, dangerous, and backward. In 1993, a local farmer was convicted, only to be released when a known serial killer and diagnosed schizophrenic named Joseph Paul Franklin claimed responsibility. As time passed, the truth seemed to slip away, and the investigation itself inflicted its own traumas—turning neighbor against neighbor and confirming the fears of violence outsiders have done to this region for centuries. In *The Third Rainbow Girl*, Emma Copley Eisenberg uses the Rainbow Murders case as a starting point for a thought-provoking tale of an Appalachian community bound by the false stories that have been told about. Weaving in experiences from her own years spent living in Pocahontas County, she follows the threads of this crime through the complex history of Appalachia, revealing how this mysterious murder has loomed over all those affected for

generations, shaping their fears, fates, and desires. Beautifully written and brutally honest, *The Third Rainbow Girl* presents a searing and wide-ranging portrait of America—divided by gender and class, and haunted by its own violence.

**Data Politics** Didier Bigo,Engin Isin,Evelyn Ruppert,2019-03-13

Data has become a social and political issue because of its capacity to reconfigure relationships between states, subjects, and citizens. This book explores how data has acquired such an important capacity and examines how critical interventions in its uses in both theory and practice are possible. Data and politics are now inseparable: data is not only shaping our social relations, preferences and life chances but our very democracies. Expert international contributors consider political questions about data and the ways it provokes subjects to govern themselves by making rights claims. Concerned with the things (infrastructures of servers, devices, and cables) and language (code, programming, and algorithms) that make up cyberspace, this book demonstrates that without understanding these conditions of possibility it is impossible to intervene in or to shape data politics. Aimed at academics and postgraduate students interested in political aspects of data, this volume will also be of interest to experts in the fields of internet studies, international studies, Big Data, digital social sciences and humanities. The Open Access version of this book, available at <https://www.routledge.com/Data-Politics-Worlds-Subjects-Rights/Big>
