Institutions and Norms in Economic Development Mark Gradstein, Kai A. Konrad, 2007-06-08 Experts address “the development puzzle”—unprecedented growth coupled with unequal distribution of that growth across different countries—and focus on the importance of institutional arrangements and norms and culture. Recent decades have seen almost unprecedented economic growth in

income per capita around the world. Yet this extraordinary overall performance masks a wide variation in growth rates across different countries, with persistent underdevelopment in some parts of the world. This disparity constitutes “the development puzzle,” and it is exemplified by growth spurts in China and India that contrast markedly with disturbingly low growth rates in sub-Saharan Africa. In this volume, economists address issues of inequality and growth, going beyond narrowly defined “economic” factors to consider the effect on growth of the structure of governance, the quality of a country's governing bodies, and the social norms that govern collective decision-making. The contributors use both formal modeling and empirical analyses to examine how the “soft factors” of institutions and norms interact with growth performance, natural resource endowments, and economic performance. They consider such topics as the effects of decentralization in Africa, fiscal discipline in Indian states, natural resource wealth as a cause of corruption, social violence during the Indonesian financial crisis of 1997 and 1998, and the effect of strong national identity on redistributive politics. Some of their findings suggest that not only do institutions and norms affect economic performance, economic performance itself is a key factor in explaining such governance failures as corruption and the frequency and intensity of economic conflict.

Bodies of Nature Phil Macnaghten, John Urry, 2001-08-15 This book examines the embodied nature of people's experience in, and of, the modern world. It

is therefore part of the deep-seated 'turn towards the body'. However, it is partly critical of this development in as much as it affirms that the sociology of the body has downplayed the extent to which the body is located in, and involved with, nature, the countryside, the outdoors, landscape and wilderness. The book argues that bodies in nature are subject to novel, complex and contradictory opportunities of freedom and escape, surveillance and monitoring. The book guides readers through the various ways in which these bodily opportunities and constraints are temporally and spatially organized and managed.

Whitefoot Wendell Berry, 2010-10 Whitefoot is a mouse who lives at the edge of the woods, where she knows, without a doubt, that she exists at the center of the world. What she doesn't know is that not far from her safe haven there is a world of such magnitude that she cannot even imagine it. Full color.

Crampton Hodnet Barbara Pym, 2013-08-01 Miss Morrow is content in her position as spinster companion to Miss Doggett, even if her employer and the woman's social circle regard her as a piece of furniture. Stephen Latimer, the new cleric and Miss Doggett's dashing new tenant, upsets the balance for Miss Morrow by proposing the long discounted possibility of marriage.

By Gaslight Steven Price, 2016-10-04 A literary tour de force of a detective's ceaseless hunt for an elusive criminal *By Gaslight* is a deeply atmospheric, haunting novel about the unending quest that has shaped a man's life. William Pinkerton is already famous, the son of the most notorious

detective of all time, when he descends into the underworld of Victorian London in pursuit of a new lead on the fabled con Edward Shade. William's father died without ever finding Shade, but William is determined to drag the thief out of the shadows. Adam Foole is a gentleman without a past, haunted by a love affair ten years gone. When he receives a letter from his lost beloved, he returns to London to find her. What he learns of her fate, and its connection to the man known as Shade, will force him to confront a grief he thought long-buried. A fog-enshrouded hunt through sewers, opium dens, drawing rooms, and séance halls ensues, creating the most unlikely of bonds: between Pinkerton, the great detective, and Foole, the one man who may hold the key to finding Edward Shade. Steven Price's dazzling, riveting *By Gaslight* moves from the diamond mines of South Africa to the battlefields of the Civil War, on a journey into a cityscape of grief, trust, and its breaking, where what we share can bind us even against our darker selves.

The God of that Summer Ralf Rothmann, 2022-01-20 'This book's power lies in its depiction of civilians trying to lead ordinary lives during the horror of war . . . It is shattering stuff, but Rothmann is tender towards his characters and this book is as memorable as his last.' - The Times, 'Historical Fiction Book of the Month' As the Second World War enters its final stages, millions in Germany are forced from their homes by bombing, compelled to seek shelter in the countryside where there are barely the resources to feed them. Twelve-year-old Luisa, her mother, and her older

sister Billie have escaped the devastation of the city for the relative safety of a dairy farm. But even here the power struggles of the war play out: the family depend on the goodwill of Luisa's brother-in-law, an SS officer, who in expectation of payment turns his attention away from his wife and towards Billie. Luisa immerses herself in books, but even she notices the Allied bombers flying east above them, the gauntness of the prisoners at the camp nearby, the disappearance of fresh-faced boys from the milk shed – hastily shipped off to a war that's already lost. Living on the farm teaches Luisa about life and death, but it's man's capacity for violence that provides the ultimate lesson, that robs her of her innocent ignorance. When, at a birthday celebration, her worst fears are realized, Luisa collapses under the weight of the inexplicable. Ralf Rothmann's previous novel, *To Die in Spring*, described the horror of war and the damage done on the battlefield. The God of that Summer tells the devastating story of civilians caught up in the chaos of defeat, of events that might lead a twelve-year-old child to justifiably say: 'I have experienced everything.'

Palaces of Hope Ronald Niezen,Maria Sapignoli,2017-01-26 This volume assembles in one place the work of scholars who are making key contributions to a new approach to the United Nations, and to global organizations and international law more generally. Anthropology has in recent years taken on global organizations as a legitimate source of its subject matter. The research that is being done in this field gives a human face to these world-reforming institutions. Palaces of Hope demonstrates that these institutions are not monolithic or uniform, even though loosely connected by a common organizational network. They vary above all in their powers and forms of public engagement. Yet there are common threads that run through the studies included here: the actions of global institutions in practice, everyday forms

of hope and their frustration, and the will to improve confronted with the realities of nationalism, neoliberalism, and the structures of international power.

Negotiating Tradition Stefan Groth, 2012 Communicative interactions in international negotiations on cultural property not only provide information about the emergence and proliferation of arguments, rhetorics, and registers, but also permit valuable insights into actors' positions, strategies and alliances. They significantly influence local and national practices and views related to cultural property debates. What can be gained from a deep analysis of the communicative patterns and strategies that actors engage in - the entailing text and talk of negotiations - is a better understanding of the process itself: how do different actors argue, what kind of strategies and rhetorics do they use, to which instruments and institutions do they refer, and in what way do actors react to each other? An analysis of communicative interactions contributes to the question of how international negotiations work. The analytic inclusion of sociolinguistic practices allows insights into positions, strategies, and perspectives pertaining to cultural property. By looking at not only what actors say, but also at how and in what contexts they do so, it is possible to make more accurate statements about their positions and perceptions in cultural property debates. As these communicative interactions influence outcomes considerably, an approach from linguistic anthropology is not only beneficial for an understanding of

specific negotiations, but also for the analysis of broader cultural property issues--Provided by publisher

Folk Culture in a World of Technology Hermann Bausinger,1990

Ritual: A Very Short Introduction Barry Stephenson,2015-01-28 Ritual is part of what it means to be human. Like sports, music, and drama, ritual defines and enriches culture, putting those who practice it in touch with sources of value and meaning larger than themselves. Ritual is unavoidable, yet it holds a place in modern life that is decidedly ambiguous. What is ritual? What does it do? Is it useful? What are the various kinds of ritual? Is ritual tradition bound and conservative or innovative and transformational? Alongside description of a number of specific rites, this Very Short Introduction explores ritual from both theoretical and historical perspectives. Barry Stephenson focuses on the places where ritual touches everyday life: in politics and power; moments of transformation in the life cycle; as performance and embodiment. He also discusses the boundaries of ritual, and how and why certain behaviors have been studied as ritual while others have not. Stephenson shows how ritual is an important vehicle for group and identity formation; how it generates and transmits beliefs and values; how it can be used to exploit and oppress; and how it has served as a touchstone for thinking about cultural origins and historical change. Encompassing the breadth and depth of modern ritual studies, Barry Stephenson's Very Short Introduction also develops a narrative of ritual's

place in social and cultural life. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Organisational Anthropology Christina Garsten, Anette Nyqvist, 2014-10-23 Organisational Anthropology, newly published in paperback, is a pioneering analysis of doing ethnographic fieldwork in different types of complex organisations. The book focuses on the process of initiating contact, establishing rapport and gaining the trust of the organisation's members. The contributors work from the premise that doing fieldwork in an organisation shares essential characteristics with fieldwork in more 'classical' anthropological environments, but that it also poses some particular challenges to the ethnographer. These include the ideological or financial interests of the organisations, protection of resources and competition between organisations. Organisational Anthropology brings together and highlights crucial aspects of doing anthropology in contemporary complex settings, and will have wide appeal to students, researchers and academics in anthropology and organisation studies.

Making Intangible Heritage Valdimar Hafstein, 2018-08-29 In Making Intangible Heritage, Valdimar Tr. Hafstein—folklorist and official delegate

to UNESCO—tells the story of UNESCO's Intangible Heritage Convention. In the ethnographic tradition, Hafstein peers underneath the official account, revealing the context important for understanding UNESCO as an organization, the concept of intangible heritage, and the global impact of both. Looking beyond official narratives of compromise and solidarity, this book invites readers to witness the diplomatic jostling behind the curtains, the making and breaking of alliances, and the confrontation and resistance, all of which marked the path towards agreement and shaped the convention and the concept. Various stories circulate within UNESCO about the origins of intangible heritage. Bringing the sensibilities of a folklorist to these narratives, Hafstein explores how they help imagine coherence, conjure up contrast, and provide charters for action in the United Nations and on the ground. Examining the international organization of UNESCO through an ethnographic lens, Hafstein demonstrates how concepts that are central to the discipline of folklore gain force and traction outside of the academic field and go to work in the world, ultimately shaping people's understanding of their own practices and the practices themselves. From the cultural space of the Jemaa el-Fna marketplace in Marrakech to the Ise Shrine in Japan, Making Intangible Heritage considers both the positive and the troubling outcomes of safeguarding intangible heritage, the lists it brings into being, the festivals it animates, the communities it summons into existence, and the way it orchestrates difference in modern societies.

To Be Determined ,2021-11-30 A multipart installation on the island of Hydra exploring mythic themes of earth and sky In 2019, multidisciplinary artist Kiki Smith (born 1954) was invited to present a site-specific project at the DESTE Foundation Project Space in Hydra, a former slaughterhouse perched on the edge of the sea. Drawing on maritime history, mythology, astronomy and site-specific anthropology, Smith combined naturalistic and fantastic elements into a multipiece composition that reflects the lived and imagined memory of both the slaughterhouse--a stage for sacrifices--and the Hydra region itself. Alongside photographs of the installation and texts by Maggie Wright and Nadja Argyropoulou, Kiki Smith: Memory presents documentation of Smith's process for this project, which draws on a variety of mediums including sculpture, textiles and drawing.
