**Shook One** Charlamagne Tha God, 2019-09-03 Charlamagne Tha God, New York Times bestselling author of Black Privilege and always provocative cohost of Power 105.1's The Breakfast Club, reveals his blueprint for breaking free from your fears and anxieties. Being "shook" is more than a rap lyric for Charlamagne, it's his mission to overcome. While it may seem like he's ahead of the game, he is actually plagued by anxieties, such as the fear of losing his roots, the fear of being a bad dad, and the fear of being a terrible husband. In the national bestseller Shook One, Charlamagne chronicles his journey to beat those fears and shows a path that you too can take to overcome the anxieties that may be holding you back. Ironically, Charlamagne's fear of failure—of falling into the life of stagnation or crime that caught up so many of his friends and family in his hometown of Moncks Corner—has been the fuel that has propelled him to success. However, even after achieving national prominence as a radio personality, Charlamagne still found himself paralyzed by anxiety and distrust. Here, in Shook One, he is working through these problems—many of which he traces back to cultural PTSD—with help from mentors, friends, and therapy. Being anxious doesn't serve the same purpose anymore. Through therapy, he's figuring out how to get over the irrational fears that won't take him anywhere positive. Charlamagne hopes Shook One can be a call to action: Getting help is your right. His second book "cements the radio personality's stance in making sure he's on the right side of history when it comes to society's growing focus on mental health, while helping remove the negative stigma" (Billboard).

**Envy** Bob Sorge, 2003-01-31 Envy might well be termed the silent sin. Because while all of us envy others to some extent, few of us acknowledge our problem out loud, let alone try to overcome it and move forward. Bob Sorge draws upon his own pastoral experience--plus the admitted burden of his own envy--to show why and how it can adversely affect the ministry of a church and even prevent revival in people's lives. Sorge reveals why comparison of our ministry and spiritual gifts to that of our fellow believers is to be avoided at all costs so that we do not hamstring God's plan for our growth and the accomplishment of His purposes. This is a must-read for leaders of all churches, great and small--and anyone who wants the peace that comes with a life free of envy.

*Lifespan* David A. Sinclair, Matthew D. LaPlante, 2019-09-10 A NEW YORK TIMES BESTSELLER "Brilliant and enthralling." —The Wall Street Journal A paradigm-shifting book from an acclaimed Harvard Medical School scientist and one of Time's most influential people. It's a seemingly undeniable truth that aging is inevitable. But what if everything we've been taught to believe about aging is wrong? What if we could choose our lifespan? In this groundbreaking book, Dr. David Sinclair, leading world authority on genetics and longevity, reveals a bold new theory for why we age. As he writes: "Aging is a disease, and that disease is treatable." This eye-opening and provocative work takes us to the frontlines of research that is pushing the boundaries on our perceived scientific limitations, revealing incredible breakthroughs—many from Dr. David Sinclair's own lab at Harvard—that demonstrate how we can slow down, or even reverse, aging. The key is activating newly discovered vitality genes, the descendants of an ancient genetic survival circuit that is both the cause of aging and the key to reversing it. Recent experiments in genetic reprogramming suggest that in the near future we may not just be able to feel younger, but actually become younger. Through a page-turning narrative, Dr. Sinclair invites you into the process of scientific discovery and reveals the emerging technologies and simple lifestyle

changes—such as intermittent fasting, cold exposure, exercising with the right intensity, and eating less meat—that have been shown to help us live younger and healthier for longer. At once a roadmap for taking charge of our own health destiny and a bold new vision for the future of humankind, Lifespan will forever change the way we think about why we age and what we can do about it.

**Dating and Mating in a Techno-Driven World** Rachel Hoffman, 2018-01-25

Authored by a sex therapist who regularly works with clients wanting to improve their relationships, this book explains how technology can create conflict or additional anxiety and discloses techniques to help individuals gain confidence or strengthen their personal relationships. The statistics are telling: 85 percent of all adults use the Internet; 88 percent use email; 91 percent own cell phones; 56 percent own smartphones; 73 percent send and receive text messages; and 67 percent use social networking sites. The advent of personal communication devices and ubiquitous connectivity has dramatically shifted the way we communicate, and as a result, the way we date and pursue relationships has changed. The share of 18- to 24-year-olds who use online dating has roughly tripled from 10 percent in 2013 to 27 percent today. Modern dating techniques and technology-enabled interpersonal communication have resulted in very distinct emotional side effects. *Dating and Mating in a Techno-Driven World* explores dating in our 21st-century world with a unique approach, providing understandable information for anyone who is dating or seeking a long-term relationship while also serving as a clinical guide for therapists who want to learn how to treat individuals and especially couples presenting with some sort of issue related to technology. Instead of simply offering an analysis of the trends that are occurring, author Rachel Hoffman addresses the interpersonal problems and conflicts that result from digital or remote communication and courting and explains how to treat them. The topics addressed include utilizing dating apps, the effects of social media on relationships, and how technology can be distracting in relationships. Each chapter of the book supplies a case study or vignette, an analysis of the situation, research findings related to the topic, and clinical information that identifies the implications for therapists working with individuals or couples with a similar experience.
