Video Conferencing over IP: Configure, Secure, and Troubleshoot Michael

Gough, 2006-06-07 This book de-mystifies the technology behind video conferencing and provides single users and small enterprises with the information they need to deploy video conferencing efficiently and cost effectively. For many years, the promise of high quality, low cost video conferencing has been an attractive solution for businesses interested in cutting travel costs while maintaining the benefits of face-to-face contact. Unfortunately, most solutions never lived up to the promise, due primarily to lack of internet bandwidth and poorly developed protocols. That's no all changed. The capacity has been created, the hardware works, and businesses are more eager than ever to cut down on travel costs. * Budget conscious methods for deploying Video over IP in small to medium enterprises * Coverage of Cisco, Microsoft, Skype, AOL, Google, VidiTel and many other products * How to identify and resolve nagging quality of service issues such as transmission delays and out of synch video-to-voice feeds

Google Talking Joshua Brashars, Johnny Long, 2006-12-13 Nationwide and around the world, instant messaging use is growing, with more than 7 billion instant messages being sent every day worldwide, according to IDC. comScore Media Metrix reports that there are 250 million people across the globe--and nearly 80 million Americans--who regularly use instant messaging as a quick and convenient communications tool. Google Talking takes communication to the next level, combining the awesome power of Text and Voice! This book teaches readers how to blow the lid off of Instant Messaging and Phone calls over the Internet. This book will cover the program "Google Talk in its entirety. From

detailed information about each of its features, to a deep-down analysis of how it works. Also, we will cover real techniques from the computer programmers and hackers to bend and tweak the program to do exciting and unexpected things. Google has 41% of the search engine market making it by far the most commonly used search engine The Instant Messaging market has 250 million users world wide Google Talking will be the first book to hit the streets about Google Talk
