The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Tube Ritual Brian G. Johnson,2018-10-02 A successful YouTuber shares his strategic system for growing a channel—and going from zero to thousands of subscribers. You have to start with no videos, views, or subscribers. Furthermore, more than four hundred minutes of content is uploaded to YouTube each minute. To say that it's challenging to grow a channel is an understatement! In fact, less than three percent of YouTube channels ever gain more than ten thousand subscribers. Yet, in a one-year period, Brian G. Johnson gained 10,623 subscribers and drove over half a million video views. Truly beginning from zero, Brian had no previous YouTube success to draw from and had to learn the nuances of camera settings, editing options, and technical details that often become roadblocks. Furthermore, he did it in a small and competitive niche, the YouTube video marketing niche. How, you ask? By researching, testing, and tweaking various video growth methods over a one-year period in order to identify why the YouTube algorithm promotes one video over another. Ultimately, this led to the creation of a video ritual based on his findings—a series of actions according to a prescribed order. More than a mere guide, Tube Ritual is a one-year case study with the goal of driving more views and converting more viewers into subscribers. For those already creating videos or who want to in the future, Tube Ritual contains detailed, step-by-step information that plain works. Covering topics from branding to thumbnails, video structure, YouTube SEO, video calls to action, playlist strategies, channel strategies, and more, Tube Ritual leaves no stone unturned.

Has China Won? Kishore Mahbubani, 2020-03-31 The defining geopolitical contest of the twenty-first century is between China and the US. But is it avoidable? And if it happens, is the outcome already inevitable? China and America are world powers without serious rivals. They eye each other warily across the Pacific; they communicate poorly; there seems little natural empathy. A massive geopolitical contest has begun. America prizes freedom; China values freedom from chaos. America values strategic decisiveness; China values patience. America is becoming society of lasting inequality; China a meritocracy. America has abandoned multilateralism; China welcomes it.
