Digital Culture & Society (DCS) Ramón Reichert,Annika Richterich,Pablo Abend,Mathias Fuchs,Karin Wenz,2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

Find more than 111 tips on how to create professional videos that enchant your audience. Get detailed instructions in this book on how and where to market and profit from your video production.

Technology for Physical Educators, Health Educators, and Coaches Seth E. Jenny,Jennifer M. Krause,Tess Armstrong,2020-03-24 A wide variety of technology is available to physical educators, health teachers, and coaches—but technology is only helpful if people know how to use it effectively. This text will help health and physical education teachers and coaches improve their abilities by learning to effectively use technology in the areas of instruction, assessment, management, communication, professional development, and advocacy. The effective use of technology as outlined in this book can improve student and athlete performance and assessment and motivate active and healthy lifestyles among students. An important distinction with this book is that it goes beyond simply discussing the technology tools—it helps readers understand how to use technology to improve instruction. Practical examples of how to use various technological tools are included for different settings and a variety of age groups (child to adult). Readers will learn about the effective use of technology in physical education, health education, and coaching. Technology for Physical Educators, Health Educators, and Coaches is a practical, hands-on text that offers a number of useful tools: What Does the Research Say? sidebars that provide evidence for which technologies do and do not work in physical education, health education, and sport coaching, with accompanying explanations Tips, examples, and interviews from seasoned professionals on various types of technology Chapter objectives, key terms, review questions, and open-ended discussion questions, which could prove useful for online discussion boards Instructor ancillaries, including PowerPoint presentations and learning management system (LMS)–ready quizzes for each chapter, that help instructors organize, plan, teach, and assess content effectively Online web resource that offers a variety of tools, including additional practitioner interviews; links to websites, videos, and podcasts; sample handouts, and other activities and resources from practicing professionals. The online web resource will be updated annually to keep current with the changing technology. Social media accounts (@Tech4HPECoach) on Twitter and Facebook allow readers to further connect and share ideas. Use the hashtag #Tech4HPECoach across various social media platforms too! (The web resource is included with all new print books and some ebooks. For ebook formats that don’t provide access, the web resource is available separately.) The text is organized into six parts. Part I focuses on how technology can assist in meeting specific goals, objectives, and national standards within physical education, health education, and sport coaching. Part II covers technology for class and team management as well as communication technology, while part III explores how to leverage technology to facilitate teaching and learning, including within a traditional classroom, online, and with special populations. The authors address how to use technology for assessment in part IV, and part V delves into how technology can benefit professional development and advocacy. In part VI, the authors detail the all-important legal and financial aspects of technology.

Webcasting Worldwide Louisa S. Ha, Richard J. Ganahl, 2013-03-07 Webcasting Worldwide tackles one of the most timely topics in mass communication today—the delivery of audio and video content via the Web, or webcasting—employing a global perspective to explore the subject. It is unique in providing a theoretical framework by which to analyze business models of emerging media, and it also examines the business practices of leading webcasters in the world's most developed broadband markets. With webcasting in its early development, the approaches discussed in this volume set the standards for the webcasting industry. Representing the major broadband markets in the world, this text is an authoritative and valuable reference for both researchers and practitioners. The chapters relate the business practices of webcasting to the media market environment and established media industries, such as television and radio, as well as government and non-profit organizations. Downloadable resources offer PowerPoint charts for use in training, education, and research, along with tables, graphs, screenshots, and hyperlinks. Webcasting Worldwide is essential reading for academic researchers and media industry practitioners, and the volume will be a useful text in advanced courses addressing media technology, media management, and international communication. For updates about the book chapters and latest commentaries on topics related to webcasting business models, please visit the Webcasting Business Models Blog at <http://webcastingworldwide.blogspot.com> Winner of The Association for Education in Journalism and Mass Communication Picard Award for Media Management and Economics 2007.

Social Readers Leslie B. Preddy, 2010-04-08 A compilation of over 50 reading project ideas, including implementation ideas and examples, helping to promote lifelong reading habits while meeting the social and interactive needs of today's youth. Social Readers: Promoting Reading in the 21st Century is about making reading meaningful to the Web 2.0 generation through active engagement and socially interactive projects. Organized into four broad categories—entertainment, active participation, control and choice, and technology—the book offers more than 50 specific project ideas for promoting reading in the classroom, school, library media center, or public library. Each project includes a description, cost estimate, planning time needed, suggested supplies, and instructions for running the project successfully. Topics such as sharing, involvement, book promotions, social networking, and developing informed readers are also covered. A preface and introduction provide an overview of the needs and preferences of the current generation of students, a discussion of the necessity for socializing reading, and insights into how to use the book effectively. Bottom line: Social Readers will help librarians and educators change their practices to accommodate the ever-evolving needs of today's students.

Ultrasound Program Management Vivek S. Tayal,Michael Blaivas,Troy R Foster,2018-02-01 This book addresses the wide range of issues that face the program leader – from how to choose a site and how to negotiate for equipment, to how to determine staffing requirements and how to anticipate and defuse possible turf issues with other programs and services in the hospital or healthcare facility. The early chapters of this book focus on the leadership of your program whether in your department or institution. The second section centers on education at all levels recognizing that smaller machines have made ultrasound available for medical students to advanced practitioners. The third section provides detailed logistics on equipment, maintenance, and safety. The fourth section focuses on a quality improvement program and includes a chapter on the workflow process. For those with limited budgets we also offer a section on practical operating and educational solutions. The fifth section offers insight into hospital level credentialing, quality assurance, national politics, and recent issues with accreditation. This is followed by reimbursement and coding. The last section covers topics in specialized communities. Chapters focus on ultrasound in global health, emergency medical services, pediatrics, critical care, community and office based practices. Multiple US working documents including checklists, graphs, spreadsheets, tables, and policy appendices are included.
