Special and Gifted Education: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2016-04-25 Diverse learners with exceptional needs require a specialized curriculum that will help them to develop socially and intellectually in a way that traditional pedagogical practice is unable to fulfill. As educational technologies and theoretical approaches to learning continue to advance, so do the opportunities for exceptional children. *Special and Gifted Education: Concepts, Methodologies, Tools, and Applications* is an exhaustive compilation of emerging research, theoretical concepts, and real-world examples of the ways in which the education of special needs and exceptional children is evolving. Emphasizing pedagogical innovation and new ways of looking at contemporary educational practice, this multi-volume reference work is ideal for inclusion in academic libraries for use by pre-service and in-service teachers, graduate-level students, researchers, and educational software designers and developers.

Advancing Higher Education with Mobile Learning Technologies: Cases, Trends, and Inquiry-Based Methods Keengwe, Jared, 2014-07-31 This book examines the implementation and success of mobile digital learning tools, with the inclusion of data on specific learning environments enhanced by ubiquitous educational technologies--Provided by publisher.

Virtual Court Study David Tait, Vincent Tay, 2019-07 This was a pilot study to develop the technological infrastructure for a virtual court or tribunal, get a preliminary idea about how potential users might respond and identify limitations of the technology that would need to be addressed before such options become suitable for regular use. In a 'virtual' hearing, there is no physical room for the court (or tribunal) at all: the participants take part by multi-channel video link.

Living Donor Advocacy JENNIFER STEEL, 2013-11-22 The inadequate supply of organs in the United States and other countries continues to drive the reliance on living donor transplantation. In 2000, representatives of the transplant community convened for a meeting on living donation in an effort to provide guidelines to promote the welfare of living donors. The consensus statement that resulted from this meeting recommended that transplant centers retain an Independent Living Donor Advocate (ILDA) to focus on the best interest of the donor. A decade later, nearly every transplant center in the United States, performing living donor surgeries, has incorporated an ILDA into their living donor screening and/or evaluation process. Living Donor Advocate provides an overview of living donation and its risks, ethical challenges and future developments, as well as details about the role a Living Donor Advocate plays in the transplantation process. This book will interest health professionals across various disciplines and patients undergoing transplantation or living donor surgery.

The Citadel: 2018 The Community of Lacc, 2018-10-09 The 2018 edition of *The Citadel*, a literary magazine/anthology of the Arts from the students, faculty, and community surrounding Los Angeles City College. Each piece in this collection features the unique perspective of LACC's extended family, and it includes the 2018 winners of the annual English and ESL Writing Contest. This collection covers a range of styles, themes, and forms of personal expression from the immensely powerful personal essay by Victoria Boutros to the precise, exacting poetry of Scott Noon Creley. You can find the wild-eyed prose of Jim Priest as well as the haunting stories of time and place by Billy Yates. All of this and more, all from writers that range from ESL students to professional authors. *The Citadel* is a non-profit publication, and any revenue is immediately invested into the next edition. The faculty of the ENL/ESL department at LACC are proud to offer this showcase of our students' talents as well as to provide a voice for our community.

The Pixelated Prisoner Carolyn McKay, 2018-06-13 Technological linkages between justice and law enforcement agencies are radically altering criminal process and access to justice for prisoners. Video links, integral to an increasingly networked justice matrix, enable the custodial appearance of prisoners in remote courts and are becoming the dominant form of court appearance for incarcerated defendants. This book argues that the incorporation of such technologies into prisons is not without consequence: technologies make a critical difference to prisoners' experiences of criminal justice. By focusing on the prison endpoint and engaging with the population most affected by video links – the prisoners themselves – this book interrogates the legal and conceptual shifts brought about by the technology's displacement of physical court appearance. The central argument is that custodial appearance has created a heightened zone of demarcation between prisoners and courtroom participants. This demarcation is explored through the transformed spatial, corporeal and visual relationships. The cumulative demarcations challenge procedural justice and profoundly recompose prisoners' legal experiences in ways not necessarily recognised by policy-makers.

Law on Display Neal Feigenson, Christina Spiesel, 2011-05-13 Visual and multimedia digital technologies are transforming the practice of law: how lawyers construct and argue their cases, present evidence to juries, and communicate with each other. They are also changing how law is disseminated throughout and used by the general public. What are these technologies, how are they used and perceived in the courtroom and in wider culture, and how do they affect legal decision making? In this comprehensive survey and analysis of how new visual technologies are transforming both the practice and culture of American law, Neal Feigenson and Christina Spiesel explain how, when, and why legal practice moved from a largely words-only environment to one more dependent on and driven by images, and how rapidly developing technologies have further accelerated this change. They discuss older visual technologies, such as videotape evidence, and then current and future uses of visual and multimedia digital technologies, including trial presentation software and interactive multimedia. They also describe how law itself is going online, in the form of virtual courts, cyberjuries, and more, and explore the implications of law's movement to computer screens. Throughout *Law on Display*, the authors illustrate their analysis with examples from a wide range of actual trials.

Online Courts and the Future of Justice Richard Susskind, 2021-07 In this book Richard Susskind, a pioneer of rethinking law for the digital age confronts the challenges facing our legal system and the potential for

technology to bring much needed change. Drawing on years of experience leading the discussion on conceiving and delivering online justice, Susskind here charts and develops the public debate.

On the Edge of Justice ,2006 This study examines the legal and access to justice issues experienced by people with a mental illness. The methodology comprised a literature review, focus group discussions with key stakeholders, in-depth interviews with 81 legal and non-legal service providers, and 30 semi-structured interviews with people who have a mental illness. The report concluded that people with a mental illness experience a number of legal issues with potentially serious personal and financial consequences, and face many barriers in having these legal issues addressed.

The Inner Fire Rohinton F. Nariman,2016-09-01 Zoroastrianism might be a fast-declining religion in today's world, but what is remarkable is its eternal enigma. It is hard to believe that the hymns of the faith have travelled down to us in accurate form and poetic metre, purely through the memory of generations of priests. Zarathustra, the founder of the faith, belonged to a period of Persian history which antedated the Achaemenid dynasty (from 550 BC to 330 BC). He followed the old Rigvedic religion until he was the first to receive a revelation from Almighty God. The Gathas—the most sacred text of the Zoroastrian faith—were first composed and sung by Prophet Zarathustra. Along with the complete comprehension of the Gathas, consisting 238 verses in the same language as the Rigveda, this book is for anyone who wants to gain a deeper understanding of the purpose of life on earth and what happens to mankind after death. The Gathas are extremely relevant in modern times for the fundamental reason that they are timeless. They do not emanate from Prophet Zarathustra's mind, but are revelations from Almighty God, making them universal in their approach. This book is an attempt to help the reader fully comprehend these and choose the path of leading a righteous life.

The Democratic Courthouse Linda Mulcahy,Emma Rowden,2019-09-20 The Democratic Courthouse examines how changing understandings of the relationship between government and the governed came to be reflected in the buildings designed to house the modern legal system from the 1970s to the present day in England and Wales. The book explores the extent to which egalitarian ideals and the pursuit of new social and economic rights altered existing hierarchies and expectations about how people should interact with each other in the courthouse. Drawing on extensive public archives and private archives kept by the Ministry of Justice, but also using case studies from other jurisdictions, the book details how civil servants, judges, lawyers, architects, engineers and security experts have talked about courthouses and the people that populate them. In doing so, it uncovers a changing history of ideas about how the competing goals of transparency, majesty, participation, security, fairness and authority have been achieved, and the extent to which aspirations towards equality and participation have been realised in physical form. As this book demonstrates, the power of architecture to frame attitudes and expectations of the justice system is much more than an aesthetic or theoretical nicety. Legal subjects live in a world in which the configuration of space, the cues provided about behaviour by the built form and the way in which justice is symbolised play a crucial, but largely unacknowledged, role in creating meaning and constituting legal identities and rights to participate in the civic sphere. Key to understanding the modern-day courthouse, this book will be of interest to scholars and students in all fields of law, architecture, sociology, political science, psychology and criminology.

Resolving Civil Disputes, 2nd Edition Michael Legg,2023-12-03 Efficient, effective and ethical resolution of disputes is central to civil society. However, resolution processes are subject to significant practical and policy issues. The revised and updated second edition of Resolving Civil Disputes identifies and explores these challenges. Structured to address the roles that litigation and various other forms of dispute resolution play in resolving civil disputes in the modern era, this book fosters an understanding of how to evaluate and select the most appropriate resolution technique for a civil dispute, through processes such as negotiation, mediation, arbitration and litigation. The book explains the distinctive and vital role of litigation, while questioning whether a broader view of justice may be taken and how the courts and alternative dispute resolution may interact. The mechanics of litigation and mediation are examined through insights into the key steps of each process. The utility of dispute resolution techniques to deliver access to justice is discussed with attention placed on those members of society who suffer economic or social disadvantage. The text explores key responses to a lack of access to justice such as legal aid, pro bono, class actions and litigation funding. The text also examines the impact of technology on lawyers, litigation and alternative dispute resolution and addresses the development and practice of transnational litigation. The clear and authoritative analysis has been contributed by leading experts from the judiciary, academia, legal and dispute resolution practice. This unique text provides invaluable guidance for practitioners, policy-makers, students, researchers and anyone interested in dispute resolution techniques. Features * Considers roles of litigation and other ADR methods as elements in the dispute resolution process * Discusses key practice and policy questions relevant to both practitioners and policy-makers * Wide-ranging topics include access to justice, class actions and litigation funding * Explores the impact of technology on legal practice * Authoritative and reliable content * Contributions from eminent thought leaders Related Titles * Boule, Mediation and Conciliation in Australia: Principles Process Practice, 2023 * Field, Australian Dispute Resolution, 2022 * Lethbridge et al, Civil Litigation: Strategy and Practice, 2023
