Agent Orange Alvin L. Young,2022-07-25 This book tells the story of Agent Orange, its usage and the policies that surround it. Agent Orange contains a contaminant known as TCDD. It was the most widely used defoliant from 1965 – 1970 and became one of three major tactical herbicides used in Vietnam. More than 45 major health studies were conducted with Vietnam veterans from the United States, Australia, New Zealand, and Korea seeking a relationship between veterans’ health and TCDD. Allegations of birth defects in the families of Vietnam veterans and the Vietnamese represented a case study in propaganda and deliberate misinformation by the government of Vietnam. The Policies of the US Government implemented by Congress and the Department of Veterans Affairs (DVA) identified 17 recognized associated presumptive diseases that failed the tests of “cause and effect” and common sense. This book tells the story of Agent Orange, its usage, the health studies and those policies from a diverse range of perspectives, delving into science, statistics, history, policy and ethics. It is of interest to scholars engaged in history, political and social philosophy and ethics.

Grunt Slang in Vietnam Gordon L. Rottman,2020-02-04 A look at how combat, culture, and military tradition influenced soldiers’ language in Vietnam from the award-winning, USA Today–bestselling author. The slang, or unique vocabulary, of the soldiers and marines serving in Vietnam, was a mishmash of words and phrases whose origins reached back to the Korean War, World War II, and even earlier. Additionally, it was influenced by the United States’ rapidly changing protest culture, ideological and poetical doctrine, ethical and cultural conflicts, racialism, and drug culture. This “slanguage” was rendered even more complex by the Pidgin Vietnamese-English spoken by Americans and Vietnamese alike. But perhaps most importantly, it reflected the soldiers’ actual daily lives, played out in the jungles, swamps, and hills of Vietnam.

Land of Childhood's Fears - Faith, Friendship, and the Vietnam War David Todeschini,2005-04-30 The author's experience with the Medical Civic Action Program, and the corruption and evil aspects of the war. Operation Phoenix, drugs, My Lai, and a new theory on the assassination of John F Kennedy - Transcripts of Vet's Rap Sessions, heart-breaking and heart-warming poetry, PTSD, and the decline of morality in American society since that war.

After the Map William Rankin,2016-07-01 For most of the twentieth century, maps were indispensable. They were how governments understood, managed, and defended their territory, and during the two world wars they were produced by the hundreds of millions. Cartographers and journalists predicted the dawning of a “map-minded age,” where increasingly state-of-the-art maps would become everyday tools. By the century’s end, however, there had been decisive shift in mapping practices, as the dominant methods of land surveying and print publication were increasingly displaced by electronic navigation systems. In *After the Map*, William Rankin argues that although this shift did not render traditional maps obsolete, it did radically change our experience of geographic knowledge, from the God’s-eye view of the map to the embedded subjectivity of GPS. Likewise, older concerns with geographic truth and objectivity have been upstaged by a new emphasis on simplicity, reliability, and convenience. *After the Map* shows how this change in geographic perspective is ultimately a transformation of the nature of territory, both social and political.

Choice of Force David Last,Bernd Horn,2005-05-01 Twenty years from now, security issues may dictate that counter-terrorism is more important than operations to secure stability and rule of law. Security at the border, ethnic demography, and the perspective of the next generation will determine what strategic choices Canada will make about special military operations and the elite forces developed to carry out special missions.

Intelligent Information and Database Systems Ngoc-Thanh Nguyen,Bogdan Trawiński,Hamido Fujita,Tzung-Pei Hong,2016-03-08 The two-volume proceedings of the ACIIDS 2016 conference, LNAI 9621 + 9622, constitutes the refereed proceedings of the 8th Asian Conference on Intelligent Information and Database Systems, held in Da Nang, Vietnam, in March 2016. The History of Cartography, Volume 6 Mark Monmonier,2015-05-18 For more than thirty years, the History of Cartography Project has charted the course for scholarship on cartography, bringing together research from a variety of disciplines on the creation, dissemination, and use of maps. Volume 6, *Cartography in the Twentieth Century*, continues this tradition with a groundbreaking survey of the century just ended and a new full-color, encyclopedic format. The twentieth century is a pivotal period in map history. The transition from paper to digital formats led to previously unimaginable dynamic and interactive maps. Geographic information systems radically altered cartographic institutions and reduced the skill required to create maps. Satellite positioning and mobile communications revolutionized wayfinding. Mapping evolved as an important tool for coping with complexity, organizing knowledge, and influencing public opinion in all parts of the globe and at all levels of society. Volume 6 covers these changes comprehensively, while thoroughly demonstrating the far-reaching effects of maps on science, technology, and society—and vice versa. The lavishly produced volume includes more than five hundred articles accompanied by more than a thousand images. Hundreds of expert contributors provide both original research, often based on their own participation in the developments they describe, and interpretations of larger trends in cartography. Designed for use by both scholars and the general public, this definitive volume is a reference work of first resort for all who study and love maps.

Encyclopedia of Military Science G. Kurt Piehler,2013-07-24 The Encyclopedia of Military Science provides a comprehensive, ready-reference on the organization, traditions, training, purpose, and functions of today’s military. Entries in this four-volume work include coverage of the duties, responsibilities, and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political, social, legal, economic, and technological factors. A large component is devoted to issues of leadership, group dynamics, motivation, problem-solving, and decision making in the military context. Finally, this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations, the First Persian Gulf War, the events surrounding 9/11, and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events.

Dealing with the Threat of Cruise Missiles Dennis M Gormley,2013-09-13 How can the core transatlantic Allies make coalitions more effective?

One year on from Kosovo, disparities in the capabilities of the coalition partners, as well as uneven levels of prior coordination, persist. To address these problems will require much greater force planning in peacetime. This stimulating and influential work offers one of the most comprehensive independent assessments to date of the Kosovo campaign, and of the performance of the NATO allies. An important subject area in which there is a great deal of international interest.

The Mammoth Book of Inside the Elite Forces Nigel Cawthorne,2012-03-01 The most comprehensive and up-to-date guide to American and British special forces, covering all aspects of their equipment, training and deployment in the Iraq age of warfare. It takes a special kind of person to join the Special Forces and those to pass the stringent entrance requirements are subjected to the most rigorous training. They're trained to be super-fit, taught to survive in the most adverse conditions, and turned into killing machines. This book reveals what makes these men tick, and everything you need to know to become one of them. It covers all the types of training required - for fitness, combat, survival, navigation, communication, infiltration, interrogation, extraction and evasion. And it details the full array of weapons used, from small arms and knives to explosives and air back-up. Also included are full listings of all the units - including the SAS, Green Berets, SBS, Navy SEALs, Delta Force, Army Rangers - and their deployment in present-day conflicts such as Desert Storm, Somalia, Afghanistan, Iraq and anti-terrorist operations.

Invasion of Laos, 1971 Robert D. Sander,2014-02-26 In 1971, while U.S. ground forces were prohibited from crossing the Laotian border, a South Vietnamese Army corps, with U.S. air support, launched the largest airmobile operation in the history of warfare, Lam Son 719. The objective: to sever the North Vietnamese Army's main logistical artery, the Ho Chi Minh Trail, at its hub, Tchepone in Laos, an operation that, according to General Creighton Abrams, could have been the decisive battle of the war, hastening the withdrawal of U.S. forces and ensuring the survival of South Vietnam. The outcome: defeat of the South Vietnamese Army and heavy losses of U.S. helicopters and aircrews, but a successful preemptive strike that met President Nixon's near-term political objectives. Author Robert Sander, a helicopter pilot in Lam Son 719, explores why an operation of such importance failed. Drawing on archives and interviews, and firsthand testimony and reports, Sander chronicles not only the planning and execution of the operation but also the maneuvers of the bastions of political and military power during the ten-year effort to end Communist infiltration of South Vietnam leading up to Lam Son 719. The result is a picture from disparate perspectives: the Kennedy, Johnson, and Nixon administrations; the South Vietnamese government led by President Nguyen Van Thieu; and senior U.S. military commanders and army aviators. Sander's conclusion is at once powerful and persuasively clear. Lam Son 719 was doomed in both the planning and execution—a casualty of domestic and international politics, flawed assumptions, incompetent execution, and the resolve of the North Vietnamese Army. A powerful work of military and political history, this book offers eloquent testimony that “failure, like success, cannot be measured in absolute terms.”

In Our Duffel Bags Richard C. Geschke,Robert A. Toto,2011-07-29 They were young, and they were fighting a war no one wanted to fight. They chose to serve their country despite these challenges. In In Our Duffel Bags , authors Richard Geschke and Robert A. Toto narrate the stories and the experiences of what junior army officers faced as citizen soldiers during pre-voluntary military service from 1969 to 1972. This memoir provides an inside view of the military on the training fields of the Cold War in West Germany and on the combat fields of Vietnam. It presents a poignant and detailed drawing of what junior officers contended with during these turbulent times in American history. From the training grounds in Fort Benning, Georgia; to the jungle warfare school in Panama; to the streets of West Germany; and to the rice paddies of Vietnam, In Our Duffel Bags intimately describes the sights, sounds, and smells of life in the military Much more than a historical account, In Our Duffel Bags interweaves Geschkes and Totos individual experiences and perspectives, ties them back to their families, and sets it all within the volatile historical and political setting of the 1960s and 1970s. It shows how these times affected history as well as impact current politics.

Pilgrim Days Alastair MacKenzie,2019-03-21 'We are the Pilgrims, master; we shall go, Always a little further; it may be, Beyond that last blue mountain barred with snow.' If there was ever anyone who went a little further, a little beyond, it was Alastair MacKenzie. In a career spanning 30 years, MacKenzie served uniquely with the New Zealand Army in Vietnam, the British Parachute Regiment, the British Special Air Service (SAS), the South African Defence Force's famed ParaBats, the Sultan of Oman's Special Forces and a host of private security agencies and defence contractors. MacKenzie lived the soldier's life to the full as he journeyed 'the Golden Road to Samarkand'. This extraordinary new work from the author of Special Force: The Untold Story of 22nd Special Air Service Regiment (SAS) vividly documents the experience of infantry combat in Vietnam, life with the Paras, the tempo of selection for UK Special Forces, covert SAS operations in South Armagh and SAS Counter Terrorist training on the UK mainland, vehicle-mounted Pathfinder Brigade insertions into Angola and maritime counter-terrorism work in Oman.
