This is Why I Came Mary Rakow, 2015-12-15 A woman sits in prayerful meditation, waiting to offer her first confession in more than thirty years. She holds a small book on her lap, one that she's made, and tells herself again the Bible stories it contains, the ones she has written anew, for herself, each story told aslant, from Jonah to Jesus, Moses to Mary Magdalen. Woven together and stitched by hand, they provide a new version, virtually a new translation, of the heart of this ancient and sacred text. Rakow's Bernadette traces, through each brief and familiar story, a line where belief and disbelief touch, the line that has been her home, ragged and neglected, that hidden seam. The result is an amazing book of extraordinary beauty, so human and humorous, and yet so holy it becomes a work of poetry, a canticle, a song of lament and praise. In the private terrain of silence and devotion, shared with us by a writer of power and grace, Rakow offers, through Bernadette, her own *lectio divina* for the modern world. No reader will forget this book or be able to read the Bible itself without a new perspective on this text that remains, arguably, Western civilization's greatest literary achievement.

The Heart of Evangelism Jerram Barrs, 2005-02-08 All Christians are called. Called to love God with all that we are. Called to serve Him. Called to reach out to the lost. However, if we are honest, the majority of us would admit that we find this last calling the most difficult. While we gladly support the evangelistic ministries of others, many of us feel discouraged by our own attempts at witnessing because our memorized approaches don't seem to work. This biblical study of evangelism gracefully reminds us that the New Testament model of witnessing is not a one-size-fits-all methodology. With compassion for the lost filling every page, Jerram Barrs shows the variety of approaches used in the New Testament-where the same uncompromised Gospel was packaged as differently as the audience-and calls you to follow its example. You can learn to witness comfortably in your particular circumstances so that sharing Christ doesn't feel like a chore. And as you watch God work in the lives of others and see the great blessings He brings, you'll discover what a privilege it is to live out the heart of evangelism: truly loving others to Christ.

Dark Ecology Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings

and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Blockchain Chicken Farm Xiaowei Wang, 2020-10-13 A New York Times Book Review Editors' Choice A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of *How to Do Nothing* From FSG0 x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In *Blockchain Chicken Farm*, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, *Blockchain Chicken Farm* is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

The Gargoyle Andrew Davidson, 2009-06-23 An extraordinary debut novel of love that survives the fires of hell and transcends the boundaries of time. On a burn ward, a man lies between living and dying, so disfigured that no one from his past life would even recognize him. His only comfort comes from imagining various inventive ways to end his misery. Then a woman named Marianne Engel walks into his hospital room, a wild-haired, schizophrenic sculptress on the lam from the psych ward upstairs, who insists that she knows him – that she has known him, in fact, for seven hundred years. She remembers vividly when they met, in another hospital ward at a convent in medieval Germany, when she was a nun and he was a wounded mercenary left to die. If he has forgotten this, he is not to worry: she will prove it to him. And so Marianne Engel begins to tell him their story, carving away his disbelief and slowly drawing him into the orbit and power of a word he'd never uttered: love.

Edible Insects and Human Evolution Julie J. Lesnik, 2019-02-13 Researchers who study ancient human diets tend to focus on meat eating because the practice of butchery is very apparent in the archaeological record. In this volume, Julie Lesnik highlights a different food source, tracing evidence that humans and their hominin ancestors also consumed insects throughout the entire course of human evolution. Lesnik combines primatology, sociocultural anthropology, reproductive physiology, and paleoanthropology to examine the

role of insects in the diets of hunter-gatherers and our nonhuman primate cousins. She posits that women would likely spend more time foraging for and eating insects than men, arguing that this pattern is important to note because women are too often ignored in reconstructions of ancient human behavior. Because of the abundance of insects and the low risk of acquiring them, insects were a reliable food source that mothers used to feed their families over the past five million years. Although they are consumed worldwide to this day, insects are not usually considered food in Western societies. Tying together ancient history with our modern lives, Lesnik points out that insects are highly nutritious and a very sustainable protein alternative. She believes that if we accept that edible insects are a part of the human legacy, we may have new conversations about what is good to eat—both in past diets and for the future of food.

Citizen Soldiers Stephen E. Ambrose, 2013-04-23 From Stephen E. Ambrose, bestselling author of *Band of Brothers* and *D-Day*, the inspiring story of the ordinary men of the U.S. army in northwest Europe from the day after D-Day until the end of the bitterest days of World War II. In this riveting account, historian Stephen E. Ambrose continues where he left off in his #1 bestseller *D-Day*. *Citizen Soldiers* opens at 0001 hours, June 7, 1944, on the Normandy beaches, and ends at 0245 hours, May 7, 1945, with the allied victory. It is biography of the US Army in the European Theater of Operations, and Ambrose again follows the individual characters of this noble, brutal, and tragic war. From the high command down to the ordinary soldier, Ambrose draws on hundreds of interviews to re-create the war experience with startling clarity and immediacy. The Memory Room Mary Rakow, 2015-07-01 The novel opens with Barbara, who, after remembering incidents of torture at the hands of her father, has quite literally broken down. Found inside a disabled elevator, she is no longer able to function with her new consciousness of these memories—those which are so resistant to understanding. Confronted with this knowledge of evil, she must begin the painful process of remembering and reconstructing a new whole self. Helping Barbara to navigate her grief and her memories are her therapist, the Psalms, and most of all, the words of Paul Celan. Paul Celan: 1920–1970, Poet. An eastern European holocaust survivor who wrote haunting poems about the darker spiritual trials of life and relationships that exhibit a compact style that fuses broken words and chopped syntax to produce a stark musicality. This is a novel about a woman who goes to hell and back. It's a story which affirms the resilience of the human spirit and the healing power of love and faith.

How to Change Your Mind Michael Pollan, 2019-05-14 Now on Netflix as a 4-part documentary series! “Pollan keeps you turning the pages . . . cleareyed and assured.” —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is

undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's mental travelogue is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

Hollywood's Lost Backlot Steven Bingen, 2018-12-01 Hollywood is a transitory place. Stars and studios rise and fall. Genres and careers wax and wane.

Movies and movie moguls and movie makers and movie palaces are acclaimed and patronized and loved and beloved, and then forgotten. And yet... And yet one place in Southern California, built in the 1920s by (allegedly murdered) producer Thomas Ince, acquired by Cecil B. DeMille, now occupied by Amazon.com, has been the home for hundreds of the most iconic and legendary films and television shows in the world for a remarkable and star-studded fifty years. This bizarre, magical place was the location for Tara in *Gone with the Wind*, the home of King Kong and Superman, of Tarzan and Batman, of the Green Hornet, of Elliot Ness, of Barney Fife, of Tarzan, of Rebecca, of *Citizen Kane*, of Hogan's Heroes and Gomer Pyle, of Lasse, of *A Star is Born* and *Star Trek*, and at least twice, of Jesus Christ. For decades, every conceivable star in Hollywood, from Clark Gable to Warren Beatty, worked and loved and gave indelible performances on the site. And yet, today, it is completely forgotten. Pretty much anyone alive today, from college professors to longshoremen, have probably heard of Paramount and of MGM, of Warner Bros. and of Universal, and of Disney and Fox and Columbia, but the place where many of these studio's beloved classics were minted is today as mysterious and unknowable as the sphinx. *Hollywood's Lost Backlot: 40 Acres of Glamour and Mystery* will, for the first time ever, unwind the colorful and convoluted threads that make for the tale of one of the most influential and photographed places in the world. A place which most have visited, at least on screen, and which has contributed significantly and unexpectedly to the world's popular culture, and yet which few people today, paradoxically, have ever heard of.

The God Who Is There D. A. Carson, 2010-07-01 It can no longer be assumed that most people--or even most Christians--have a basic understanding of the Bible. Many don't know the difference between the Old and New Testament, and even the more well-known biblical figures are often misunderstood. It is getting harder to talk about Jesus accurately and compellingly because listeners have no proper context with which to understand God's story of redemption. In this basic introduction to faith, D. A. Carson takes seekers, new Christians, and small groups through the big story of Scripture. He helps readers to know what they believe and why they believe it. The companion leader's guide helps evangelistic study groups, small groups, and Sunday school classes make the best use of this book in group settings.

Monkey on a Stick John Hubner, Lindsey Gruson, 1988 When ex-Krishna Steve Bryant launched a one-man holy war against the Hare Krishna cult, his body was found murdered. It was the Krishnas' response to make Bryant a monkey on a stick, a gruesome warning to all other Krishnas that death was in store for those with dreams of defection. 16 pages of photos.

Outliers Malcolm Gladwell, 2008-11-18 From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a

genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times
