From China with Love ,2022-03-01 In November of 2021, Elon Musk posted an old Chinese poem on Twitter, which quickly went viral and garnered attention from mainstream media. In *From China with Love*, translator Ji Chen offers readers and Elon Musk alike twenty ancient Chinese poems (including the one tweeted by Musk and nineteen he hasn't posted yet), in both the original Chinese and English. All of the fourteen ancient Chinese poets in this book—which includes biographies of each of them—lived many centuries ago and combine to paint a vivid picture of the geography and culture of the era. The book also features translations for 101 of the most used Chinese characters many of which are used throughout the poetry. This pocket-sized gift informs and enlightens twenty-first century readers in a way that no other book of ancient Chinese poetry has done before.

In the Pond Ha Jin,2000-03-21 National Book Award-winner Ha Jin's arresting debut novel , *In the Pond*, is a darkly funny portrait of an amateur calligrapher who wields his delicate artist's brush as a weapon against the powerful party bureaucrats who rule his provincial Chinese town. Shao Bin is a downtrodden worker at the Harvest Fertilizer Plant by day and an aspiring artist by night. Passed over on the list to receive a decent apartment for his young family, while those in favor with the party's leaders are selected ahead of him, Shao Bin chafes at his powerlessness. When he attempts to expose his corrupt superiors by circulating satirical cartoons, he provokes an escalating series of merciless counterattacks that send ripples beyond his small community. Artfully crafted and suffused with earthy wit, *In the Pond* is a moving tale about humble lives caught up in larger social forces.

Postcards from Tomorrow Square James Fallows,2008-12-30 “Americans need not be hostile toward China's rise, but they should be wary about its eventual effects. The United States is the only nation with the scale and power to try to set the terms of its interaction with China rather than just succumb. So starting now, Americans need to consider the economic, environmental, political, and social goals they care about defending as Chinese influence grows.” —from “China Makes, the World Takes” Since December 2006, *The Atlantic Magazine's* James Fallows has been writing some of the most discerning accounts of the economic and political transformation occurring in China. The ten essays collected here cover a wide-range of topics: from visionary tycoons and TV-battling entrepreneurs, to environmental pollution and how China subsidizes our economy. Fallows expertly and lucidly explains the economic, political, social, and cultural forces at work turning China into a world superpower at breakneck speed. This eye-opening and cautionary account is essential reading for all concerned not only with China's but America's future role in the world.

China Airborne James Fallows, 2013-02-26 From one of our most influential journalists, here is a timely, vital, and illuminating account of the next stage of China's modernization—its plan to rival America as the world's leading aerospace power and to bring itself from its low-wage past to a high-tech future. In 2011, China announced its twelfth Five-Year Plan, which included the commitment to spend a quarter of a trillion dollars to jump-start its aerospace industry. In *China Airborne*, James Fallows documents, for the first time, the extraordinary scale of China's project, making clear how it stands to catalyze the nation's hyper-growth and hyper-urbanization, revolutionizing China in ways analogous to the building of America's transcontinental railroad in the nineteenth century. Completing this remarkable picture, Fallows chronicles life in the city of Xi'an, home to 250,000 aerospace engineers and assembly-line workers, and introduces us to some of the hucksters, visionaries, entrepreneurs, and dreamers who seek to benefit from China's pursuit of aeronautical supremacy. He concludes by explaining what this latest demonstration of Chinese ambition means for the United States and for the rest of the world—and the right ways for us to respond.

Ocean of Words Ha Jin, 2014-10-29 Winner of the PEN/Hemingway Award The place is the chilly border between Russia and China. The time is the early 1970s when the two giants were poised on the brink of war. And the characters in this thrilling collection of stories are Chinese soldiers who must constantly scrutinize the enemy even as they themselves are watched for signs of the fatal disease of bourgeois liberalism. In *Ocean of Words*, the Chinese writer Ha Jin explores the predicament of these simple, barely literate men with breathtaking concision and humanity. From amorous telegraphers to a pugnacious militiaman, from an inscrutable Russian prisoner to an effeminate but enthusiastic recruit, Ha Jin's characters possess a depth and liveliness that suggest Isaac Babel's *Cossacks* and Tim O'Brien's *GIs*. *Ocean of Words* is a triumphant volume, poignant, hilarious, and harrowing. "A compelling collection of stories, powerful in their unity of theme and rich in their diversity of styles." —New York Times Book Review
"Extraordinary. . . . [These stories are shot through with wit and offer glimpses of human motivation that defy retelling. . . . Read them all." —Boston Globe "An exceptional new talent, capable of wringing rich surprises out of austere materials." —Portland Oregonian

Drunk in China Derek Sandhaus, 2019-11 2020 Gourmand Award in Spirits Gold Medal

winner in the Independent Book Publishers Awards China is one of the world's leading producers and consumers of liquor, with alcohol infusing all aspects of its culture, from religion and literature to business and warfare. Yet to the outside world, China's most famous spirit, baijiu, remains a mystery. This is about to change, as baijiu is now being served in cocktail bars beyond its borders. *Drunk in China* follows Derek Sandhaus's journey of discovery into the world's oldest drinking culture. He travels throughout the country and around the globe to meet with distillers, brewers, snake-oil salesmen, archaeologists, and ordinary drinkers. He examines the many ways in which alcohol has shaped Chinese society and its rituals. He visits production floors, karaoke parlors, hotpot joints, and speakeasies. Along the way he uncovers a tradition spanning more than nine thousand years and explores how recent economic and political developments have conspired to push Chinese alcohol beyond the nation's borders for the first time. As Chinese society becomes increasingly international, its drinking culture must also adapt to the times. Can the West also adapt and clink glasses with China? Read *Drunk in China* and find out.

The United Nations at Work in Asia Roy D. Morey, 2013-11-21 The groundwork for the Asian economic miracle was established in the last 25 or so years--the time period covered in this book. China and Vietnam started substituting pragmatism for communist ideology and Thailand started on a path toward greater democracy. The timing was perfect for an American United Nations representative to arrive in the two communist countries because, for the first time, both placed a premium on improving relations with the U.S. and both were moving toward a market economy. This book acquaints the reader with evolving political, economic and social conditions in these countries and the role played by UN organizations. A chapter on the South Pacific details the challenges of providing useful development assistance in small isolated countries. The book also reveals a hidden side of the United Nations, the role played by more than 30 UN agencies, funds and programs in providing development and humanitarian assistance. The past two or three decades were a period of great upheaval in Asia. Enormous events and developments involving the United Nations are analyzed in the book. These include the Tiananmen Square crisis in China; 300,000 Cambodian refugees camped along the Thai border; escaping the killing fields of the Khmer Rouge; efforts to rid the Golden Triangle of opium production; the sensitive diplomacy required in fostering cooperation among North Korea, South Korea, China and Mongolia; and a firsthand account of negotiating the international agreement creating the Mekong River Commission.

Balzac and the Little Chinese Seamstress Sijie Dai, 2006

China Men Maxine Hong Kingston, 1989-04-23 The author chronicles the lives of three generations of Chinese men in America, woven from memory, myth and fact. Here's a storyteller's tale of what they endured in a strange new land.

The Good Women of China Xinran, 2011-03-18 An unprecedented, intimate account of the lives of modern Chinese women, told by the women themselves -- true stories of the political and personal upheavals they have endured in their chaotic and repressive society. For eight groundbreaking years, Xinran hosted a radio program in China during which she invited women to call in and talk about themselves. Broadcast every evening, *Words on the Night Breeze* became famous throughout the country for its unflinching portrayal of what it meant to be a woman in modern China. Centuries of obedience to their fathers, husbands and sons, followed by years of fear under Communism, had made women terrified of talking openly about their feelings. Xinran won their trust and, through her compassion and ability to listen, became the first woman to hear their true stories. This unforgettable book is the story of how Xinran negotiated the minefield of restrictions imposed on Chinese journalists to reach out to women across the country. Through the vivid intimacy of her writing, these women confide in the reader, sharing their deepest

secrets. Whether they are the privileged wives of party leaders or peasants in a forgotten corner of the countryside, they tell of almost inconceivable suffering: forced marriages, sexual abuse, separation of parents from their children, extreme poverty. But they also talk about love -- about how, despite cruelty, despite politics, the urge to nurture and cherish remains. Their stories changed Xinran's understanding of China forever. Her book will reveal the lives of Chinese women to the West as never before.

China's Innovation Economy Jon-Arild Johannessen, 2021-09-30 Two trends will have more influence than anything else on the world's future political and economic situation: the development of artificial intelligence and the emergence of China as a competitor to the United States on the international stage. This book is about the emerging innovation economy. It uses systems theory and evolutionary economics as a theoretical point of departure and explains why the focal point of the geopolitical stage is moving away from the alliance between the United States and Europe, and towards an alliance between China, the 14 Regional Comprehensive Economic Partnership countries, the countries along the new silk road, and Europe. The book argues that the globalization strategy of neoliberalism laid the foundation for the Chinese economic engine. Whereas the old globalization was driven by cost differences generally, and wage costs specifically, the new globalization is driven by divergence in competence in general, and technological competence in particular, and China's primary goal is to develop artificial intelligence and intelligent robots. Further, the book posits that the interactions between the climate crisis and the new technology will change production, distribution and the creation of profits, both in China and more widely in the global innovation economy. The book develops a structure to describe, analyze and explain the Chinese innovation economy and contributes to the discussion regarding technological developments in China. The book is written for readers who are oriented towards the new globalization that is emerging in the innovation economy and the factors driving China's economic growth.

Why China? Jennifer Egan, 2016-05-11 A Vintage Shorts "Short Story Month" Selection Sam Lafferty has hit bottom. Under investigation and on leave from the financial services firm that employed him, Sam has uprooted his wife and two daughters and dragged them against their will to central China. While on this rotten family vacation, in an alien and uncomfortable landscape, after years of deception, lousy investment, moral—and soon-coming financial—bankruptcy, and with his family in tow—Sam pursues the man who had first set him on a path to corruption from crumbling binguan hotels without soap or towels to Buddhist caves near Xi'an. In this dazzling piece, selected from the stunning collection of short fiction *Emerald City*, by the critically acclaimed author and winner of the Pulitzer Prize and National Book Critics Circle Award, Jennifer Egan lays bare our capacity for failure. An ebook short.
