Food and Wine Events in Europe Alessio Cavicchi, Cristina Santini, 2014-03-26 Food and wine events have gained popularity internationally. Their importance in local economic development has grown, especially in Europe, as they are seen as a source of income for local economic systems, a way for creating new job positions and effective tools for promoting and increasing typical product awareness and demand. This book for the first time illustrates the positive and negative impacts of food and wine events from a stakeholder perspective by highlighting several critical aspects such as: (1) advantages and disadvantages of food and wine events; (2) best practice adoption for maximising benefits flowing from event creation; (3) community involvement and knowledge diffusion; (4) effectiveness in promoting local products and creating consumer awareness about products; (5) factors that promote or inhibit the success or achievements of wine and food events. Although the volume primarily focuses on events in Europe, comparisons are made to other regions in the world. Case studies are integrated throughout to illustrate the system of economic and social impacts linked to food and wine events, as well as best practices to achieve effective event management and maximize expected results. Written by leading academics, this timely and important volume will be valuable reading for all students, researchers and academics interested in Events, Tourism, Hospitality, Gastronomy and Development Studies.

Native Wine Grapes of Italy Ian D'Agata, 2014-05-16 Mountainous terrain, volcanic soils, innumerable microclimates, and an ancient culture of winemaking influenced by

Greeks, Phoenicians, and Romans make Italy the most diverse country in the world of wine. This diversity is reflected in the fact that Italy grows the largest number of native wine grapes known, amounting to more than a quarter of the world's commercial wine grape types. Ian D'Agata spent thirteen years interviewing producers, walking vineyards, studying available research, and tasting wines to create this authoritative guide to Italy's native grapes and their wines. Writing with great enthusiasm and deep knowledge, D'Agata discusses more than five hundred different native Italian grape varieties, from Aglianico to Zibibbo. D'Agata provides details about how wine grapes are identified and classified, what clones are available, which soils are ideal, and what genetic evidence tells us about a variety's parentage. He gives historical and anecdotal accounts of each grape variety and describes the characteristics of wines made from the grape. A regional list of varieties and a list of the best producers provide additional guidance. Comprehensive, thoroughly researched, and engaging, this book is the perfect companion for anyone who wants to know more about the vast enological treasures cultivated in Italy.

The World of Sicilian Wine Bill Nesto, Frances Di Savino, 2013-03-26 The World of Sicilian Wine provides wine lovers with a comprehensive understanding of Sicilian wine, from its ancient roots to its modern evolution. Offering a guide and map to exploring Sicily, Bill Nesto, an expert in Italian wine, and Frances Di Savino, a student of Italian culture, deliver a substantive appreciation of a vibrant wine region that is one of Europe’s most historic areas and a place where many cultures intersect. From the earliest Greek and Phoenician settlers who colonized the island in the eighth century B.C., the culture of wine has flourished in Sicily. A parade of foreign rulers was similarly drawn to Sicily’s fertile land, sun-filled climate, and strategic position in the Mediterranean. The modern Sicilian quality wine industry was reborn in the 1980s and 1990s with the arrival of wines

made with established international varieties and state-of-the-art enology. Sicily is only now rediscovering the quality of its indigenous grape varieties, such as Nero d'Avola, Nerello Mascalese, Frappato, Grillo, and distinctive terroirs such as the slopes of Mount Etna.

Intercultural Aspects of Specialized Communication Christopher

Candlin,Maurizio Gotti,2007 This volume explores intercultural communication in specialist fields and its realisations in language for specific purposes. Special attention is given to legal, commercial, political and institutional discourse used in particular workplaces, analysed from an intercultural perspective. The contributions explore to what extent intercultural pressure leads to particular discourse patternings and lexico-grammatical / phonological realisations, and also the extent to which textual re-encoding and recontextualisation alter the pragmatic value of the texts taken into consideration.
