Promoting the Human-Animal Bond in Veterinary Practice Thomas E. Catanzaro, DVM, MHA, FACHE,2001-08-29 Most veterinary practitioners have an innate love of animals, a desire to alleviate suffering, and compassion for the people they serve when delivering health care. To be successful, practitioners must convey these traits to their clients sincerely and consistently. In this book, Dr. Catanzaro explains how practitioners can promote the human-animal bond, a growing area of emphasis, and why it will make their practices more profitable. The extensive appendices provide practitioners with many useful tools that will help them foster the human-animal bond as they work with clients.

Handbook of Zoonoses E-Book Joann Colville,David Berryhill,2007-07-04 This essential, authoritative handbook provides clear, accurate coverage of zoonoses – diseases that can spread from animals to humans. The consistent format helps you quickly locate key information, such as how each disease affects the host, how it is spread, how it is treated, and necessary safety precautions. It also discusses the importance of educating animal owners about the public health implications of zoonoses and how to prevent them from spreading. Clear, concise coverage helps you respond quickly when presented with diseases that could potentially spread between patients, clients, and staff in the veterinary clinic. Each disease entry begins with a chart of its potential morbidity (the rate of incidence of a disease) and mortality (death rate), giving you at-a-glance access to the chance of contracting the disease and the severity of the disease if contracted. Clinically relevant coverage includes information on the etiology (bacterial, viral, parasitic, etc.), most common nonhuman hosts, transmission modes, course of the disease, clinical signs in animals and humans, diagnostic tests, prevention, and general advice. Essential information on preventing the spread of disease helps you educate clients about how to protect themselves and their animals from zoonoses. Coverage of diseases such as mad cow disease, West Nile virus, rabies, and anthrax, prepares you to answer client questions about diseases that are in the public eye.
