10 Studies or Caprices for Violin, Opus 9 Charles-Auguste de Bériot,2022-05-19 Fate was not always kind to him and yet Bériot contributed significantly in many different fields. Today his works are mainly used in education, and are often treated as a stepping stone to approach the greater works of romantic literature for violin. It is quite interesting to consider, though, that Bériot was able to arouse the enthusiasm of the audience on his tours throughout Europe performing almost entirely his own compositions, among them many of dimensions not quite so small. The originality and freshness of the composition will surely entice any artist technically skilled enough to handle performing the difficult passages of the Studi Capricci on stage. --- Da Schicksal meinte es nicht immer gut mit ihm, und dennoch leistete Bériot Bedeutendes in mehreren Bereichen. Sind heute seine Werke vornehmlich in der Pädagogik in Verwendung, wo sie als ideale Vorbereitung für grössere romantische Literatur für Violine gerne zur Hand genommen werden, so sollte man sich vor Augen halten, dass Bériot mit diesen nicht ganz so kleinen Konzertetüden und anderen selbst komponierten Stücken das Publikum auf seinen Tournéen durch ganz Europa zu begeistern wusste. Die Originalität der Komposition kann gewiss Lust darauf machen, die Studi Capricci auch im Konzertsaal zu Gehör zu bringen.

Directory of Contemporary American Musical Instrument Makers Susan Caust Farrell,1981 This unique reference book is a compendium of makers and manufacturers of every variety of musical instrument made in the United States today. It provides names and addresses of instrument makers indexed alphabetically. Each entry gives all known information on the total and annual number of instruments the maker has produced, the number of workers in the shop, the year the individual or firm began manufacturing instruments, whether the instruments are available on demand or made to order, and whether a brochure is available from the maker. Complete cross-references are provided for companies known by more than one name, for partnerships, and for parent and subsidiary firms. Instruments are also indexed, and makers are listed by state for the convenience of the reader. Lists of schools of instrument making and relevant organizations and publications are included as appendixes. The directory will serve two major purposes. First, it will be an invaluable source of information for historians and for the rapidly growing number of collectors of musical instruments, who will be able to use the data gathered here in appraising instruments and tracing their history. The second purpose is simply to increase communication among instrument makers and to make their names available to retail and wholesale outlets for their products.
