Storytelling Organizational Practices David M. Boje, 2014-06-20 Once upon a time the practice of storytelling was about collecting interesting stories about the past, and converting them into soundbite pitches. Now it is more about foretelling the ways the future is approaching the present, prompting a re-storying of the past. Storytelling has progressed and is about a diversity of voices, not just one teller of one past; it is how a group or organization of people negotiates the telling of history and the telling of what future is arriving in the present. With the changes in storytelling practices and theory there is a growing need to look at new and different methodologies. Within this exciting new book, David M. Boje develops new ways to ask questions in interviews and make observations of practice that are about storytelling the future. This, after all, is where management practice concentrates its storytelling, while much of the theory and method work is all about how the past might recur in the future. Storytelling Organizational Practices takes the reader on a journey: from looking at narratives of past experience through looking at living stories of emergence in the present to looking at how the future is arriving in ways that prompts a re-storying of the past.

Bone White Ronald Malfi, 2024-02-08 A landscape of frozen darkness. The scrape of bone on bone. 'Malfi is a modern-day Algernon Blackwood. I'm gonna be talking about this book for years' Josh Malerman, author of Bird Box Paul Gallo saw the report on the news: a mass murderer leading police to his victims' graves, in remote Dread's Hand, Alaska. It's not even a town; more like the bad memory of a town. The same bit of wilderness where his twin brother went missing a year ago. As the bodies are exhumed, Paul travels to Alaska to get closure and put his grief to rest. But the mystery is only beginning. What Paul finds are superstitious locals who talk of the devil stealing souls, and a line of wooden crosses surrounding the woods. Not to honour the dead, but to keep what's lurks there from escaping... An edge of your seat thrill ride from a true master of modern horror, perfect for fans of Paul Tremblay, Adam Nevill and T. Kingfisher.

Storytelling Organizations David M Boje, 2008-10-07 Boje does not reflect trends, he is among those who set them - Hervé Corvellec, Department of Service Management, Lund University How can I know what I think until I see what David Boje says? What he says about storytelling will forever change what we thought we knew about stories. With remarkable control over a complex argument, Boje recovers, re-punctuates, and re-animates a world of narrative and sensemaking that we have previously taken for granted! - Karl E. Weick, Rensis Likert Distinguished University Professor of Organizational Behavior and Psychology, Stephen M. Ross School of Business at the University of Michigan Few people understand stories and storytelling as well as David Boje. It is a measure of Boje's success as a theorist that the word story can never reclaim the innocence and simplicity it once enjoyed. Nor, with the benefit of his work, can organizations be viewed as spaces which occasionally or incidentally spawn stories. Boje's eagerly awaited book forces us to question many of our assumptions about storytelling; it also demands that we revise several of our assumptions about what organizations are - Yiannis Gabriel, The School of Management, Royal Holloway University of London Our company is made up of lots of stories. We've found that 'stories' get told

and retold and become the fabric of an organization. 'Policies' lay unread in the company handbook or training manual. David Boje taught me the value of stories in an organization. Stories are the 'oil' that makes the gears work. How do you get your message heard in an organization with thousands of people? David Boje taught me the value of telling stories at Stew Leonard's! - Stew Leonard Jr., Stew Leonard Organization David Boje is one of the world's leading authorities on storytelling. His work has influenced a generation of organizational theorists and students. He not only provides new ways of understanding organizations but also provides fresh insights into the way in which stories function to provide meanings - Heather Höpfl, University of Essex The idea of organizations using 'storytelling' to make sense of themselves and their environment has generated a lot of excitement. Written by the leading scholar in this field, David Boje explores how narrative and storytelling is an important part of an organization's strategy, development and learning processes. With excellent examples from Nike, McDonald's and Disney, readers are shown how the theory that underpins organizational storytelling connects with storytelling in everyday organizational life. David Boje's theories and ideas in relation to the study of storytelling in organizations are highly influential and this book will be a 'must have' for any student or scholar interested in the area.

Family theme parks, happiness and children's consumption: From roller-coasters to Pippi Longstocking David Cardell, 2016-09-24 This book provides an ethnographic contribution to research on children's consumption, family life and happiness. Various and shifting notions of happiness are explored, as well as conditions for and challenges to happiness, through an analysis of video-recorded interviews and mobile ethnography conducted in two of the most popular theme parks in Sweden. Initially, the study outlines how previous research has conceptualized happiness in association with time and place in a rather static way. Based on a treatise of notions of happiness in philosophy and the social sciences, there is a turn in this thesis towards practice. It generates fundamental knowledge about the complexity of happiness. By employing this approach, it is possible to highlight how happiness is enacted as part of and in relation to ideals of family life, time, childhood, money, consumption, experiences and material things. As we explore the practices of children and their families, we discover that shifting meanings of happiness are located in contemporary culture, where emotions and consumption are of central importance. The approach is interdisciplinary, and draws on theoretical and methodological contributions in sociology, anthropology and Science and Technology Studies (STS). Notions of meshwork and enactment become important for the exploration of happiness as a complex and changing matter, which productively involves social relations and material things. Throughout the thesis there is a dialogue with previous research on happiness, consumption and childhood which highlights the importance of exploring messy practices, in movement. It is argued that explorations of practice contribute to a critical understanding of how happiness and contemporary ideals of childhood can be approached – through consumption and as part of citizenship in a consumer society where happiness is of central importance. Abstract [sv] Denna avhandling utgör ett etnografiskt bidrag till forskning om barns konsumtion, familjeliv och lycka. Genom en analys av videoinspelade intervjuer samt familjebesök till två av Sveriges mest välbesökta temaparker utforskas skiftande betydelser av lycka, liksom dess

förutsättningar och utmaningar. Tidigare temaparks-forskning har generellt tagit lyckans existens för given. Utifrån en inledande diskussion om bland annat olika filosofiska och samhällsvetenskapliga lyckoteorier argumenterar avhandlingen för att studier av praktik tillför ny och grundläggande kunskap om lyckans komplexa sammansättningar. Avhandlingen visar därigenom att lycka iscensätts som en del av – och i förhållande till – ideal om familjeliv, tid, barndom, pengar, konsumtion, upplevelser och materiella ting. Genom att fokusera på barn och deras familjers praktiker lokaliseras lyckans skiftande betydelser i en samtidskultur där emotioner och konsumtion är centrala. Avhandlingens ansats är tvärvetenskaplig och hämtar teoretisk och metodologisk inspiration från sociologi, antropologi samt teknik- och vetenskapsstudier (STS). Genom denna ansats synliggörs sammanflätningar av sociala relationer och materiella ting som produktiva i iscensättandet av lycka. Genom en dialog mellan empiriska beskrivningar och forskning om lycka, konsumtion och barndom belyser avhandlingen nödvändigheten av att synliggöra och utforska röriga och rörliga praktiker. Det bidrar till en kritisk förståelse av praktik som kan förändra hur vi närmar oss lycka och samtida barndomsideal – som konsumenter och medborgare i ett lyckosträvande konsumtionssamhälle.

Vegan Voices Joanne Kong, PhD,2021-10-05 A collection of informative, diverse, evocative, and inspiring essays from over 50 vegan activists, educators, artists, and changemakers on the whys and wherefores of the vegan diet and lifestyle. Why should one go vegan? Is veganism the positive change the world needs? *Vegan Voices: Essays by Inspiring Changemakers* is a comprehensive collection of compelling testimonials about how our food choices are deeply connected to the pressing challenges and issues of our time. Areas covered include personal and global health; the devastation of animal agriculture to the environment; society's collective loss of compassion and connection to our kindred animals; and the desire for a world of greater peace, harmony, and inclusivity. The book points to the need for a cultural and spiritual transformation in which we embrace the commonalities between all living beings as a source of positive change and healing. Author and editor Joanne Kong has brought together the most inspiring and influential changemakers from around the world at the forefront of the vegan movement. They represent the great diversity of roles through which veganism has moved into the mainstream: activists, authors, speakers, athletes, entrepreneurs, community and event organizers, advocates for social and food justice, artists, filmmakers, medical and health professionals, environmental advocates, sanctuary owners, and more. The essays are organized into six sections: Our Kindred Animals, Around the Globe, Activism, Body and Spirit, The Arts, and A New Future. *Vegan Voices* fills the needs of a wide range of readers, from those new to exploring the plant-based lifestyle to longtime vegans and advocates. Many essays are deeply personal reflections that attest to how veganism has the power to touch our lives on many levels. The book can be a source of continuing inspiration and motivation for those desiring to create a world of greater compassion and equality.

Justice as Prevention Pablo De Greiff,Alexander Mayer-Rieckh,2007 Countries

emerging from armed conflict or authoritarian rule face difficult questions about what to do with public employees who perpetrated past human rights abuses and the institutional structures that allowed such abuses to happen. *Justice as Prevention: Vetting Public Employees in Transitional Societies* examines the transitional reform known as vetting-the process by which abusive or corrupt employees are excluded from public office. More than a means of punishing individuals, vetting represents an important transitional justice measure aimed at reforming institutions and preventing the recurrence of abuses. The book is the culmination of a multiyear project headed by the International Center for Transitional Justice that included human rights lawyers, experts on police and judicial reform, and scholars of transitional justice and reconciliation. It features case studies of Argentina, Bosnia and Herzegovina, the Czech Republic, El Salvador, the former German Democratic Republic, Greece, Hungary, Poland, and South Africa, as well as chapters on due process, information management, and intersections between other institutional reforms.
