Attached Amir Levine, Rachel Heller, 2012-01-05 "Over a decade after its publication, one book on dating has people firmly in its grip." -The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment--the most advanced relationship science in existence today--can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

**The Goose Girl** Shannon Hale, 2010-05-03 'Hale's writing is beautiful, with a vivid eye for detail' Daily Telegraph Anidora-Kiladra Talianna Isilee, Crown Princess of Kilindree, spent the first years of her life listening to her aunt's incredible stories, and learning the language of the birds. Little knowing how valuable her aunt's strange knowledge would prove to be when she grew older. From the Grimm's fairy tale of the princess who became a goose girl before she could become a queen, Shannon Hale has woven an incredible, original and magical tale of a girl who must understand her own incredible

talents before she can overcome those who wish her harm. Shannon Hale has drawn on her incredible gift for storytelling to create a powerful and magical grown-up fairytale.

**Metamorphosis** Franz Kafka, 2021-03-19 Franz Kafka, the author has very nicely narrated the story of Gregor Samsa who wakes up one day to discover that he has metamorphosed into a bug. The book concerns itself with the themes of alienation and existentialism. The author has written many important stories, including "The Judgement", and much of his novels "Amerika", "The Castle", "The Hunger Artist". Many of his stories were published during his lifetime but many were not. Over the course of the 1920s and 30s Kafka's works were published and translated instantly becoming landmarks of twentieth-century literature. Ironically, the story ends on an optimistic note, as the family puts itself back together. The style of the book epitomizes Kafka's writing. Kafka very interestingly, used to present an impossible situation, such as a man's transformation into an insect, and develop the story from there with perfect realism and intense attention to detail. The Metamorphosis is an autobiographical piece of writing, and we find that parts of the story reflect Kafka's own life.

*The Kite Runner* Khaled Hosseini, 2007 Traces the unlikely friendship of a wealthy Afghan youth and a servant's son in a tale that spans the final days of Afghanistan's monarchy through the atrocities of the present day.

Slow Violence and the Environmentalism of the Poor Rob Nixon, 2011-06-01 The violence wrought by climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Using the innovative concept of slow violence to describe these threats, Rob Nixon focuses on the inattention we have paid to the attritional lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today. Slow violence, because it is so readily ignored by a hard-charging capitalism, exacerbates the vulnerability of ecosystems and of people who are poor, disempowered, and often involuntarily displaced, while fueling social conflicts that arise from desperation as life-sustaining conditions erode. In a book of extraordinary scope, Nixon examines a cluster of writer-activists affiliated with the environmentalism of the poor in the global South. By approaching environmental justice literature from this transnational perspective, he exposes the limitations of the national and local frames that dominate environmental writing. And by skillfully illuminating the strategies these writer-activists deploy to give dramatic visibility to environmental emergencies, Nixon invites his readers to engage with some of the most pressing challenges of our time.

**Grammatical Framework** Aarne Ranta, 2011 Grammatical Framework is a programming language designed for writing grammars, which has the capability of addressing several languages in parallel. This thorough introduction demonstrates how to write grammars in Grammatical Framework and use them in applications such as tourist phrasebooks, spoken dialogue systems, and natural language interfaces. The examples and exercises presented here address several languages, and the readers are shown how to look at their own languages from the computational perspective.

*The Peace Chronicles* Yolanda Sealey-Ruiz, 2021-06-21 The Peace Chronicles is poet and scholar-activist Dr. Yolanda Sealey-Ruiz's second full-length collection. Documenting her last moments in the Vortex, the book moves from a searing betrayal by Tyrone (Love from the Vortex & Other Poems) to her equanimity with it. The poems also record her peacemaking with her father, the tireless work of her ancestors, and celebrates the freedom that brings her tranquility, contentment and joy. In this sophomore collection, readers are carried along a journey that asks: How can we learn from pain that grips us tightly? When does a moment seat itself between two halves of our lives, and when do we actually notice? When time is not a sufficient healer, what language allows us to fill our wounds with light, knowing they may never

fully close? Where does love go to be laid to rest and when it rises again, do we name it resurrection, awakening, or reimagining?

*Blown to Bits* Harold Abelson, Ken Ledeen, Harry R. Lewis, 2008 'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. Intensive Science and Virtual Philosophy Manuel DeLanda, 2013-06-27 First published 10 years ago, Manuel DeLanda's *Intensive Science and Virtual Philosophy* rapidly established itself as a landmark text in contemporary continental thought. Man, Play, and Games Roger Caillois, 2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

**Insignificant Events in the Life of a Cactus** Dusti Bowling, 2017-09-05 "Aven is a perky, hilarious, and inspiring protagonist whose attitude and humor will linger even after the last page has turned." -School Library Journal (Starred review) Aven Green loves to tell people that she lost her arms in an alligator wrestling match, or a wildfire in Tanzania, but the truth is she was born without them. And when her parents take a job running Stagecoach Pass, a rundown western theme park in Arizona, Aven moves with them across the country knowing that she'll have to answer the question over and over again. Her new life takes an unexpected turn when she bonds with Connor, a classmate who also feels isolated because of his own disability, and they discover a room at Stagecoach Pass that holds bigger secrets than Aven ever could have imagined. It's hard to solve a mystery, help a friend, and face your worst fears. But Aven's about to discover she can do it all . . . even without arms. **Black Skin, White Masks** Frantz Fanon, 2017 *Black Skin, White Masks* is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights,

anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

Boston Bound Elizabeth Clor, 2016-05-13 Have you ever wanted something so badly that your own mind became your biggest obstacle? Invisible Man Ralph Ellison, 2016-08-18 *Invisible Man* is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of the Brotherhood, and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.
