**Lightning Fast Piano Scales** Zach Evans, 2016-05-28 Discover How to Get Lightning Fast Piano Scales With 5 Minutes a Day of Practice. You're about to discover how to learn and speed up your scales from scratch, the easy way. A lot of beginners simply practice their scales over and over, without realizing that's the slow way of learning. This book has all the specific strategies and tactics to practice more efficiently and get your scales up to speed fast. Want proof? Here's a video of me playing all 12 major scales: <http://youtu.be/Ow6BacGiKwQ> I used this exact method to get my scales fast and smooth. How does this work? Think back to school when you had to learn a long list of vocabulary words. The first time you learned them, you probably just repeated them over and over and over, and it took forever. Then eventually you figured out strategies to learn them faster. You used flashcards, or acronyms, or flowcharts, and you realized words that used to take you 4 hours to learn you could learn in 15 minutes! It's the same way with piano! If you have the right strategies, you can learn scales really fast and: -Captivate Audiences -Boost Your Technique -Surprise Your Teacher -Feel At Home On The Keyboard There are also physical techniques that help you play faster. For example, the thumb-under section of the scale causes problems for a lot of people. The Quick-Thumb strategy in this book is specifically designed to overcome this problem. We'll also go over correct form, using the Over-Under wrist motion. If you aren't already using the Over-Under motion, you'll see immediate results in not only your scales but everything else you play. You'll become a Piano Superhuman and: -Cut Down Your Practice Time -Or... Practice More And 2x Your Results -Master The Tricky Thumb Under Move -Memorize Scales -Fast -Eliminate the Stuck Feeling This book will give you a simple, step-by-step training plan on exactly what to do every day to learn your scales. You'll start out with specific exercises in Phase 1, then move onto intermediate exercises in Phase 2, then finally advanced exercises in Phase 3. These phases give you a complete progression on how to learn piano scales fast, without frustration and anxiety. Why should you learn from me? I do have a degree in Music from the University of Wisconsin Oshkosh. I don't think that's a good reason to learn from me. The only true test of a musician is how well they can play. If at any time you want to see what I'm capable on piano, you can listen to me on my YouTube channel: [www.youtube.com/keystroke3](http://www.youtube.com/keystroke3) I also have a passion for teaching piano, if you want to see some of my lessons, you can go to my website: [www.bestpianotips.com](http://www.bestpianotips.com) Here Is A Preview Of What You'll Learn... -The 3 Phases of Scale Development and What Phase You're In -the Quick-Thumb Technique to get a Smooth Thumb Under Transition -How To Develop a Challenge Attitude to Make Learning Scales Exciting -How Learning Scales Leads to a Technique Boost That Benefits Everything Else You Play -How to Use the Added Note Strategy for Rapid Scale Memorization -the Optimum Daily Practice Routine, Laid Out Step-by-Step -The 3 Golden Rules to Efficient Piano Practice -Using a Metronome the Right Way to Quickly Speed Up Your Scales From Slow to Fast -Much, much more! **My First Piano Adventure: Lesson Book A with CD**, 2007-01-01 (Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural friends at the piano who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory ACE - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here
