The Tenth Island Diana Marcum, 2018 Reporter Diana Marcum is in crisis. A long-buried personal sadness is enfolding her--and her career is stalled--when she stumbles upon an unusual group of immigrants living in rural California. She follows them on their annual return to the remote Azorean Islands in the Atlantic Ocean, where bulls run down village streets, volcanoes are active, and the people celebrate festas to ease their saudade, a longing so deep that the Portuguese word for it can't be fully translated. Years later, California is in a terrible drought, the wildfires seem to never end, and Diana finds herself still dreaming of those islands and the chuva--a rain so soft you don't notice when it begins or ends. With her troublesome Labrador retriever, Murphy, in tow, Diana returns to the islands of her dreams only to discover that there are still things she longs for--and one of them may be a most unexpected love.

Murder in Visalia: The Coin Dealer Killer Ronn M. Couillard, 2017 One October morning in 1979, a stamp and coin dealer was gunned down in his Visalia shop. There were no witnesses. Persistent police efforts across jurisdictional lines connected it to another death. Two months earlier, the body of a Fresno coin dealer was found locked in the trunk of his car. The trail of evidence led to a most unlikely suspect. Author Ronn M. Couillard, retired judge and former Visalia district attorney, lays out the facts in this compelling case from the investigation to the court proceedings and the surprise that almost derailed the conviction.

West of Jim Crow Lynn M. Hudson, 2020-09-28 African Americans who moved to California in hopes of finding freedom and full citizenship instead faced all-too-familiar racial segregation. As one transplant put it, The only difference between Pasadena and Mississippi is the way they are spelled. From the beaches to streetcars to schools, the Golden State—in contrast to its reputation for tolerance—perfected many methods of controlling people of color. Lynn M. Hudson deepens our understanding of the practices that African Americans in the West deployed to dismantle Jim Crow in the quest for civil rights prior to the 1960s. Faced with institutionalized racism, black Californians used both established and improvised tactics to resist and survive the state's color line. Hudson rediscovers forgotten stories like the experimental all-black community of Allensworth, the California Ku Klux Klan's campaign of terror against African Americans, the bitter struggle to integrate public swimming pools in Pasadena and elsewhere, and segregationists' preoccupation with gender and sexuality.

Corridors of Migration Rodolfo F. Acuña, 2008-08-21 A Choice Outstanding Academic Title In the San Joaquin Valley Cotton Strike of 1933, frenzied cotton farmers murdered three strikers, intentionally starved at least nine infants, wounded dozens of people, and arrested more. While the story of this incident has been recounted from the perspective of both the farmers and, more recently, the Mexican workers, this is the first book to trace the origins of the Mexican workers' activism through their common experience of migrating to the United States. Rodolfo F. Acuña documents the history of Mexican workers and their families from seventeenth-century Chihuahua to twentieth-century California, following their patterns of migration and describing the establishment of communities in mining and agricultural regions. He shows the combined influences of racism, transborder dynamics, and events such as the industrialization of the Southwest, the Mexican Revolution, and World War I in shaping the collective experience of these people as they helped to form the economic, political, and social landscapes of the American Southwest in their interactions with agribusiness and absentee copper barons. Acuña follows the steps of one of the murdered strikers, Pedro Subia, reconstructing the times and places in which his wave of migrants lived. By balancing the social and geographic trends in the Mexican population with the story of individual protest participants, Acuña shows how the strikes were in fact driven by choices beyond the Mexican workers' control. Their struggle to form communities graphically retells how these workers were continuously uprooted and their organizations destroyed by capital. Corridors of Migration thus documents twentieth-century Mexican American labor activism from its earliest roots through the mines of Arizona and the Great San Joaquin Valley cotton strike. From a founding scholar of Chicano studies and the author of fifteen books comes the culmination of three decades of dedicated research into the causes and effects of migration and labor activism. The narrative documents how Mexican workers formed communities against all odds.

Dark Sweat, White Gold Devra Weber, 2023-04-28 In her incisive analysis of the shaping of California's agricultural work force, Devra Weber shows how the cultural background of Mexican and, later, Anglo-American workers, combined with the structure of capitalist cotton production and New Deal politics, forging a new form of labor relations. She pays particular attention to Mexican field workers and their organized struggles, including the famous strikes of 1933. Weber's perceptive examination of the relationships between economic structure, human agency, and the state, as well as her discussions of the crucial role of women in both Mexican and Anglo working-class life, make her book a valuable contribution to labor, agriculture, Chicano, Mexican, and California history.

Vanished in Broad Daylight Mark A. Bingaman, 2013-05-09 BABY-PROOFCHILDPROOFBULLETPROOF, THE ROLE OF PARENTS HAS NEVER BEEN GREATER. Roaming unabated, a serial pedophile spent every waking moment pacifying his inner demons. Combatting illicit sexual cravings, like self-medicating an incurable disease, required daily heavy doses of hardcore pornography. A chilling account of an eight-year-old child kidnapped and brutally murdered. Rising up from a rural California town and striking back, a world-wide chase ensued for a sociopath gone mad. No respecter of human rights a child's life. Leaving the United States and spanning half the globe, the hunt would never end until coming face-to-face with every parent's worst nightmare. A harrowing true-crime story grippingly told by a team of detectives left standing. The story of Maria Piceno is a testament of courage and faith under fire. This special child wouldn't go quietly into the night. Out of life's hardest lessons, comes unforgettable sweet tender moments. Anyone that has loved a child this is a must read, no one can afford to miss. You'll never be the same: WHEN TOUCHED BY A CHILD

Latinos and Local Representation Florence Adams, 2018-10-24 This study examines trends in Voting Rights Act enforcement and the results for Latino representation. The focus is on local governments of the West and Southwest: some of the communities examined, Latino population is increasing rapidly, often to majority status; and in others, white suburban development is outnumbering, sometimes displacing Latinos. In both situations, district lines can decide the future political power of Latinos and non-Latinos alike. The local distributing process, which has never been studied in depth, is shown to be reshaping the political and racial landscape. This study looks behind legal and theoretical formulations to the realities of local districtings and redistrictings. The author, who participated as principal cartographer in the jurisdictions that are discussed, explores the decisions involved in reflecting rapid population change, the dangers of drawing districts without attention to the vitality of local organization, the problems of displacing incumbents, the unforeseen consequences of district designs, the difficulty of predicting outcomes, and the many ethical dilemmas of line-drawing. In several jurisdictions, Latinos are nearing majority status: Do concepts such as the majority-minority district and single-member districts remain relevant there? Are concerns for African American representation in southern states, which have guided so much voting rights enforcement, truly relevant to western and southwestern politics? What are the actual results--in terms of the numbers of Latinos elected--of voting rights litigation? Such questions are discussed against the backdrop of actual line-drawings, but in such a way as to contribute to voting rights theory.

Murder in Visalia Ronn M. Couillard, 2017-09-25 "Recounts all the twists and turns of the case . . . two jury trials, a surprising appellate court ruling . . . and, decades later, a shocking development" (Visalia Times Delta). One October morning in 1979, a stamp and coin dealer was gunned down in his Visalia shop. There were no witnesses. Persistent police efforts across jurisdictional lines connected it to another death. Two months earlier, the body of a Fresno coin dealer was found locked in the trunk of his car. The trail of

evidence led to a most unlikely suspect. Author Ronn M. Couillard, retired judge and former Visalia district attorney, lays out the facts in this compelling case from the investigation to the court proceedings and the surprise that almost derailed the conviction. Includes photos!

The Cowhide - A High School Football Tradition John D. Fischer,2005 Across the country are hundreds of high school football rivalries. Each might lay claim that it is special in many ways. In the heart of the great central valley of California is one such rivalry that is exceptional in its power over the people who have been part of it. Two high schools, Redwood and Mt. Whitney, began playing an annual football game against each other in 1955. The 50th game of this traditional rivalry was played in 2004 before 10,000 fans and a live television audience. The two schools, located only a few blocks from each other in Visalia, California, a city of 100,000 people, have maintained this intense rivalry for over 50 years like very few schools have ever done. The game is played before a packed stadium every year and the community claims it as the biggest event during the entire year. Part 1 explores the history of the Cowhide game, relating the early humble beginning when the original high school split into two schools. The evolution of the game over 50 years is explored. Using hundreds of questionnaires, newspaper accounts, and many interviews with those involved over the years, the real meaning of the Cowhide tradition is explored and the reasons are brought out as to why this rivalry has not only endured but has actually increased in strength over the years. Part 2 gives a detailed account of each of the 50 games, including the teams' records coming into the game, the results of any subsequent playoffs, and a complete roster of the teams for each year. The article of the local newspaper about the game is included in each chapter. At the end is an appendix of stats, a listing of head and assistant coaches, and other interesting items over the years. Finally there is an index of all the players who played in the game and what years they played.

Wild Tulare County Terry L. Ommen,2012-10-08 In the 1800s, Tulare County, California, was a hotbed of desperate characters whose deadly gunplay and murderous inclinations left a trail of bodies across the region. Although the Central Valley now makes its name in agriculture, Tulare County was once a bastion of the Wild West with a lineup of hardened criminals that has scarcely been equaled in the annals of crime. Train bandits, coldblooded murderers and callous outlaws armed with shotguns and butcher knives plagued Visalia, Porterville and other sleepy central California towns. Join historian and retired Visalia Police captain Terry Ommen as he relates the transgressions of Tulare County's roughest characters, including thrilling tales of the pistol-packing Mason-Henry Gang, a deadly duel between politically divided journalists and vigilante justice exacted by angry mobs.

All They Will Call You Tim Z. Hernandez,2017-01-28 All They Will Call You is the harrowing account of "the worst airplane disaster in California's history," which claimed the lives of thirty-two passengers, including twenty-eight Mexican citizens—farmworkers who were being deported by the U.S. government. Outraged that media reports omitted only the names of the Mexican passengers, American folk icon Woody Guthrie penned a poem that went on to become one of the most important protest songs of the twentieth century, "Plane Wreck at Los Gatos (Deportee)." It was an attempt to restore the dignity of the anonymous lives whose unidentified remains were buried in an unmarked mass grave in California's Central Valley. For nearly seven decades, the song's message would be carried on by the greatest artists of our time, including Pete Seeger, Dolly Parton, Bruce Springsteen, Bob Dylan, and Joan Baez, yet the question posed in Guthrie's lyrics, "Who are these friends all scattered like dry leaves?" would remain unanswered—until now. Combining years of painstaking investigative research and masterful storytelling, award-winning author Tim Z. Hernandez weaves a captivating narrative from testimony, historical records, and eyewitness accounts, reconstructing the incident and the lives behind the legendary song. This singularly original account pushes narrative boundaries, while challenging perceptions of what it means to be an immigrant in America, but more importantly, it renders intimate portraits of the individual souls who, despite social status, race, or nationality, shared a common fate one frigid morning in January 1948.
