Dig David Nichols,2016-10-11 David Nichols tells the story of Australian rock and pop music from 1960 to 1985 – formative years in which the nation cast off its colonial cultural shackles and took on the world.

Generously illustrated and scrupulously researched, Dig combines scholarly accuracy with populist flair. Nichols is an unfailingly witty and engaging guide, surveying the fertile and varied landscape of Australian popular music in seven broad historical chapters, interspersed with shorter chapters on some of the more significant figures of each period. The result is a compelling portrait of a music scene that evolves in dynamic interaction with those in the United States and the UK, yet has always retained a strong sense of its own identity and continues to deliver new stars – and cult heroes – to a worldwide audience. Dig is a unique achievement. The few general histories to date have been highlight reels, heavy on illustration and short on detail. And while there have been many excellent books on individual artists, scenes and periods, and a couple of first-rate encyclopedias, there's never been a book that told the whole story of the irresistible growth and sweep of a national music culture. Until now . . .

Rural Change in Australia Dr Rae Dufty-Jones,Professor John Connell,2014-03-28 New twenty-first century economic, social and environmental changes have challenged and reshaped rural Australia. They range from ageing populations, youth out-migration, immigration policies (that seek to place skilled migrants in rural Australia), tree changers, agricultural restructuring and new relationships with indigenous populations. Challenges also exist around the 'patchwork economy' and the wealth that the mining boom offers some areas, while threatening regional economic decline in others. Rural Australia is increasingly not simply a place of production of agriculture and minerals but an idea that individuals seek and are encouraged to consume. The socio-economic implications of drought, water rights and changing farming practices, have prefaced new social, cultural and economic reforms. This book provides a contemporary perspective on rapidly evolving population, economic and environmental changes in 'rural and regional Australia', itself a significant concept. Bringing together a range of empirical studies, the book builds on established rural studies themes such as population change, economic restructuring and globalisation in agriculture but links such changes to environmental change, culture, class, gender, and ethnic diversity. Presenting original and in-depth interventions on these issues and their intersections, this book assembles the best of contemporary research on rural Australia.

Australian Wildlife Conservancy Hannah Sheppard Brennand,2021-11-03 Australia is home to some of the most unique wildlife in the world, from the improbable Bilby with its enormous ears, to the Purple-crowned Fairywren with its loyal partnerships, to the highly social Great Desert Skink. But this wildlife is in crisis. In just over two centuries, over 100 plant and animal species have become extinct and every year Australia's threatened species list continues to grow. Australian Wildlife Conservancy's (AWC) mission is to halt these extinctions and turn back this decline; to effectively conserve all Australian animal species and the habitats in which they live. The late Martin Copley AM, founder of AWC, purchased the organisation's first sanctuary in 1991. Thirty years on, AWC is a global leader in conservation, working alone or in partnership across a vast 6.5 million hectares of the continent: restoring biodiversity from the Kimberley to Cape York and from the Coral Coast to the Eyre Peninsula and Sunshine Coast.This book provides a window into AWC's history and a look to the future. This insightful and hopeful collection of stories gives evidence of the passion and immense effort invested by all those involved with the organisation. Featuring writing from the AWC family, past and present, including Tim Winton, Tim Flannery, the late Thomas Lovejoy and Sarah Legge, this book traverses the challenges and triumphs that mark the first thirty years of AWC.

Australia, Migration and Empire Philip Payton,Andrekos Varnava,2019-08-12 This edited collection explores how migrants played a major role in the creation and settlement of the British Empire, by focusing on a series of Australian case studies. Despite their shared experiences of migration and settlement, migrants nonetheless often exhibited distinctive cultural identities, which could be deployed for advantage. Migration established global mobility as a defining feature of the Empire. Ethnicity, class and gender were often powerful determinants of migrant attitudes and behaviour. This volume addresses these considerations, illuminating the complexity and diversity of the British Empire's global immigration story. Since 1788, the propensity of the populations of Britain and Ireland to immigrate to Australia varied widely, but what this volume highlights is their remarkable diversity in character and impact. The book also presents the opportunities that existed for other immigrant groups to demonstrate their loyalty as members of the (white) Australian community, along with notable exceptions which demonstrated the limits of this inclusivity.

Borderwork in Multicultural Australia John O'Carroll,2020-07-31 Refugees. Border protection. Ethnic gangs. Terrorism. History wars. Pauline Hanson. Australia's faith in multiculturalism has been shaken by fierce attacks from its enemies and a sense of crisis among its friends. Multiculturalism has become a political tool to win votes and generate community anxiety. What is left of the multicultural ideal? Bob Hodge and John O'Carroll take the pulse of multicultural Australia in the wake of September 11. They investigate the hot spots' of multiculturalism, showing how they cluster around fiercely defended boundaries and borders, both literal and symbolic. They tackle the issues of racism past and present, and show how injustice impacts on many communities in Australia, including Aboriginals as well as more recent migrant groups. The authors argue that despite appearances, multiculturalism is alive and well in Australia, and a commitment to tolerance and diversity characterises daily life. In fact, Australia's multiculturalism is the best kind of borderwork against terrorism, racism and injustice. A timely, original and optimistic discussion of Australia's multicultural past and our possible futures.' Graeme Turner, Director, Centre for Critical and Cultural Studies, University of Queensland This clearly written book shines a welcome light on the fog of critique of Australian multiculturalism from both the Right and the Left.' Jock Collins, Professor of Economics, University of Technology Sydney

Imagined Australia Renata Summo-O'Connell,2009 From Terra Nullius to Land of Opportunities and Last Frontier, the European dream has constructed and deconstructed Australia to feed its imagination of new societies. At the same time Australia has over the last two centuries forged and re-invented its own liaisons with Europe arguably to carve out its identity. From the arts to social sciences, to society itself, a complex dynamic has grown between the two continents in ways that invite study and discussion. A transnational research group has begun its collective investigation project of which this first volume is the outcome. The book is a substantial multidisciplinary collection of current research and offers critical perspectives on culture, literature and history around themes at the heart of the Imagined Australia project. The essays instigate reflection, discovery and discussion of how reciprocal imagining between Australia and Europe has articulated itself and ways and dimensions in which a relationship between communities, imagined and not, has unfolded.

emphasis on the First World War this book seeks to restore their role to our historical memory. The Diasporic Condition Ghassan Hage,2021-11-05 Bridging the gap between migration studies and the anthropological tradition, Ghassan Hage illustrates that transnationality and its attendant cultural consequences are not necessarily at odds with classic theory. In The Diasporic Condition, Ghassan Hage engages with the diasporic Lebanese community as a shared lifeworld, defining a common cultural milieu that transcends spatial and temporal distance—a collective mode of being here termed the “diasporic condition.” Encompassing a complicated transnational terrain, Hage’s long-term ethnography takes us from Mehj and Jalleh in Lebanon to Europe, Australia, South America, and North America, analyzing how Lebanese migrants and their families have established themselves in their new homes while remaining socially, economically, and politically related to Lebanon and to each other. At the heart of The Diasporic Condition lies a critical anthropological question: How does the study of a particular sociocultural phenomenon expand our knowledge of modes of existing in the world? As Hage establishes what he terms the “lenticular condition,” he breaks down the boundaries between “us” and “them,” “here” and “there,” showing that this convergent mode of existence increasingly defines everyone’s everyday life.

European Vision and the South Pacific Third Edition Bernard Smith,2022-10-05 Bernard Smith (1916-2011) was arguably Australia's greatest art historian and one of the most important humanist thinkers internationally on ideas concerning cultural contact. His European Vision and the South Pacific, first published in 1960, showed how the ideas of the Enlightenment and the empirical structuring of scientific and geographical knowledge during the great eighteenth-century voyages of discovery affected notions of identity-both for Europeans and the Indigenous peoples with whom they came in contact. Not only did Smith's investigation of art, science and imperialism of this period explore the conditions of frontier contact, it opened up the dialogue on de-colonisation and allowed us 'to think beyond or after it'. He was undoubtedly a pioneer of post-colonialism and the book remains 'a lighthouse' in pacific studies.
