*A Brush with Darkness* Lisa Fittipaldi,2004 When Lisa Fittipaldi went blind at the age of forty-seven, she descended into a freefall of anger and denial that lasted for two years. In this moving memoir, she paints a vivid picture of the perceptual and emotional darkness that accompanied her vision loss, and her arduous journey back into the sighted world through mastery of the principles of art and color. The challenge of a child's watercolor set, thrown down like a gauntlet by her frustrated husband, opened the door to a new life. I truly feel that unless blindness had toppled the carefully maintained edifice I called my life, there is no way that I would be the kinder, more fulfilled person I am today, Lisa writes.--From publisher description.

**How to See Color and Paint It** Arthur Stern,1984 Learn to see and mix any color with extraordinary precision! Many painters don't paint what they see, but what they expect to see, what they think they see, what they remember, or what they imagine things are supposed to look like. Since the mind stands in the way of the eye, the purpose of this revolutionary book is to train you to paint what your eye actually sees. Arthur Stern claims that color is key to painting what you see. After working with three generations of students, he developed a program of 22 painting projects that teach the artist to observe, identify, mix, match, and paint the colors of the world with remarkable accuracy. Using a painting knife and oil paint, you learn to analyze every painting subject as a series of distinct color areas--called color spots--and place each spot on the canvas as a unique and vivid mixture. The fundamental lesson of the book is that if you put the right color spot in the right place, you create a realistic image of form, space, surface texture, atmosphere, light, and shade. As you follow the painting projects in this book, you'll make the dramatic discovery that everything in nature is filled with luminous color. You'll learn to see glowing color in the blackest shadow and the whitest linen. You'll learn when a green can appear red; how to use paint to replicate metal, glass, wood, paper, porcelain, and other opaque, transparent, or textured surfaces. Before long, you'll be seeing a multitude of colors in a slice of bread, apples and oranges, and a mass of green leaves. You'll learn how to paint quickly enough to capture a live still life--a flower that moves and slowly dies as you paint it. You'll even practice with a setup outdoors to see how sunlight and skylight affect color. *How to See Color and Paint It* is a must for beginners and a valuable asset for intermediate artists who want to develop a more subtle perception of color. A final section contains beautiful paintings of many subjects that have grown out of projects and ideas taught in this book. 130 color plates; 40 black & white illustrations

**Special Edition. Flowers and Drawings of Children Ready to Color.** Lech Balcerzak,2020-12-18 For Christmas and in response to our customers' requests, we have created a mix of the best illustrations from previous flower coloring pages. The coloring book is suitable for adults and gifted children (9 years up). In addition, this coloring book includes new hand-drawn sketches of kids, and models, ready to be colored or painted with acrylic, oil, colored pencils or watercolors. And a remastered version the Leonardo Da Vinci's Mona Lisa x 2 copies with different level of contrast, in order to improve your painting skills. The book also includes other themes and landscapes (see the list at the bottom of the text). So much variety has been included to encourage new artists to enter the world of coloring and then painting their own pictures. So it is perfect for a Christmas gift. This is especially true for children who need better motivation to start doing something new. Of course, that's just the beginning. To paint or draw well, you need to make thousands of pictures. Then you will reach the championship level. From the author - About New Sketches: My idea: learn to paint by coloring and gradually increasing the difficulty of painting. So, each sketch is drawn in 2 versions: 1) easy, tonal, even older children can paint on it 2) more difficult, with lines and less detail Both version 1 and version 2 can become a colored work of art - if you add color and layers accordingly. My sketches are mostly child portraits with no background, so here's a great opportunity to add your own themes. For example, you can draw a road and trees, paint a landscape behind a girl or a beautiful flower next to her, to complete your portrait. Have a beautiful Christmas, Lech PS In addition, at the end of the book you will find my multi-page tutorial on painting and using the hybrid multi-layer technique. See Examples: left side of screen, below Look Inside, click on the thumbnails next to See all Images. 67 Pictures Ready to Paint or Color, the List: for Beginners: \* Part 1 - Living Drawings (Pencil) \* Part 2 - Deshading Style \* Part 3 - Best Mix of Flowers (for Beginners) \* Part 4 - Various Pictures (For Beginners) for Advanced Artists: \* Part 5 - Living Drawings (Pencil, Low Contrast) \* Part 6 - Best Mix of Flowers (Low Contrast) \* Part 7 - Various Pictures (Low Contrast) \* and The Author's Guide - How to Paint using a Hybrid Coloring All images are printed on one side.
