Restructuring Translation Education Feng Yue, Youlan Tao, Huashu Wang, Qiliang Cui, Bin Xu, 2019-01-14 This book offers data-based insights into the problems of translation education and their causes in the context of localization and globalization in the era of big data. By examining language services around the globe, illustrating applications of big-data technology and their future development, and describing crowdsourcing and online collaborative translations, speech-to-speech translation and cloud-based translation, it makes readers aware of the important changes taking place in the professional translation market and consequently recognize the insufficiency of translation education and the need for it to be restructured accordingly. Furthermore, the book includes data-based analyses of translation education problems, such as teaching philosophy, curriculum design and faculty development of both undergraduate and postgraduate education in China. More importantly, it proposes solutions that have already been successful in experiments in a number of universities in China for other institutions of higher education to imitate in restructuring translation education. The discussion is of interest for current and future translation policy makers, translation educators, translators and learners.

Telling the Story of Translation Judith Woodsworth, 2017-08-10 Scholars have long highlighted the links between translating and (re)writing, increasingly blurring the line between translations and so-called 'original' works. Less emphasis has been placed on the work of writers who translate, and the ways in which they conceptualize, or even fictionalize, the task of translation. This book fills that gap and thus will be of interest to scholars in linguistics, translation studies and literary studies. Scrutinizing translation through a new lens, Judith Woodsworth reveals the sometimes problematic relations between author and translator, along with the evolution of the translator's voice and visibility. The book investigates the uses (and abuses) of translation at the hands of George Bernard Shaw, Gertrude Stein and Paul Auster, prominent writers who bring into play assorted fictions as they tell their stories of translations. Each case is interesting in itself because of the new material analysed

and the conclusions reached. Translation is seen not only as an exercise and fruitful starting point, it is also a way of paying tribute, repaying a debt and cementing a friendship. Taken together, the case studies point the way to a teleology of translation and raise the question: what is translation for? Shaw, Stein and Auster adopt an authorial posture that distinguishes them from other translators. They stretch the boundaries of the translation proper, their words spilling over into the liminal space of the text; in some cases they hijack the act of translation to serve their own ends. Through their tales of loss, counterfeit and hard labour, they cast an occasionally bleak glance at what it means to be a translator. Yet they also pay homage to translation and provide fresh insights that continue to manifest themselves in current works of literature. By engaging with translation as a literary act in its own right, these eminent writers confer greater prestige on what has traditionally been viewed as a subservient art.

Translation as Stylistic Evolution Federico M. Federici, 2009 Why did Italo Calvino decide to translate *Les Fleurs bleues* by Raymond Queneau? Was his translation just a way to pay a tribute to one of his models? This study looks at Calvino's translation from a literary and linguistic perspective: Calvino's *I fiori blu* is more than a rewriting and a creative translation, as it contributed to a revolution in his own literary language and style. Translating Queneau, Calvino discovered a new fictional voice and explored the potentialities of his native tongue, Italian. In fact Calvino's writings show a visible evolution of poetics and style that occurred rather abruptly in the mid 1960s; this sudden change has long been debated. The radical transformation of his style was affected by several factors: Calvino's new interests in linguistics, in translation theory, and in the act of translation. *Translation as Stylistic Evolution* analyses several passages in detail and scrutinizes quantitative data obtained by comparing digital versions of the original and Calvino's translation. The results of such assessment of Calvino's text-consistency suggest clear interpretations of the motives behind Calvino's radical and remarkable change of style that are tied to his notion of creative translation.

On Translation Paul Ricoeur, 2007-01-24 Paul Ricoeur was one of the most important philosophers of the twentieth century. In this short and accessible book, he turns to a topic at the heart of much of his work: What is translation and why is it so important? Reminding us that The Bible, the Koran, the Torah and the works of the great philosophers are often only ever read in translation, Ricoeur reminds us that translation not only spreads knowledge but can change its very meaning. In spite of these risk, he argues that in a climate of ethnic and religious conflict, the art and ethics of translation are invaluable. Drawing on interesting examples such as the translation of early Greek philosophy during the Renaissance, the poetry of Paul Celan and the work of Hannah Arendt, he reflects not only on the challenges of translating one language into another but how one community speaks to another. Throughout, Ricoeur shows how to move through life is to navigate a world that requires translation itself. Paul Ricoeur died in 2005. He was one of the great contemporary French philosophers and a leading figure in hermeneutics, psychoanalytic thought, literary theory and religion. His many books include *Freud and Philosophy* and *Time and Narrative*.

The Translator's Dialogue Giovanni Pontiero, 1997-01-01 *The Translator's Dialogue*: Giovanni Pontiero is a tribute to an outstanding translator of literary works from Portuguese, Luso-Braslian, Italian and Spanish into English. The translator introduced authors such as Carlos Drummond de Andrade, Manuel Bandeira, Clarice Lispector and Jose Saramago to the English reading world. Pontiero's essays shed light on the process of literary translation and its impact on cultural perception. This process is exemplified by Pontiero the translator and analyst, some of the authors he collaborated with, publishers' editors and literary critics and, finally, by an unpublished translation of a short story by Jose Saramago, *Coisas*.

Sympathy for the Traitor Mark Polizzotti, 2019-01-29 An engaging and unabashedly opinionated examination of what translation is and isn't. For some, translation is the poor cousin of literature, a necessary evil if not an outright travesty—summed up by the old Italian play on words, *traduttore*, *traditore* (translator, traitor). For others, translation is the royal road to cross-cultural understanding and literary enrichment. In this nuanced and provocative study, Mark Polizzotti attempts to reframe the debate along more fruitful lines. Eschewing both these easy polarities and the increasingly abstract discourse of translation theory, he brings the main questions into clearer focus: What is the ultimate goal of a translation? What does it mean to label a rendering “faithful”? (Faithful to what?) Is something inevitably lost in translation, and can something also be gained? Does translation matter, and if so, why? Unashamedly opinionated, both a manual and a manifesto, his book invites us to sympathize with the translator not as a “traitor” but as the author's creative partner. Polizzotti, himself a translator of authors from Patrick Modiano to Gustave Flaubert, explores what translation is and what it isn't, and how it does or doesn't work. Translation, he writes, “skirts the boundaries between art and craft, originality and replication, altruism and commerce, genius and hack work.” In *Sympathy for the Traitor*, he shows us how to read not only translations but also the act of translation itself, treating it not as a problem to be solved but as an achievement to be celebrated—something, as Goethe put it, “impossible, necessary, and important.”

Becoming a Translator Douglas Robinson, 2012 The process of translation. Drawing on experience: how being a translator is more than just being good at languages. Starting with people: social interaction as the first key focus of translator's experience of the world ...

Translation and Minority Lawrence Venuti, 2016-04-29 The premise of this volume is a question: What can the concept of minority bring to the practice and study of translation? Minority is understood here to mean a cultural or political position that is subordinate, whether the social context that so defines it is local, national or global. This position is occupied by languages and literatures that lack prestige or authority, the non-standard and the non-canonical, what is not spoken or read much by a hegemonic culture. Yet minorities also include the nations and social groups that are affiliated with these languages and literatures, the politically weak or underrepresented, the colonized and the disenfranchised, the exploited and the stigmatized. Translation today is itself a minor use of language, a lesser art, an invisible craft that commands less cultural capital and fewer legal privileges than original composition. Yet the focus in this collection is not on what translators worldwide have in common but on the distinctive forms that translating takes when it is done by or on behalf of minorities. The articles in this volume present a variety of case studies that illuminate the linguistic and cultural problems posed by such translating, as well as the economic and political agendas it has served. Together, these pieces show that the concept of minority is worth exploring because it inspires innovation in translation practice and research. Minor cultures are coincident with new translation strategies, new translation theories, and new syntheses of the diverse methodologies that constitute the discipline of translation studies.

The Translator's Invisibility Lawrence Venuti, 2012-06-25 Since publication over ten years ago, *The Translator's*

Invisibility has provoked debate and controversy within the field of translation and become a classic text. Providing a fascinating account of the history of translation from the seventeenth century to the present day, Venuti shows how fluency prevailed over other translation strategies to shape the canon of foreign literatures in English and investigates the cultural consequences of the receptor values which were simultaneously inscribed and masked in foreign texts during this period. The author locates alternative translation theories and practices in British, American and European cultures which aim to communicate linguistic and cultural differences instead of removing them. In this second edition of his work, Venuti: clarifies and further develops key terms and arguments responds to critical commentary on his argument incorporates new case studies that include: an eighteenth century translation of a French novel by a working class woman; Richard Burton's controversial translation of the Arabian Nights; modernist poetry translation; translations of Dostoevsky by the bestselling translators Richard Pevear and Larissa Volokhonsky; and translated crime fiction updates data on the current state of translation, including publishing statistics and translators' rates. The Translator's Invisibility will be essential reading for students of translation studies at all levels. Lawrence Venuti is Professor of English at Temple University, Philadelphia. He is a translation theorist and historian as well as a translator and his recent publications include: *The Scandals of Translation: Towards an Ethics of Difference* and *The Translation Studies Reader*, both published by Routledge.

Words, Images and Performances in Translation Rita Wilson, Brigid Maher, 2012-02-02

Challenging the Traditional Axioms Nike K. Pokorn, 2005-04-26 Translation into a non-mother tongue or inverse translation, especially of literary texts, has always been frowned upon within Translation Studies in Western cultures and regarded by literary scholars and linguists as an activity of dubious worth, doomed to fail. The study, which received an award from EST in 2001, sets out to challenge the established view and to critically question some of the axiomatic assumptions of Western theorists. Its challenge is supported by extensive empirical research involving reader response to translations of specific literary texts. The conclusion reached is that the quality of the translation, its fluency and acceptability in the target language environment depend primarily on the as yet undetermined individual abilities of the particular translator, his/her translation strategy and knowledge of the source and target cultures, and not on his/her mother tongue or the direction in which s/he is translating.
