A Voyage Round the World, 2 vols. George Forster, 2000-01-01 George Forster's *A Voyage Round the World* presents a wealth of geographic, scientific, and ethnographic knowledge uncovered by Cook's second journey of exploration in the Pacific (1772-1775). Accompanying his father, the ship's naturalist Johann Reinhold Forster, on the voyage, George proved a knowledgeable and adept observer. The lively, elegant prose and critical detail of his account, based loosely on his father's journal, make it one of the finest works of eighteenth-century travel literature and an account of prime importance in the history of European contact with Pacific peoples. The Forsters' publications reveal the sophistication and enthusiasm they brought to their observation of Polynesian peoples as well as a sensitivity to the moral ambiguities of contact. The two volumes of George Forster's work include substantially richer descriptions of encounters with island inhabitants than either his father's classic work (*Observations Made during a Voyage round the World*, UH Press, 1996) or Cook's official narrative, and its confident, even visionary, style incorporates a good deal of polemic, particularly in its criticism of the treatment of islanders by Cook's crew. In addition to the range and depth of its anthropological considerations, it provides a thrilling account of life aboard one of Cook's vessels. In its author's German translation, this work becomes a classic of natural history writing, but its original English version has long been neglected by anglophone

scholars. This new scholarly edition makes this important book readily available for the first time since its initial publication more than two centuries ago. But it also presents the work in fresh terms, making it more accessible and relevant to a contemporary audience. The valuable introduction and annotations draw on the wide range of anthropological and ethnohistorical scholarship published since the 1960s and contextualize the book in relation to both the cultures of Oceania documented by the Forsters and the history of European voyaging in the Pacific. Appendixes include a translation of the introduction to the German edition and the polemical pamphlets by George Forster and the ship's astronomer William Wales, in which some of the book's more controversial claims were debated. *A Voyage Round the World* brings the disciplines of history and anthropology to bear on Cook's voyages in an illuminating and readable fashion. This edition will help complete the corpus of basic documents on Cook's voyages--a crucial resource for researchers in cultural, Pacific, and maritime history; archaeologists, anthropologists, and art historians; and most recently for scholars engaged in revisionist interpretations of eighteenth-century exploration and colonization.

Textual and Contextual Voices of Translation
Cecilia Alvstad, Annjo K. Greenall, Hanne Jansen, Kristiina Taivalkoski-Shilov, 2017-10-15 The notion of voice has been used in a number of ways

within Translation Studies. Against the backdrop of these different uses, this book looks at the voices of translators, authors, publishers, editors and readers both in the translations themselves and in the texts that surround these translations. The various authors go on a hunt for translational agents' voice imprints in a variety of textual and contextual material, such as literary and non-literary translations, book reviews, newspaper articles, academic texts and e-mails. While all stick to the principle of studying text and context together, the different contributions also demonstrate how specific textual and contextual circumstances require adapted methodological solutions, ending up in a collection that takes steps in a joint direction but that is at the same time complex and pluralistic. The book is intended for scholars and students of Translation Studies, Comparative Literature, and other disciplines within Language and Literature.

Fruit of the Drunken Tree Ingrid Rojas

Contreras, 2019-06-04 "One of the most dazzling and devastating novels I've read in a long time...Readers of Fruit of the Drunken Tree will surely be transformed." --San Francisco Chronicle "Simultaneously propulsive and poetic, reminiscent of Isabel Allende...Listen to this new author's voice – she has something powerful to say." --Entertainment Weekly Seven-year-old Chula lives a carefree life in her gated community in Bogotá, but the threat of kidnappings, car bombs, and assassinations hover just outside her walls, where the godlike drug lord Pablo Escobar reigns,

capturing the attention of the nation. When her mother hires Petrona, a live-in-maid from the city's guerrilla-occupied slum, Chula makes it her mission to understand Petrona's mysterious ways. Petrona is a young woman crumbling under the burden of providing for her family as the rip tide of first love pulls her in the opposite direction. As both girls' families scramble to maintain stability amidst the rapidly escalating conflict, Petrona and Chula find themselves entangled in a web of secrecy. Inspired by the author's own life, *Fruit of the Drunken Tree* is a powerful testament to the impossible choices women are often forced to make in the face of violence and the unexpected connections that can blossom out of desperation.

Diverse Voices in Chinese Translation and Interpreting Riccardo Moratto, Martin

Woesler, 2021-02-02 This book presents a thoughtful and thorough account of diverse studies on Chinese translation and interpreting (TI). It introduces readers to a plurality of scholarly voices focusing on different aspects of Chinese TI from an interdisciplinary and international perspective. The book brings together eighteen essays by scholars at different stages of their careers with different relationships to translation and interpreting studies. Readers will approach Chinese TI studies from different standpoints, namely socio-historical, literary, policy-related, interpreting, and contemporary translation practice. Given its focus, the book

benefits researchers and students who are interested in a global scholarly approach to Chinese TI. The book offers a unique window on topical issues in Chinese TI theory and practice. It is hoped that this book encourages a multilateral, dynamic, and international approach in a scholarly discussion where, more often than not, approaches tend to get dichotomized. This book aims at bringing together international leading scholars with the same passion, that is delving into the theoretical and practical aspects of Chinese TI.

How to Translate Nicolae Sfetcu, 2015-04-19 A guide for translators, about the translation theory, the translation process, interpreting, subtitling, internationalization and localization and computer-assisted translation. A special section is dedicated to the translator's education

and associations. The guide include, as annexes, several independent adaptations of the corresponding European Commission works, freely available via the EU Bookshop as PDF and via SetThings.com as EPUB, MOBI (Kindle) and PDF. For a “smart”, sensible translation, you should forget not the knowledge acquired at school or university, but the corrective standards. Some people want a translation with the touch of the source version, while another people feel that in a successful version we should not be able to guess the original language. We have to realize that both people have right and wrong, and that their only fault is to present requirement as an absolute truth. Teachers agree at least on this principle: “If a sentence is ambiguous, the translation must also be”. There is another critical, less easy to argue, based on an Italian phrase with particularly strong wording: “Traduttore, traditore”. This critique argues that any translation will betray the author’s language, spirit, style ... because of the choices on all sides. What to sacrifice, clarity or brevity, if the formula in the text is brief and effective, but impossible to translate into so few words with the exact meaning? One could understand this criticism that it encourages us to read “in the text.” It seems obvious that it is impossible to follow this advice into practice.

Translating Dissent Mona Baker, 2015-10-30

Written by the winners of the Intratrans Linguists of the Year award for 2016! Discursive and non-discursive interventions in the political arena are heavily mediated by various acts of

translation that enable protest movements to connect across the globe. Focusing on the Egyptian experience since 2011, this volume brings together a unique group of activists who are able to reflect on the complexities, challenges and limitations of one or more forms of translation and its impact on their ability to interact with a variety of domestic and global audiences. Drawing on a wide range of genres and modalities, from documentary film and subtitling to oral narratives, webcomics and street art, the 18 essays reveal the dynamics and complexities of translation in protest movements across the world. Each unique contribution demonstrates some aspect of the interdependence of these movements and their inevitable reliance on translation to create networks of solidarity. The volume is framed by a substantial introduction by Mona Baker and includes an interview with Egyptian activist and film-maker, Philip Rizk. With contributions by scholars and artists, professionals and activists directly involved in the Egyptian revolution and other movements, *Translating Dissent* will be of interest to students of translation, intercultural studies and sociology, as well as the reader interested in the study of social and political movements. Online materials, including links to relevant websites and videos, are available at <http://www.routledge.com/cw/baker>. I Hid My Voice Parinoush Saniee, 2016-08-06 From the international bestselling author of The Book of Fate comes the story, based on real events, of a four-year-old boy who cannot speak and the shame it brings upon his family in modern-day Iran. Four-year-old Shahaab has not started talking. The family doctor believes there is no cause for concern; nevertheless, Shahaab is ridiculed by others who call him "dumb." Young Shahaab doesn't understand what the word means and thinks it is a compliment, until one day his cousin plays a trick on him to prove to everyone that the boy truly is the neighbourhood idiot. When his mother recounts the incident to her husband, Shahaab is crushed to learn that his father also thinks the boy's speech impediment indicates that his son is an idiot and thus brings shame on the family. He begins to lash out, taking childish revenge on those around him, encouraged by his two imaginary friends, Esi and Bibi. No one in the family can understand Shahaab's wild behaviour except his maternal grandmother, who seems to possess the understanding and the kindness he so desperately craves. Their growing bond leads to a deep friendship in which Shahaab is able to experience some happiness and finally find his voice.

Voice-over Translation Eliana Franco, Anna Matamala, Pilar Orero, 2010 This book presents the first study of voice-over from a wide approach, including not only academic issues but also a description of the practice of voice-over around the globe. The authors define the concept of voice-over in Film Studies and Translation Studies and clarify the relationship between voice-over and other audiovisual transfer modes. They also describe the translation process in voice-over both for production and postproduction, for fiction and non-fiction. The book also features course models on voice-over which can be used as a source of inspiration by trainers willing to include this transfer mode in their courses. A global survey on voice-over in which both practitioners and academics express their opinions and a commented bibliography on voice-over complete this study. Each chapter includes exercises which both lecturers and students can find useful.

Voice and Versification in Translating Poems James W. Underhill, 2016-12-09 Great poets like Shelley and Goethe have made the claim that translating poems is impossible. And yet, poems are translated; not only that, but the metrical

systems of English, French, Italian, German, Russian and Czech have been shaped by the translation of poems. Our poetic traditions are inspired by translations of Homer, Dante, Goethe and Baudelaire. How can we explain this paradox? James W. Underhill responds by offering an informed account of meter, rhythm, rhyme, and versification. But more than that, the author stresses that what is important in the poem—and what must be preserved in the translated poem—is the voice that emerges in the versification. Underhill's book draws on the author's translation experience from French, Czech and German. His comparative analysis of the versifications of French and English have enabled him to revise the key terms involved in translating the poetic voice and transposing the poem's versification. The theories of versification from the Prague School of Linguistics, the French and Swiss schools of versification, and recent scholarship in metrics and rhythm in the UK and in the USA have been integrated into this synthetic but rigorously coherent approach to translating poems. The extensive glossary at the end of the book will prove useful for both students and teachers alike. And the detailed case studies on translating poems by Baudelaire and Emily Dickinson allow the author to categorize and appraise the various poetic and aesthetic strategies and theories that are brought to bear in translating Baudelaire into English, and Dickinson into French.

This practical guide by two experienced translators and translation tutors explores aspects of time, context and culture in a range of translated literary texts, including novels, memoirs, poems and plays. Reflective analytical sections are complemented by a variety of practical tasks that reflect the book's craft-based approach. Providing a dual focus on both analysis and creativity, this volume helps readers to develop two different skill sets required for translation: deconstruction and reconstruction. To learn how to analyse or deconstruct a source text (ST), the tasks include translating and editing, comparison and analysis of source language (SL) texts and translations, and critiquing or improving target language (TL) texts produced by translators from different times. A range of creative writing challenges reveal the secrets writers use to hook their readers. Whatever language readers translate into, these insights

will help them to find their own writer's voice, making them better equipped to recreate another author's voice, whatever the time or cultural context. This is the essential guide to improving target texts for all translators and students of translation.
