**CU 2.0: A Guide for Credit Unions Competing in the Digital Age** Kirk Drake,2017-06-14 In recent decades, credit unions have seen unprecedented threats, due in large part to an eighty-year-old business model and an inability to adapt quickly to a digital economy. But Kirk Drake has devised a

powerful plan to revitalize these noble institutions, making them more competitive, more creative, more connected with their membership, and more in tune with the times. A serial entrepreneur focused on credit-union technology, Drake has written a must-read manual for every CU board member, CEO, and management team in America. The first and only book of its kind, CU 2.0 offers essential strategies for leveraging the latest technologies to facilitate organizational growth and foster more even competition with the banking industry. With the tools provided here, the CU of tomorrow will be better equipped to empower its employees, while giving its members the superior financial service they want and need. It's time to be innovative and bold, to challenge long-standing inefficiencies and move away from the old school methods of doing business. CU 2.0 provides the skills, the savvy, and the fresh ideas necessary to finally transport the credit union out of the twentieth century and into the twenty-first.

**Cusos** Brian Lauer,2018-08-27 More people are turning to member-owned credit unions for their banking needs. But most credit unions can't provide the wide range of services offered by large global institutions and lack the resources to keep up with evolving technologies. Credit unions must become more flexible to remain vital-and Credit Union Service Organizations can make that happen. This essential handbook explains the rules, risks, and rewards of forming or joining a CUSO, a working partnership that combines the individual strengths of multiple credit unions and financial technology entrepreneurs. Brian Lauer explores every aspect of this game-changing collaboration, from creation through operation, and the tremendous opportunities it affords credit union management stakeholders and fintech innovators alike. In a highly competitive banking market, credit unions need to expand their financial horizons. CUSOs offers a bold strategic vision for maximizing efficiency and encouraging innovation to provide credit union members with more options and a higher level of service.

**National Credit Union Administration** Government Accountability Office,2013-09-04 Credit unions

are tax-exempt, cooperative financial institutions run by member-elected, primarily volunteer boards. To build capital, credit unions do not issue stock; they are not-for-profit entities that build capital by retained earnings. Their tax-exempt status and cooperative, not-for-profit structure separate credit unions from other depository institutions. Like banks and thrifts, credit unions are either federally or state chartered.

### **The Data-Driven Credit Union: Creating a Data-Driven Decision Culture in Your Credit Union**

Michael Cochrum, 2019-01-14 Businesses around the globe are adopting data-driven decision cultures where business intelligence is influencing decision makers. Financial institutions, like credit unions and community banks, often feel left out of this transformation because they perceive it to be too costly and/or time consuming. Michael Cochrum, an established thought-leader on data-modeling and business intelligence within the financial services space, provides a practical road map for small and medium financial institutions who want to integrate data into decision making. Mr. Cochrum has worked in or with the smallest and largest of financial institutions across the country and has a keen grasp on

the type of data analytics that provide the greatest benefit to credit union and bank leaders. Michael cuts through the hype and helps define, in a practical way, how financial institutions of all sizes can leverage data in every day decision-making.

**Credit Union Merger and Conversion Manual** National Credit Union Administration, 2013-04-02 This Manual covers mergers and conversions involving both federal and state chartered credit unions and corporate credit unions. It summarizes portions of the following regulations:\* Mergers of Federally-Insured Credit Unions; Voluntary Termination or Conversion of Insured Status, Part 708b of NCUA's Rules and Regulations.\* Chartering and Field of Membership Manual, NCUA Interpretive Ruling and Policy Statement (IRPS) 03-1.

**The Credit Union** Peter K. Bros, 1989 The author, CFO of a major federal credit union, proposes a fee philosophy for credit unions compatible with the spirit of cooperation underlying the movement. Because of the failure to apply costs fairly results in one class of members subsidizing another, he details specific instances in which costs should be identified & fees applied to the members incurring

the costs. He further proposes that credit unions, to survive, must position themselves as the transaction account provider to the average financial consumer, operating in conjunction with it. He makes concrete proposals for resolving specific problems such as the dichotomy between the Board & operating officers & the elusive definition of common bond. In the foreword, CONGRESSMAN PHILIP CRANE points out that attention directed at the magnitude of the savings & loan failure ignores the realities that Congress was facing in the early eighties. He points out that Congress was passing legislation which was designed to ameliorate the inevitable & more severe collapse of an industry that could no longer compete with the more efficient secondary mortgage market that had come to dominate the financial scene after World War II.
