Making Ideas Happen: Overcoming the Obstacles Between Vision and Reality Scott Belsky,2011-06-02 Thomas Edison famously said that genius is 1% inspiration and 99% perspiration. Every day, new solutions, revolutionary cures, and artistic breakthroughs are conceived and squandered by smart people. Along with the gift of creativity come the obstacles to making ideas happen: lack of organisation, lack of accountability and a lack of community support.Scott Belsky has interviewed hundreds of the most productive creative people and teams in the world, revealing a common trait: a carefully trained capacity for ideas execution. Implementing your ideas is a skill that can be taught, and Belsky distils the core principles in this book.While many of us obsess about discovering great new ideas, Belsky shows why it is better to develop the capacity to make ideas happen - using old-fashioned passion and perspiration. *Making Ideas Happen* reveals the practical yet counterintuitive techniques of serial creatives - those few who make their visions a reality.
