Handbook of Healthcare Operations Management Brian T. Denton, 2013-02-28 From the Preface: Collectively, the chapters in this book address application domains including inpatient and outpatient services, public health networks, supply chain management, and resource constrained settings in developing countries. Many of the chapters provide specific examples or case studies illustrating the applications of operations research methods across the globe, including Africa, Australia, Belgium, Canada, the United Kingdom, and the United States. Chapters 1-4 review operations research methods that are most commonly applied to health care operations management including: queuing, simulation, and mathematical programming. Chapters 5-7 address challenges related to inpatient services in hospitals such as surgery, intensive care units, and hospital wards. Chapters 8-10 cover outpatient services, the fastest growing part of many health systems, and describe operations research models for primary and specialty care services, and how to plan for patient no-shows. Chapters 12 – 16 cover topics related to the broader integration of health services in the context of public health, including optimizing the location of emergency vehicles, planning for mass vaccination events, and the coordination among different parts of a health system. Chapters 17-18 address supply chain management within hospitals, with a focus on pharmaceutical supply management, and the challenges of managing inventory for nursing units. Finally, Chapters 19-20 provide examples of important and emerging research in the realm of humanitarian logistics.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are

dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Nephrology Worldwide José A. Moura-Neto, José Carolino Divino-Filho, Claudio Ronco, 2021-03-03

This book presents contributions from leading international experts in the field of nephrology. Each

chapter is independent and discusses nephrology in the author's country, including the history of nephrology development, kidney disease epidemiology, clinical nephrology, dialysis practice in acute and chronic renal failure settings (hemodialysis, hemodiafiltration, peritoneal dialysis), pediatric nephrology, and kidney transplantation. In addition, the book covers topics such as the job market for nephrologists, reimbursement, nephrology education, and the number of professionals in the private and public sectors. With 53 chapters and more than 300 authors from all continents offering a unique perspective on nephrology practice, it provides a much-needed information source for nephrologists around the globe. The reader will be able to travel through "Nephrology Worldwide", a pleasant reading experience with not only relevant information and updated data, but also a comprehensive look at the history, countries' peculiarities, and a critical analysis of the scenario of nephrology and renal replacement therapy. A valuable resource for healthcare professionals and other stakeholders interested in learning about the status quo of Nephrology Worldwide. "Both the failings and the successes are outlined in a way that should make this book a compelling read, not just for the well-informed renal physician, but also for planners and policy makers whose thinking and actions are integral to the way we practice medicine." - Sir Peter J. Ratcliffe, Nephrologist and 2019 Nobel Prize Winner More information on the Nephrology Worldwide initiative can be found at www.nephrologyworldwide.com.

The Dream Manager Matthew Kelly, 2007-08-21 A business parable about how companies can achieve remarkable results by helping their employees fulfill their dreams Managing people is difficult. With disengagement and turnover on the rise, many managers are scratching their heads wondering what to do. It's not that we don't dream of being great managers, it's just that we haven't found a practical and efficient way to do it. Until now . . . The fictional company in this remarkable

book is grappling with real problems of high turnover and low morale -- so the managers begin to investigate what really drives the employees. What they discover is that the key to motivation isn't necessarily the promise of a bigger paycheck or title, but rather the fulfillment of crucial personal dreams. They also learned that people at every level need to be offered specific kinds of help and encouragement -- or our dreams will forever remain just dreams as we grow dissatisfied with our lives and jobs. Beginning with his important thought that a company can only become the-best-version-of-itself to the extent that its employees are becoming better-versions-of-themselves, Matthew Kelly explores the connection between the dreams we are chasing personally and the way we all engage at work. Tackling head-on the growing problem of employee disengagement, Kelly explores the dynamic collaboration that is unleashed when people work together to achieve company objectives and personal dreams. The power of *The Dream Manager* is that simply becoming aware of the concept will change the way you manage and relate to people instantly and forever. What's your dream?

Martin Guitar Masterpieces Dick Boak,2003 A fascinating look at more than 100 of the Martin Guitar Company's custom guitars, created for the world's most famous musicians, including Sting, Eric Clapton, and Elvis-along with the inside stories behind each design. From the infamous 'Elvi' guitar owned by Elvis Presley (his original D-18 missing the 's' from his name) to customized instruments belonging to Bob Dylan, Willie Nelson, Joan Baez, Sting, and Eric Clapton, the Martin Guitar company has made a guitar for nearly every notable musician who's ever held a six-string. Now, MARTIN GUITAR MASTERPIECES revisits more than 100 of the company's most desirable guitars, ranging from those belonging to Stephen Stills, David Crosby, Paul Simon, and Johnny Cash to guitars owned by newer artists like Beck, Babyface, and Jonny Lang. Dick Boak, head of Artist Relations and Publicity at C. F. Martin, acts as the artist liaison in these collaborations and now, for the first time, enthusiastically outlines his experiences. Readers also get a sneak preview of Martin's millionth instrument, due in 2004.

Maternal-Child Nursing Care Optimizing Outcomes for Mothers, Children, & Families Susan Ward,Shelton Hisley,2015-06-03 It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity/pediatric courses. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring

for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.
