Brian Knittel,Paul McFedries

The Old New Thing Raymond Chen, 2006-12-27 Raymond Chen is the original raconteur of Windows. --Scott Hanselman, ComputerZen.com Raymond has been at Microsoft for many years and has seen many nuances of Windows that others could only ever hope to get a glimpse of. With this book, Raymond shares his knowledge, experience, and anecdotal stories, allowing all of us to get a better understanding of the operating system that affects millions of people every day. This book has something for everyone, is a casual read, and I highly recommend it! --Jeffrey Richter, Author/Consultant, Cofounder of Wintellect Very interesting read. Raymond tells the inside story of why Windows is the way it is. --Eric Gunnerson, Program Manager, Microsoft Corporation Absolutely essential reading for understanding the history of Windows, its intricacies and quirks, and why they came about. --Matt Pietrek, MSDN Magazine's Under the Hood Columnist Raymond Chen has become something of a legend in the software industry, and in this book you'll discover why. From his high-level reminiscences on the design of the Windows Start button to his low-level discussions of GlobalAlloc that only your inner-geek could love, *The Old New Thing* is a captivating collection of anecdotes that will help you to truly appreciate the difficulty inherent in designing and writing quality software. --Stephen Toub, Technical Editor, MSDN Magazine Why does Windows work the way it does? Why is Shut Down on the Start menu? (And why is there a Start button, anyway?) How can I tap into the dialog loop? Why does the GetWindowText function behave so strangely? Why are registry files called hives? Many of Windows' quirks have perfectly logical explanations, rooted in history. Understand them, and you'll be more productive and a lot less frustrated. Raymond Chen--who's spent more than a decade on Microsoft's Windows development team--reveals the hidden Windows you need to know. Chen's engaging style, deep insight, and thoughtful humor have made him one of the world's premier

technology bloggers. Here he brings together behind-the-scenes explanations, invaluable technical advice, and illuminating anecdotes that bring Windows to life--and help you make the most of it. A few of the things you'll find inside: What vending machines can teach you about effective user interfaces A deeper understanding of window and dialog management Why performance optimization can be so counterintuitive A peek at the underbelly of COM objects and the Visual C++ compiler Key details about backwards compatibility--what Windows does and why Windows program security holes most developers don't know about How to make your program a better Windows citizen

Wake Up Captian and Crew Restart Your Engines Roy C. Richards, 2007-03 Renewal for Men and Women In Their Thirties, Forties, Fifties and Beyond Do you lead or participate in a collective enterprise which has grown old before its time? Lagging corporations, family businesses, governmental entities

and private foundations dampen the spirits and drain energy from managers, employees and volunteers top to bottom. The author's second book, *Wake Up Captain and Crew-Restart Your Engines* , addresses leaders, formal and informal, intent upon revitalizing their stagnant or declining organizations from within. The author begins from the premise that sagging enterprises are best transformed by reigniting the creative energies and collective spirit of those presently on board. No matter how outstanding its products or services, any organization's primary asset is the combined talent, knowledge and imagination of on-board personnel. Rather than attempting to tear down and rebuild, today's outstanding leaders are able to inspire colleagues, subordinates or fellow volunteers to anticipate and adapt to a radically different, continually evolving positive culture of innovation. The author presents a five-fold formula designed to restore positive momentum to lagging organizations large and small: 1) early diagnosis and treatment of the symptoms of decline, 2) identification and evaluation of collective strengths, traditions and resources upon which to build, 3) inspirational exercises intended to revitalize the personal lives and careers of on-board participants, 4) merging of individual and collective objectives into fully engaged circles of cooperation and 5) empowerment and reward for every dedicated and capable contributor. The author Roy Richards is a motivational speaker, Business consultant, personal coach and co-founder of the Middle Age Renewal Training Institute (MART.) His stated mission is to revitalize lagging businesses and not-for-profit enterprises across North America at the same time reenergizing on-board leaders, employees and volunteers. A Phi Beta Kappa graduate of Carleton College, Northfield, Minnesota with a Masters in Business Administration from the University of Chicago, the author writes from the unique perspective of a thirty-six year business career, including seventeen years climbing the corporate ladder with four major U. S. corporations followed by

nineteen years as a successful small business owner and entrepreneur.
