The Therapeutic "Aha": 10 Strategies for Getting Your Clients Unstuck Courtney Armstrong, 2015-04-27 A concise guide to shaking things up in therapy. Courtney Armstrong's *The Therapeutic "Aha!"* explores the thrilling and rare moment when a client reaches an elusive realization, allowing them to make meaningful change. In 10 straightforward strategies, this practical book demonstrates how to shake things up in therapy when a client is stuck or stalled to jumpstart progress. Readers will learn how to spark the "emotional brain"—the part of the brain that houses automatic, unconscious patterns—and create new neural pathways that engage and advance the healing process. Divided into three parts—(1) Awakening a Session, (2) Healing Emotional Wounds, and (3) Activating Experiential Change—the book walks readers through specific techniques for harnessing the emotional brain and re-patterning its routine. Elegant therapeutic insights and coping strategies only go so far; until we intervene with something our emotional brain can understand—a compelling felt experience—old, established neural patterns will persist. The brain-based strategies Armstrong presents include how to enliven the therapeutic alliance; elicit exciting goals; identify the root of an emotional conflict; reverse trauma with memory reconsolidation; invoke inspirational imagery; and use stories, humor, music, poetry, and even mindfulness to induce change. Concise, reader-friendly, and filled with helpful case stories and client–therapist dialogue, this wonderfully accessible book puts a new spin on neuroscience knowledge, showing clinicians exactly how it can be used to make those once-elusive therapeutic breakthroughs more frequent, leading to greater healing for your patients.

Walk 500 Miles In A Year Shan Marshall, 2019-06-21 Popping out for a walk is usual. We pop out for a walk to the shop, pick the kids up from the local school, going to worship, or just for a walk around the local park. Mostly, we don't bother tracking our miles, but it's surprising how quickly they mount up. Before you know it, you have walked more than 10 miles. Multiply this if you are a regular walker and enjoy a good long hike at the weekends. Soon you have racked up 100/200/300 total miles. How about taking it a step (ha-ha) further and challenging yourself to completing 500 miles in one year? It's only 10 miles each week, 1-2 miles a day. Let this book, *Walk 500 Miles In A Year*, help you challenge yourself!

Clinical Pathways in Stroke Rehabilitation Thomas Platz, 2021-01-14 This open access book focuses on practical clinical problems that are frequently encountered in stroke rehabilitation. Consequences of diseases, e.g. impairments and activity limitations, are addressed in rehabilitation with the overall goal to reduce disability and promote participation. Based on the available best external evidence, clinical pathways are described for stroke rehabilitation bridging the gap between clinical evidence and clinical decision-making. The clinical pathways answer the questions which rehabilitation treatment options are beneficial to overcome specific impairment constellations and activity limitations and are well acceptable to stroke survivors, as well as when and in which settings to provide rehabilitation over the course of recovery post stroke. Each chapter starts with a description of the clinical problem encountered. This is followed by a systematic, but concise review of the evidence (RCTs, systematic reviews and meta-analyses) that is relevant for clinical decision-making, and comments on assessment, therapy (training, technology, medication), and the use of technical aids as appropriate. Based on these summaries, clinical algorithms / pathways are provided and the main clinical-decision situations are portrayed. The book is invaluable for all neurorehabilitation team members, clinicians, nurses, and therapists in neurology, physical medicine and rehabilitation, and related fields. It is a World Federation for NeuroRehabilitation (WFNR) educational

initiative, bridging the gap between the rapidly expanding clinical research in stroke rehabilitation and clinical practice across societies and continents. It can be used for both clinical decision-making for individuals and as well as clinical background knowledge for stroke rehabilitation service development initiatives.

Aha! A Two Volume Collection Martin Gardner, 2006-12-14 Previously published separately, the two books aha! Gotcha and aha! Insight are here combined as a single volume. The aha! books, as they are referred to by fans of Martin Gardner, contain 144 wonderful puzzles from the reigning king of recreational

mathematics. In this combined volume, you will find puzzles ranging over geometry, logic, probability, statistics, number, time, combinatorics, and word play. Gardner calls these puzzles aha! problems, that 'seem difficult, and indeed are difficult if you go about trying to solve them in traditional ways. But if you can free your mind from standard problem solving techniques, you may be receptive to an aha! reaction that leads immediately to a solution. Don't be discouraged if, at first, you have difficulty with these problems. After a while you will begin to catch the spirit of offbeat, nonlinear thinking, and you may be surprised to find your aha! ability improving.'

Aha! Aha! Insight Martin Gardner,1978 Contains puzzles that first baffle and then delight problem solving addicts. Grew out of a collaboration between Bob Tappay and Martin Gardner to enliven the learning of mathematics.

The Coach's Casebook Joan Swart,Christine Guirguis,2023-07-03 What skills do I need to craft clear and effective coaching questions? How do I set goals for my clients? What do I need to be aware of when coaching with different personalities and facing mental health conditions? The Coach's Casebook answers these questions and provides coaches with a thorough grounding in the knowledge, competencies, tools and techniques they need to coach employees to reach their full potential. This book also explains how these coaching tools and techniques apply in practice to boost personal development, performance and wellbeing. There is extensive coverage of how to apply coaching interventions to manage work-life balance and prevent burnout at work and at home, and how to combine coaching and mindfulness as well as how to encourage clients to develop a growth mindset and reframe imposter syndrome. Specific guidance on active listening, coaching high-performers and those with high-potential, leadership coaching, coaching minorities and underrepresented groups and how to coach challenging personalities is also given. This practical guide, is supported by case studies and scenarios throughout taking from real-life coaching, is for those new to coaching and those in the intermediate stages of their career. The Coach's Casebook contains everything needed to allow clients to flourish.

AJN Book of the Year 2016 First-Place Winner in Gerontological Nursing! “The evidence-based protocols are designed as a primary reference and are useful, substantive, and timely....The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice.” —The Gerontologist “As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice.” Score: 97,**** —Doody’s The newest edition of this distinguished reference in geriatric nursing delivers updated guidelines, new illustrative case studies, and the latest evidence-based protocols developed by leading researchers, educators, and practitioners in each topic area. The sixth edition includes new approaches devoted to supporting LGBTQ+ elders, persons living with dementia and their families, and older adults living with HIV. New operational strategies provide guidance in using the electronic health record, implementing improved person-centered care approaches, and maintaining age-friendly atmospheres. Using evidence derived from all levels of care, this text offers developed guidelines for improving both quality and outcomes when caring for older adults in multiple disciplines, including interprofessional team members, long-term care and other staff educators, social workers, dietitians, and physicians. Chapters provide assessment and management principles, clinical interventions, specialty practice, and models of care. They consistently feature chapter objectives, annotated references, evidence ratings for each protocol, and resources for further investigation. Each protocol is embedded within the chapter content to provide context and detailed evidence. The protocols consistently include an overview, evidence-based assessment, intervention strategies, and a supporting case study with discussion. PowerPoint presentations and a test bank are available as instructor’s resources. New Chapters: Informational Technology: Embedding CPGs Organizational Approaches to Promote Person-Centered Care Environmental Approaches to Support Aging-Friendly Care HIV Prevention and Care for the Older Adult LGBTQ+ Perspectives Key Features: Best practices for in-patient, in-home, and long-term care settings Case studies with discussions in each chapter to illustrate application of clinical practice and related Nursing Standard of Practice Protocol The AGREE systematic method was used to evaluate each protocol and validate this book’s content Instructor’s resources including PowerPoints and a Test Bank Purchase includes digital access for use on most mobile devices and computers

The !Kung San Richard Borshay Lee,1979-12-12 For most of human history hunting and gathering was a universal way of life. Richard Borshay Lee spent over three years conducting fieldwork among the !Kung San, an isolated population of 1,000 in northern Botswana. When Lee began his work in 19863, the !Kung San were one of the last of the world's people to live this life. By 1973, when Lee last lived with the group, it appeared that they !Kung were a society on the threshold of a transformation that signalled the end of foraging as an independent way of life, at least in Africa. *The !Kung San: Men, Women and Work in a Foraging Society*, an ecological and historical study, is Professor Lee's major statement on his research. By maintaining simultaneous historical and synchronic perspectives, Lee is able to extend his analysis of core features from the contemporary !Kung to prehistoric societies. These basic principles become the means to understanding the form of human life that has been obscured by the developments and complications of societies during the last few thousand years.
