Light Science Thomas D. Rossing, Christopher J. Chiaverina, 2020-01-03 Intended for students in the visual arts and for others with an interest in art, but with no prior knowledge of physics, this book presents the science behind what and how we see. The approach emphasises phenomena rather than mathematical theories and the joy of discovery rather than the drudgery of derivations. The text includes numerous problems, and suggestions for simple experiments, and also considers such questions as why the sky is blue, how mirrors and prisms affect the colour of light, how compact disks work, and what visual illusions can tell us about the nature of perception. It goes on to discuss such topics as the optics of the eye and camera, the different sources of light, photography and holography, colour in printing and painting, as well as computer imaging and processing.

The Word Rhythm Dictionary Timothy Polashek, 2014-04-18 This new kind of dictionary reflects the use of “rhythm rhymes” by rappers, poets, and songwriters of today. Users can look up words to

Psychology Michael W. Passer, Ronald Edward Smith, 2007 This textbook reflects its authors' experiences both as faculty members who have taught the introductory psychology course several dozen times, and, earlier, as students whose own interest in psychology was sparked by instructors who brought the introductory course to life. The text's flexible organizing framework (Levels of Analysis), depth of research, emphasis on critical thinking, and engaging writing help instructors convey the expanse and excitement of the field of psychology, while maintaining scientific rigor. The new third edition features a separate chapter on intelligence, chapter reorganizations, and updated research throughout.

Twelve Years a Slave Solomon Northup, 2013 Film Adapted in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life

as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is

thought that he struggled to cope with family life after being freed.
