The Guest Book Marybeth Whalen,2012-07-03 Twenty-five years after she began exchanging drawings with a mysterious boy in the guest book of a Carolina beach house, Macy Dillon is back at Sunset Beach—this time toting a hurting heart and a broken family. Questions of childhood, loss, and longing for love are explored in *The Guest Book*. When Macy Dillon was five years old her father encouraged her to draw a picture in the guestbook of a Carolina beach house. The next year, Macy returned to discover a drawing by an unidentified little boy on the facing page. Over the next eleven years the children continue to exchange drawings ... until tragedy ends visits to the beach house altogether. During her final trip to Sunset, Macy asks her anonymous friend to draw her one last picture and tells him where to hide the guest book in hopes that one day she will return to find it—and him. Twenty-five years after that first picture, Macy is back at Sunset Beach—this time toting a broken family and a hurting heart. One night, alone by the ocean, Macy asks God to help her find the boy she never forgot, the one whose beautiful pictures touched something deep inside of her. Will she ever find him? And if she does, will the guestbook unite them or merely be the relic of a lost childhood?

Right of Way Angie Schmitt,2020-08-27 The face of the pedestrian safety crisis looks a lot like Ignacio Duarte-Rodriguez. The 77-year old grandfather was struck in a hit-and-run crash while trying to cross a high-speed, six-lane road without crosswalks near his son's home in Phoenix, Arizona. He was one of the more than 6,000 people killed while walking in America in 2018. In the last ten years, there has been a 50 percent increase in pedestrian deaths. The tragedy of traffic violence has barely registered with the media and wider culture. Disproportionately the victims are like Duarte-Rodriguez—immigrants, the poor, and people of color. They have largely been blamed and forgotten. In *Right of Way*, journalist Angie Schmitt shows us that deaths like Duarte-Rodriguez's are not unavoidable "accidents." They don't happen because of jaywalking or distracted walking. They are predictable, occurring in stark geographic patterns that tell a story about systemic inequality. These deaths are the forgotten faces of an increasingly urgent public-health crisis that we have the tools, but not the will, to solve. Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs and movements that are beginning to respond to the epidemic. Her investigation unveils why pedestrians are dying—and she demands action. *Right of Way* is a call to reframe the problem, acknowledge the role of racism and classism in the public response to these deaths, and energize advocacy around road safety. Ultimately, Schmitt argues that we need improvements in infrastructure and changes to policy to save lives. *Right of Way* unveils a crisis that is rooted in both inequality and the undeterred reign of the automobile in our cities. It challenges us to imagine and demand safer and more equitable cities, where no one is expendable.
