**Washington, D.C., Film and Television** Tracey Gold Bennett, 2014 For generations, movies and television have been sources of entertainment that have shaped the country's consciousness. Washington, DC, Film and Television chronicles popular and obscure films and television programs that feature Washington, DC. Sharing the sites, neighborhoods, institutions, and monuments that filmmakers used as their settings, this exciting title takes readers behind the scenes of classic movies, including Mr. Smith Goes to Washington, Houseboat, and The Exorcist. Familiar television programs that transmitted local news and information are featured alongside photographs of some of Hollywood's greatest stars. With the nation's capital as a backdrop, the landscape, architecture, and history of Washington have always and will continue to make it an aesthetically exciting and authentic locale for the many story lines of Hollywood.

**Spy Sites of Washington, DC** H. Keith Melton, Robert Wallace, 2017-04-01 Washington, DC, stands at the epicenter of world espionage. Mapping this history from the halls of government to tranquil suburban neighborhoods reveals scores of dead drops, covert meeting places, and secret facilities—a constellation of clandestine sites unknown to even the most avid history buffs. Until now. Spy Sites of Washington, DC traces more than two centuries of secret history from the Mount Vernon study of spymaster George Washington to the Cleveland Park apartment of the “Queen of Cuba.” In 220 main entries as well as listings for dozens more spy sites, intelligence historians Robert Wallace and H. Keith Melton weave incredible true stories of derring-do and double-crosses that put even the best spy fiction to shame. Maps and more than three hundred photos allow readers to follow in the winding footsteps of moles and sleuths, trace the covert operations that influenced wars hot and cold, and understand the tradecraft traitors and spies alike used in the do-or-die chess games that have changed the course of history. Informing and entertaining, Spy Sites of Washington, DC is the comprehensive guidebook to the shadow history of our nation's capital.

**Crime and Local Television News** Jeremy H. Lipschultz, Michael L. Hilt, 2014-04-04 This volume offers an analysis of crime coverage on local television, exploring the nature of local television news and the ongoing appeal of crime stories. Drawing on the perspectives of media studies, psychology, sociology, and criminology, authors Jeremy H. Lipschultz and Michael L. Hilt focus on live local television coverage of crime and examine its irresistibility to viewers and its impact on society's perceptions of itself. They place local television news in its theoretical and historical contexts, and consider it through the lens of legal, ethical, racial, aging, and technological concerns. In its comprehensive examination of how local television newsrooms around the country address coverage of crime, this compelling work discusses such controversial issues as the use of crime coverage to build ratings, and considers new models for reform of local TV newscasts. The volume includes national survey data from news managers and content analyses from late night newscasts in a range of markets, and integrates the theory and practice of local television news into the discussion. Lipschultz and Hilt also project the future of local television news and predict the impact of social and technological changes on news. As a provocative look at the factors and forces shaping local news and crime coverage, Crime and Local Television News makes an important contribution to the discussions taking place in broadcast journalism, mass communication, media and society, and theory and research courses. It will also interest all who consider the impact of local news content and coverage.

**Making Local News** Phyllis Kaniss, 1997-12-08 Why do crimes and accidents earn more news coverage than development and policy issues affecting thousands of people? Filled with revealing interviews with both journalists and city officials, Making Local News is the first comprehensive look at how the economic motives of media owners, professional motives of journalists, and the strategies of media-wise politicians shape the news we see and hear, thereby influencing urban policy. Making Local News by Phyllis Kaniss . . . is significant. . . . If we can continue to get smarter about that which journalism leaves out or distorts in its coverage of politics, we may eventually get smarter about politics itself.—Mitchell Stephens, The Philadelphia Inquirer View A convincing analysis of the factors and forces which color how and why local issues do, or do not, become newsworthy.—Michael H. Ebner, Journal of Interdisciplinary History This work serves as a reminder of the importance of a medium that is often overlooked until economic realities threaten its very existence. —Choice Kaniss is truly a pioneer in the study of local news.—Susan Herbst, Contemporary Sociology

**Broadcasting the Local News** Lynn Boyd Hinds, 2010-11-01 Television came to Pittsburgh in 1949 when WDTV (the forerunner of KDKA-TV) went on the air. Whereas many television stations in the United States began reading news on the air only to comply with FCC requirements, WDTV treated news seriously from day one with its first regular program, a local news show called Pitt Parade. Today KDKA is still highly regarded among journalists for its news programming. Although television news may seem familiar to us, it was anything but familiar to the men and women of early television. Hinds shows how they borrowed liberally from newspapers, radio, motion picture newsreels, theater, and even magazines to create, by trial and error, suitable ways to present the news. Rather than instantly replacing radio, television news moved slowly from the rip and read radio-style format, which simply duplicated what came over the wire services and was in the newspapers, to the conventions of local newscasts we take for granted today—live remotes, lead and feature stories, sports and weather, all brought together by an in-studio anchor. Pittsburghers will recognize many familiar names in Hinds's account—Bill Burns, Paul Long, Florence Sando, Eleanor Schano, and others—veterans of Pittsburgh broadcasting whom Hinds has interviewed for this book. The story they tell is the story of dozens of other stations across the country. In the process, they tell us much about the early history of television in America. Lynn Boyd Hinds spent over twenty years in Pittsburgh television and radio before moving to Penn State University where he was an affiliate producer for WPSX-TV, the public broadcasting station in Central Pennsylvania. There he created and hosted the popular quiz show, The Pennsylvania Game. Today he is Associate Professor of Broadcast News in the Perley Isaac Reed School of Journalism at West Virginia University.

**Bird Brother** Rodney Stotts, Kate Pipkin, 2022-02-03 In Bird Brother, Rodney Stotts shares his unlikely journey to becoming a conservationist and one of America's few Black master falconers. Rodney grew up in Washington, D.C. during the crack epidemic, with guns, drugs, and the threat of incarceration affecting the lives of everyone he knew. He was no exception, but he was also employed by the newly founded Earth Conservation Corps, helping to restore and conserve the polluted Anacostia River. This work eventually sent his life in a different direction, as he began to train to become a master falconer and to develop his own raptor education program and sanctuary. Eye-opening, witty, and moving, Bird Brother is a testament to the healing power of nature, and a reminder that no matter how much heartbreak we've endured, we still have the capacity to give back to our communities and follow our dreams.

**The Knickerbocker Snowstorm** Kevin Ambrose, 2013-01-14 On the evening of January 28, 1922, several hundred people fought their way through the greatest snowstorm in Washington's history to see a show at the Knickerbocker Theater, the city's largest and most modern moving picture theater of the time. Unbeknownst to the theater patrons, the Knickerbocker Theater's flat roof was tremendously burdened by the weight of the snow. During the show's intermission, the snow-covered roof crashed down upon the crowd. As the roof fell, it collapsed the theater's balcony and pulled down portions of the surrounding brick walls, killing 98 people and injuring 133. Some of Washington's prominent politicians and business owners were among the casualties. The disaster ranks as one of Washington's worst in history, and the snowstorm continues to hold the record for Washington's single greatest snowfall.

**Managing Television News** B. William Silcock, Don Heider, Mary T. Rogus, 2009-03-04 Managing Television News provides a practical introduction to the television news producer, one of the most significant and influential roles in a newscast. Recognizing the need for formal training in this key

role, authors B. William Silcock, Don Heider, and Mary T. Rogus have combined their expertise and experience to shape this essential resource on the responsibilities, demands, and rewards of the news producer position. Their book provides a strategic approach to producing newscasts and serves as an in-depth guide to creating quality, audience-friendly newscasts working within the realistic limitations of most newsrooms. It helps the student and the professional producer sort through the various deadline-driven challenges of creating a 30-minute newscast. Filled with real-world examples and advice from news directors, producers, and anchors currently in the business, and photographs illustrating the varied perspectives in the position, Managing Television News provides critical skill sets to help resolve ethical dilemmas, as well as keen and fresh insights on how to win the ratings without compromising news quality. Career concerns are also addressed. This resource is a pioneering book for the professional television newsroom and the individual reader interested in starting or expanding a producing career. It is an excellent text for the college classroom, as its structure fits neatly into a semester schedule, and it is a must-have resource for both seasoned and novice producers, as well as students in broadcast news.

**News Hole** Danny Hayes,Jennifer L. Lawless,2021-09-16 In recent decades, turnout in US presidential elections has soared, education levels have hit historic highs, and the internet has made information more accessible than ever. Yet over that same period, Americans have grown less engaged with local politics and elections. Drawing on detailed analysis of fifteen years of reporting in over 200 local newspapers, along with election returns, surveys, and interviews with journalists, this study shows that the demise of local journalism has played a key role in the decline of civic engagement. As struggling newspapers have slashed staff, they have dramatically cut their coverage of mayors, city halls, school boards, county commissions, and virtually every aspect of local government. In turn, fewer Americans now know who their local elected officials are, and turnout in local elections has plummeted. To reverse this trend and preserve democratic accountability in our communities, the local news industry must be reinvigorated – and soon.

**American Zouaves, 1859-1959** Daniel J. Miller,2019-12-26 The elite French Zouaves, with their distinctive, colorful uniforms, set an influential example for volunteer soldiers during the Civil War and continued to inspire American military units for a century. Hundreds of militia companies adopted the flamboyant uniform to emulate the gallantry and martial tradition of the Zouaves. Drawing on fifty years of research, this volume provides a comprehensive state-by-state catalog of American Zouave units, richly illustrated with rare and previously unpublished photographs and drawings. The author dispels many misconceptions and errors that have persisted over the last 150 years.

**Records of the Columbia Historical Society, Washington, D.C.** Columbia Historical Society (Washington, D.C.),1903  
*The Evening Star* Faye Haskins,2019 The Evening Star: The Rise and Fall of a Great Washington Newspaper is the story of the 129-year history of one of the preeminent newspapers in journalism history when city newspapers across the country were at the height of their power and influence. The Star was the most financially successful newspaper in the Capital and among the top ten in the country until its decline in the 1970s. The paper began in 1852 when the capital city was a backwater southern town. The Star's success over the next century was due to its singular devotion to local news, its many respected journalists, and the historic times in which it was published. The book provides a unique perspective on more than a century of local, national and international history. The book also exposes the complex reasons for the Star's rise and fall from dominance in Washington's newspaper market. The Noyes and Kauffmann families who owned and operated the Star for a century play an important role in that story. Patriarch Crosby Noyes' life and legacy is the most fascinating -a classic Horatio Alger story of the illegitimate son of a Maine farmer who by the time of his death was a respected newspaper publisher and member of Washington's influential elite. In 1974 his descendants sold the once-great newspaper Noyes built to Joseph Allbritton. Allbritton and then Time, Inc. tried to save the Star but failed.

*100 Entertainers Who Changed America [2 volumes]* Robert C. Sickels,2013-08-08 This fascinating and thought-provoking read challenges readers to consider entertainers and entertainment in new ways, and highlights figures from outside the worlds of film, television, and music as influential pop stars. Comprising approximately 100 entries from more than 50 contributors from a variety of fields, this book covers a wide historical swath of entertainment figures chosen primarily for their lasting influence on American popular culture, not their popularity. The result is a unique collection that spotlights a vastly different array of figures than would normally be included in a collection of this nature—and appeals to readers ranging from high school students to professionals researching specific entertainers. Each subject individual's influence on popular culture is analyzed from the context of his or her time to the present in a lively and engaging way and through a variety of intellectual approaches. Many entries examine commonly discussed figures' influence on popular culture in ways not normally seen—for example, the widespread appeal of Woody Allen's essay collections to other comedians; or the effect of cinematic adaptations of Tennessee Williams' plays in breaking down Hollywood censorship.
