*eBay Hacks* David A. Karp, 2005-06-02 Whatever you call it--an online auction house, the world's largest flea market, or a vast social experiment--no metaphor completely describes the huge trading community that is eBay. Underneath it all, eBay is also a computer program and a complex socio-economic system, requiring experience, finesse, and the right tools to master. *eBay Hacks*, 2nd Edition has been completely revised and updated to make use of an array of new tools and features, as well as to reflect the changes in the eBay API, eBay's policies, and general practices of its increasingly sophisticated users. In all, the new edition of *eBay Hacks* sports 30 brand-new hacks plus dozens of hacks that have been expanded, deepened, or otherwise completely rewritten. *eBay Hacks* shows you how to become a more efficient buyer and seller with clever tricks and shortcuts that will surprise even the most experienced eBayers. The book's wide range of topics covers all aspects of using eBay, such as advanced searching techniques, sniping tools, selling strategies,

photography tips, and even research techniques for PowerSellers. But eBay Hacks doesn't just cover the basics; you will learn how to write scripts to automate tedious tasks, take better photos, and tap into the eBay API to develop your own custom tools. Unlike any other book, eBay Hacks, 2nd Edition also provides insight into the social aspects of the eBay community, with diplomatic tools to help to get what you want with the least hassle and risk of negative feedback. This bestseller supplies you with the tools you need to master eBay, whether as a buyer or seller, casual surfer or serious collector, novice or seasoned expert. With this guide, you will become a savvy power user who trades smarter and safer, makes more money, enjoys successes, and has fun doing it.

*Everyday eBay* Ken Hillis, Michael Petit, Nathan Scott Epley, 2012-12-06 *Everyday eBay* is the first scholarly analysis of the internet marketplace that has become a global social, cultural and economic phenomenon. The eighteen new and classic essays gathered here examine eBay from a wide variety of perspectives as a bellwether of taste and material culture; as a rich site of cultural, racial, and sexual discourse and practice; as an emergent media form; and as a facilitator of global consumerism. From old toys steeped in nostalgia to 'rare' limited edition shoes, the contributors demonstrate that value on eBay is never simply about 'price'. On any given day, more than two million items are listed for sale on eBay, from everyday objects to kitsch and collectibles to the truly bizarre. Since its debut ten years ago, eBay has quickly become a central destination for millions of web browsers. According to eBay itself, up to 165,000 Americans now make their living by selling through the website, and other business analysts project that hundreds of thousands of individuals worldwide now make their living through eBay.
