Brazilian Youth Cláudia Pereira, 2019-09-12 The collection brings together texts of Brazilian researchers who are dedicated to themes related to studies of youth cultures: social interactions, subcultures, identities and belonging, pop culture, social movements, migration, consumption and materialities, generational exchanges, media representations and digital media, among others. The objective is to promote a broad dialogue that includes fields of knowledge such as communication and social sciences, as well as local perspectives that represent the huge and rich diversity of the Brazilian regions. At the same time, the book proposes to discuss the reflexivity of such local youth cultures in the face of a global context that challenges, with ruptures and permanencies, the very idea of youth. The book seeks to fill the gap of a selection of scientific texts by Brazilian authors, about Brazilian youth cultures, aimed at foreign researchers.

WhatsApp Amelia Johns, Ariadna Matamoros-Fernández, Emma Baulch, 2023-11-28 In the 2010s, as chat apps became a primary mode of communication for many people across the world, WhatsApp quickly outpaced rival messaging apps and developed into a platform. In this book, the authors provide a comprehensive account of WhatsApp's global growth. Charting WhatsApp's evolution from its founding in 2009 to the present day, they argue that WhatsApp has been transformed from a simple, 'gimmickless' app into a global communication platform. Understanding this development can shed light on the trajectory of Meta's industrial development, and how digital economies and social media landscapes are evolving with the rise of 'superapps'. This book explores how WhatsApp's unique characteristics mediate new kinds of social and commercial transactions; how they pose new opportunities and challenges for platform

regulation, civic participation and democracy; and how they give rise to new kinds of digital literacy as WhatsApp becomes integrated into everyday digital cultures across the globe. Accessibly written, this book is an essential resource for students and scholars of digital media, cultural studies, and media and communications.

Digital Transformation in Journalism and News Media Mike Friedrichsen, Yahya Kamalipour, 2017-05-03 This book analyzes various digital transformation processes in journalism and news media. By investigating how these processes stimulate innovation, the authors identify new business and communication models, as well as digital strategies for a new environment of global information flows. The book will help journalists and practitioners working in news media to identify best practices and discover new types of information flows in a rapidly changing news media landscape.

Ageing with Smartphones in Urban Brazil Marília Duque, 2022-04-21 With people living longer all over the world, ageing has been framed as a socio-economic problem. In Brazil, older people are expected to remain healthy and autonomous while actively participating in society. Based on ethnographic research in São Paulo, *Ageing with Smartphones in Urban Brazil* shows how older people in a middle-class neighbourhood conciliate these expectations with the freedom and pleasures reserved for the Third Age. Work is what bonds this community together, providing a sense of dignity and citizenship. Smartphones have become of great importance to the residents as they search for and engage in new forms of work and hobbies. Connected by a digital network, they work as content curators, sharing activities that fill their schedule. Managing multiple WhatsApp groups is a job in itself, as well as a source of solidarity and hope. Friendship groups help each to download new

apps, search for medical information and guidance, and navigate the city. Together, they are reinventing themselves as volunteers, entrepreneurs and influencers, or they are finding a new interest that gives their later life a purpose. The smartphone, which enables the residents to share and discuss their busy lives, is also helping them, and us, to rethink the very representation of ageing.

Introduction to WhatsApp Gilad James, PhD, WhatsApp is a popular mobile application that was founded in 2009 by Jan Koum and Brian Acton. The app allows users to send text messages and voice messages, make voice and video calls, share images, documents, user locations, and other media. In addition to personal messaging, WhatsApp also offers a range of features for businesses, including WhatsApp Business, which allows small businesses to communicate with their customers and share updates over the app. WhatsApp has grown to become one of the most widely used messaging apps in the world, with over 2 billion active users across 180 countries. WhatsApp makes use of end-to-end encryption to ensure that only the sender and recipient of a message can access its contents. The company has been praised for its commitment to user privacy, although it has also faced scrutiny over its handling of false information and its role in facilitating political unrest. Nevertheless, the app remains a vital tool for communication and connection, particularly in countries where other messaging apps are restricted or banned. Its continued popularity is a testament to the users' trust in its security and reliability.

The WhatsApp India Story Sunetra Sen Narayan, Shalini Narayanan, 2024-02-13 WhatsApp is used by over half a billion people in India today in all fields - in business, corporate and informal sectors, in government, for education and

among friends, families and acquaintances. This book critically explores the social messaging app's rapid expansion in India and its growing influence and looks at whether, as a form of horizontal communication, it poses a challenge to more traditional structures of communication. The book examines WhatsApp's spread in the personal and professional lives of Indians and the myriad ways in which people in India are using the app in social and business interactions, including among people living with disabilities. Using case studies, interviews, surveys and in-depth research, it analyses key aspects of WhatsApp's massive popularity and its impact on how people communicate. It also explores its impact on the psycho-social dynamics in India, including the dissemination of fake news and politically motivated content, and the consequent need for media regulation in the country. One of the first books to analyse the pervasiveness of WhatsApp and social media apps in different areas of Indian society, this book will be of interest to scholars and students of media studies, communication studies, digital media, cultural studies, cyberculture studies, sociology and social policy and media law.

Human Aspects of IT for the Aged Population. Acceptance, Communication and Participation Jia Zhou, Gavriel Salvendy, 2018-07-10 This book constitutes the proceedings of the 4th International Conference on Human Aspects of IT for the Aged Population, ITAP 2018, held as part of the 20th International Conference, HCI International 2018, which took place in Las Vegas, Nevada, in July 2018. The total of 1171 papers and 160 posters included in the 30 HCII 2018 proceedings volumes was carefully reviewed and selected from 4346 submissions. ITAP 2018 includes a total of 84 papers. They were organized in topical sections as follows: Part I: aging and technology acceptance; aging and interaction; intergenerational communication and social participation.

Part II: health care technologies and services for the elderly; intelligent environments for aging; and games and entertainment for the elderly.

Recent Advances in Intelligent Systems and Smart Applications Mostafa Al-Emran, Khaled Shaalan, Aboul Ella Hassanien, 2020-06-26 This book explores the latest research trends in intelligent systems and smart applications. It presents high-quality empirical and review studies focusing on various topics, including information systems and software engineering, knowledge management, technology in education, emerging technologies, and social networks. It provides insights into the theoretical and practical aspects of intelligent systems and smart applications.

Social Media in Southeast Turkey Elisabetta Costa, 2016-02-29 This book presents an ethnographic study of social media in Mardin, a medium-sized town located in the Kurdish region of Turkey. The town is inhabited mainly by Sunni Muslim Arabs and Kurds, and has been transformed in recent years by urbanisation. Elisabetta Costa uses her 15 months of ethnographic research to explain why public-facing social media is more conservative than offline life. Yet, at the same time, social media has opened up unprecedented possibilities for private communications between genders and in relationships among young people - Costa reveals new worlds of intimacy, love and romance. She also discovers that, when viewed from the perspective of people's everyday lives, political participation on social media looks very different to how it is portrayed in studies of political postings separated from their original complex, and highly socialised, context. neoliberalism and political events.

Coping with Uncertainty Jörg Gertel, Ralf Hexel, 2018-08-13 Seven years after the Arab uprisings, the social situation has deteriorated across the Middle

East and North Africa. Political, economic and personal insecurities have expanded while income from oil declined and tourist revenues have collapsed due to political instability. Against a backdrop of escalating armed conflicts and disintegrating state structures, many have been forced from their homes, creating millions of internally displaced persons and refugees. Young people are often the ones hit hardest by the turmoil. How do they cope with these ongoing uncertainties, and what drives them to pursue their own dreams in spite of these hardships? In this landmark volume, an international interdisciplinary team of researchers assess a survey of 9,000 sixteen- to thirty-year-olds from Bahrain, Egypt, Jordan, Lebanon, Morocco, Palestine, Syria, Tunisia and Yemen, resulting in the most comprehensive, in-depth study of young people in the MENA region to date. Given how rapidly events have moved in the Middle East and North Africa, the findings are in many regards unexpected.

Breaking out of the Expat Bubble Marian van Bakel, 2024-02-02 Moving abroad means having to settle into a new host country. This book enables expats and those who support them to create intercultural connections and friendships both within and outside the workplace. Having left behind a large part of their social network, expats need to make local friends to really settle in. This book shows you how this works, and that breaking out of the expat bubble and making local friends helps you adjust and settle in the new place you call home. Organisations and societies should also support expats if they would like to retain this international talent. It is important to create the conditions for expats to build a social network, for example by connecting them with a local buddy. Learn more in this book about the advantages of such contact and how to set up and manage a buddy system to the benefit of both

your expats and your organisation or community. The book is illustrated by many quotes from almost 20 years of research and features 11 real-world experiences of expats around the world. It also includes practical recommendations for expats, organisations and societies. An invaluable resource on creating more intercultural connections and friendships in the workplace and the local community, this book will be well placed in the hand luggage of expats – especially those who go without much organisational support – as well as on the desks of managers and HR professionals who would like to better support expats on this great adventure.

Researching Everyday Childhoods Rachel Thomson, Liam Berriman, Sara Bragg, 2018-01-25 How can we know about children's everyday lives in a digitally saturated world? What is it like to grow up in and through new media? What happens between the ages of 7 and 15 and does it make sense to think of maturation as mediated? These questions are explored in this innovative book, which synthesizes empirical documentation of children's everyday lives with discussions of key theoretical and methodological concepts to provide a unique guide to researching childhood and youth. *Researching Everyday Childhoods* begins by asking what recent 'post-empirical' and 'post-digital' frameworks can offer researchers of children and young people's lives, particularly in researching and theorising how the digital remakes childhood and youth. The key ideas of time, technology and documentation are then introduced and are woven throughout the book's chapters. Research-led, the book is informed by two state of the art empirical studies – 'Face 2 Face' and 'Curating Childhoods' – and links to a dynamic multimedia archive generated by the studies.

The Meaning of Leisure Vania L. Sandoval, 2017-07-26 This book deals with

the concept of leisure and the everyday leisure practices of a group of diverse single women in an urban setting—Mannheim, Germany. Vania Sandoval focuses on how social structure and individual choices relate to each other in the local context. Initially, the book considers the women as a relatively homogenous group, analyzing how they conceive, organize and experience their leisure in a similar manner with individual nuances. It then proceeds to highlight some of the processes that lead, in this particular case, to migration-based differences in their leisure practices.

WhatsApp and Everyday Life in West Africa Idayat Hassan, Jamie Hitchen, 2022-09-22 WhatsApp is the most popular messaging platform in over 80% of countries in West Africa, and a daily port of call for a wide range of information and services. This edited collection seeks to examine the impact that this transformative technology has had beyond the much-discussed role it has played in the spread of misinformation, and explore more widely the fundamental changes that WhatsApp has brought to many citizens' lives in social, economic and political contexts. Ranging across subjects including political organisation, religious practice, and family relations, each author in this volume brings direct knowledge and testimony of the impact of WhatsApp across West African society.

Language Learning of Adult Migrants in Europe Glenn S. Levine, David Mallows, 2022-04-01 This volume focuses on the learning of host-country languages by migrants in Europe. It identifies, clarifies, and offers insights into issues and central questions related to the learning of host-country languages with an emphasis on adolescent and adult language learners in formal and informal settings. The book draws on data collected following the refugee 'crisis' in Europe of 2015-16, which led to dramatic increases in

the number of migrants arriving in Europe.

Balance is B.S. Tamara Loehr, 2019-04-01 Combine the best parts of your personal and professional life to live the life you really want Balance is B.S. is an unflinching and honest look at the challenges today's working woman faces in balancing her professional and personal lives. In the United

States, women comprise over 40% of household income. Increased gender diversity in the modern business landscape continues to have a positive impact on bottom lines and revenue reports across the economy, and offers significant benefits for ambitious women in the workplace. This increase of women in the workforce does present a serious problem—women are working longer and harder outside of the home, but their workload has not lessened inside of the home. While their career prospects rise, expectations of their family and personal lives remain flat. Women pursue the mythical “work-life” balance, and feel guilty for not reaching it. There is a better way. This insightful book provides working women with real-world advice, enabling them to blend their personal and professional lives, avoid burning out, and raise expectations of themselves and those around them. Every chapter presents practical exercises to identify values, and focus on what matters most. Following the path laid out by this essential guide, you will learn how to: Blend business and personal lives together without compromising your values Adjust expectations of yourself and others around you Use practical exercises and effective techniques to combine work, social, family, and parenting lives Stop feeling guilty about your work-life balance, and embrace the best parts of both Balance is B.S. is an invaluable resource for working women regardless of profession, experience, and status. Author Tamara Loehr draws on her years of entrepreneurial success to share her proven methods of merging work, play, and family to map out and reach the life you actually want to live.

Whatsapp Mastery for Grandpas Mateen Soudagar, 2015-12-07 I have been using WhatsApp for a long time to communicate with my friends. WhatsApp began in 2009 when a few phone apps were competing to gain a significant share of the

user base. Back then, the concept was still rather new to me. I never thought it would reach as many users as it has now. Earlier this year, in March 2015, my mother travelled to India and was able to meet with her family. Many of them were avid users of WhatsApp and convinced Mom to get it. After she had got back from India, she convinced my dad to get it too. Now they send messages, videos, and text to everyone anywhere - and they've become more adept at using it than I am! The most beautiful thing about WhatsApp is that it has not only simplified phone communication between users but also made things so simple that our older generation will find it easy to understand and use. These days, most apps and software are tailored to younger folk who have been using technology all their lives. It's great that some newer companies like WhatsApp are tailoring their interface and features for all ages. This eBook covers everything you need to know and more about WhatsApp. It will get you up to speed with what everyone else knows about WhatsApp and get you using it just as well as they do. Plus, it will have you knowing things about WhatsApp that not many other people know. This book is written to take you from knowing nothing about WhatsApp to knowing everything and more. You can take what you want and apply it accordingly. WhatsApp and most other technologies are best learned in actual use, so don't just read this book and do nothing. After you read this book, or even as you're reading it, apply what you're learning with your phone in hand. I hope you thoroughly enjoy and recommend this book to anyone else you feel needs it.
