**That Star-Spangled Banner** Gabrielle Stewart,2015-05

The Flag, the Poet and the Song Irvin Molotsky,2001 Explores the impact of the War of 1812 on American life, the life of poet Francis Scott Key, and the history of the flag that inspired the poem that became America's national anthem.

**The Star-Spangled Banner** Lonn Taylor,Jeffrey Brodie,Kathleen Kendrick,2008-06-24 More than just the tale of one flag and one song, The Star-Spangled Banner is the story of how Americans—often in times of crisis—have expressed their patriotism and defined their identity through the broad stripes and bright stars of our preeminent national symbol, a tradition that still thrives today. The original flag that inspired Francis Scott Key by the dawn's early light has been cared for by the Smithsonian since 1907. The dramatic story of this flag—and of the Smithsonian's effort to save it for posterity—are told here in this lavishly illustrated book that also explores the broader meaning of the flag in American life.

**Flags, Color, and the Legal Narrative** Anne Wagner,Sarah Marusek,2021-05-24 On behalf of Professor Hugh Brady, Director and Senior Fellow, The Flag Research Center at the University of Texas School of Law, *Flags, Color, and the Legal Narrative: Public Memory, Identity, and Critique* (Springer 2021) has been selected as the recipient of our Gherardi Davis Prize is presented for a significant contribution to vexillological research for the year 2021. This work was selected because of its breadth and depth in examining flags as meaningful transmitters of significant symbolic information concerning the origins, culture, self-image, and values of a society. We believe it represents a signal achievement in the study of flags that sets a new standard for research in the field. The Flag Research Center, founded in 1962, is dedicated to furthering knowledge and advancing understanding of the human need to create and use symbols to express political, cultural, and social ideals through flags and flag-related material culture. The book deals with the identification of “identity” based on culturally specific color codes and images that conceal assumptions about members of a people comprising a nation, or a people within a nation. Flags narrate constructions of belonging that become tethered to negotiations for power and resistance over time and throughout a people’s history. Bennet (2005) defines identity as “the imagined sameness of a person or social group at all times and in all circumstances”. While such likeness may be imagined or even perpetuated, the idea of sameness may be socially, politically, culturally, and historically contested to reveal competing pasts and presents. Visually evocative and ideologically representative, flags are recognized symbols fusing color with meaning that prescribe a story of unity. Yet, through semiotic confrontation, there may be different paths leading to different truths and applications of significance. Knowing this and their function, the book investigates these transmitted values over time and space. Indeed, flags may have evolved in key historical periods, but contemporaneously transpire in a variety of ways. The book investigates these transmitted values: Which values are being transmitted? Have their colors evolved through space and time? Is there a shift in cultural and/or collective meaning from one space to another? What are their sources? What is the relationship between law and flags in their visual representations? What is the shared collective and/or cultural memory beyond this visual representation? Considering the complexity and diversity in the building of a common memory with flags, the book interrogates the complex color-coded sign system of particular flags and their meanings attentive to a complex configuration of historical, social and cultural conditions that shift over time. Advance Praise for *Flags, Color, and the Legal Narrative* In an epoch of fragmentation, isolation and resurgent nationalism, the flag is waved but often forgotten. The flag, its colors, narratives, shape and denotations go without saying. The red flag over China, the Star-Spangled Banner, the Tricolore are instantly recognisable and over determined, representing a people, a nation, a culture, languages, legacies, leaders. In this fabulous volume flags are revealed as concentrated, complex, chromatic assemblages of people, place and power in and through time. It is in bringing a multifocal awareness of the modes and meanings of flag and color in public representations that is particular strength. Editors Anne Wagner and Sarah Marusek have gathered critical thinkers from the North and South, East and West, to help know the essential and central - yet often forgotten and not seen - work of flags and color in narratives of nation, conflict, struggle and law. A kaleidoscopic contribution to the burgeoning field of visual jurisprudence, this volume is essential to comprehending the ocular machinery through which power makes, and is seen to make, the world.Kieran Tranter, Chair of Law, Technology and Future, Faculty of Law, Queensland University of Technology, Australia This comprehensive volume of essays could not be arriving at a more opportune time. The combined forces of climate change, inequality, and pandemic are causing instability and painful recognitions of our collective uncertainties about nationhood and globalism. In the United States, where I am writing these few lines, our traditional red/white/blue flag has been collapsed into two colors: Red and Blue. While these colors have semiotically deep texts, the division of the country into these two colors began with television stations designing how to report the vote count in the 2000 presidential election year creating red and blue parties and states. The colors stuck and have become customary. We Americans are told all the time by pundits that we are a deeply divided nation, as proven by unsubtle colored maps. To a statistician, we are a Purple America, though the color is unequally distributed. White, the color of negotiation and peace is rarely to be found. To begin to approach understanding the problems flagged in my brief account requires the insight of multiple disciplines. That is what Wagner and Marusek, wonderful scholars in their own work, have assembled as editors -- a conversation among scholars at the forefront of thinking about how flags and colors represent those who claim them thus exemplifying how to resist simple explanations and pat answers. The topic is just too important.Christina Spiesel, Senior Research Scholar in Law, Yale Law School; Adjunct Professor of Law, Quinnipiac University School of Law, USA Visuals, such as symbols and images, in addition to conventional textual forms, seem to have a unique potential for the study of a collective identity of a community and its traditions, as well as its narratives, and at the same time, in the expression of one’s ideas, impressions, and ideologies in a specific socio-political space. Visual analysis thus has become a well-established domain of investigations focusing on how various forms of text-external semiotic resources, such as culturally specific symbols, including patterns and colors, make it possible for scholars to account for and thus demystify discursive symbols in a wider social and public space. *Flags, Identity, Memory: Critiquing the Public Narrative through Colors*, as an international and interdisciplinary volume, is a unique attempt to demystify the thinking, values, assumptions and ideologies of specific nations and their communities by analyzing their choice of specific patterns and colors represented in a national flag. It offers a comprehensive and insightful range of studies of visual and hidden discursive processes to understand social narratives through patterns of colours in the choice of national flags and in turn to understand their semiotic, philosophical, and legal cultures and traditions. Wagner and Marusek provide an exclusive opportunity to reflect on the functions, roles, and limits of visual and discursive representations. This volume will be a uniquely resourceful addition to the study of semiotics of colours and flags, in particular, how nations and communities represent their relationship between ideology and pragmatism in the repository of identity, knowledge and history.Vijay K Bhatia, Chinese University of Hong Kong, Full Professor, Hong Kong In all societies, colors play a critical function in the realm of symbolism. Nation societies perceive great significance in the colors of flags and national emblems. Colors constitute, in

other words, sign systems of national identity. The relation of color codes and their relation to concepts of nationhood and its related narratives is the theme of this marvelous and eye-opening collection of studies. Flags are mini-texts on the inherent values and core concepts that a nation espouses and for this reason the colors that they bear can be read at many levels, from the purely representational to the inherently cultural. Written by experts in various fields this interdisciplinary anthology will be of interest to anyone in the humanities, social sciences, jurisprudence, narratology, political science, and semiotics. It will show how a seemingly decorative aspect of nationhood—the colors on flags—tells a much deeper story about the human condition. Marcel Danesi, University of Toronto, Full Professor of Anthropology, Canada

**America's National Anthem** John R. **Discrimination in Football** Christos Kassimeris, 2021-05-17 While football does not generate discriminatory behaviour, it often replicates the very same social issues that concern any given society. Evidently, football has witnessed an alarming increase in the number of disturbing incidents on the grounds of racism, ethnocentrism, sectarianism, homophobia, and sexism. Given the variety of forms that discrimination can take, it is imperative that football addresses with effect all such anti-social phenomena in order to continue to promote notions pertaining to social inclusion, equality, and cultural diversity – all central to the game's philosophy and overall popularity. Assessing the nature and causes of discrimination in football is key to identifying the much-needed remedies, but also because discrimination poses a serious challenge to long-established practices deeply rooted in democracy. Discrimination in Football provides a comprehensive and in-depth investigation into these key issues affecting football today. This new book will appeal to academics and students with an interest in social science, law, sport, and humanities as well as football fans and professionals in the football industry.

**When I Get Older** K'NAAN, Sol Guy, 2012-09-13 "Wavin' Flag" has become an international anthem. Its powerful words of hope have crossed generations and borders, and have made K'NAAN an international star. In his first book for children, When I Get Older, Somali-Canadian poet, rapper, singer, and songwriter K'NAAN tells his own story. Born in Somalia, he grew up in Mogadishu. His grandfather was a renowned poet who passed on his love of words to his grandson. When the Somali Civil War began in 1991, K'NAAN was just thirteen. His mother made the difficult decision to move her family so that they could grow up in safety. First in New York and then in Toronto, K'NAAN faced many challenges. Like so many other immigrants, he had to make a place for himself in a world of alien customs, clothes, and language. His road was a hard one: he lost many friends to violence. But K'NAAN's love of music, and his enormous talent, became a way for him to connect with his past, with his classmates, and eventually, to millions of people around the world. Not only does K'NAAN tell a story that will inspire and encourage young readers, but he provides a brief history of the Somali conflict. The lyrics of "Wavin' Flag" are also included. Born Keinan Abdi Warsame, K'NAAN first came to prominence when he performed a spoken word piece before the United Nations High Commissioner for Refugees in 1999. A member of the audience, the singer Youssou N'Dour, was so impressed that he asked K'NAAN to take part in an album and to tour with him. Since then, K'NAAN has performed in more than 86 countries and has received many honors, including three Juno Awards and the BBC Radio 3 Award for World Music. During the Vancouver Olympics, he worked with other Canadian musicians and artists under the name Young Artists for Haiti to produce a charity version of "Wavin' Flag." The song was adapted again to become the FIFA World Cup theme song. There are now twenty-two versions of the song, which hit #1 in nineteen countries.

**Understanding Collective Pride and Group Identity** Gavin Brent Sullivan, 2014-06-20 Collective and group-based pride is currently covered across a number of disciplines including nationalism studies, sociology and social psychology, with little communication between fields. This multidisciplinary collection encourages interdisciplinary research and provides a unique insight into the subject, stemming from a psychological perspective. The collection builds upon insights from collective emotion research to consider the relations between collective pride, shame and guilt as well as emotions of anger, empowerment and defiance. Collective pride is examined in contexts that vary from small groups in relatively peaceful competition to protest movements and large groups in divisive conflicts. In the book collective pride is a complex and positive emotional experience evident in the behaviour of groups, that can lead to negative forms of collective hubris in which other groups are devalued or dominated. Emotions of Collective Pride and Group Identity brings together international contributors to discuss the theory, research and practice surrounding collective pride in relation to other emotions and collective, cultural and national identity. Divided into two parts, part one explores the philosophy and theory behind collective pride and its extremes. Part two draws upon the latest quantitative and qualitative empirical research to focus on specific issues, for example, happiness, national pride and the 2010 World Cup. Topics covered include: - cultural and national pride and identity - positive feelings of unity and solidarity - dynamic relationships between collective pride, guilt and shame - theories of emotions in ritual, symbolic and affective practices - collective pride and collective hubris in organizations - perspectives on national events from young people. This book will appeal to an interdisciplinary audience in the area of affect studies and emotion research including social psychologists, sociologists, historians and anthropologists.
