Chinese New Year Patricia Bjaaland Welch,1997 Orange trees and plum blossoms. Strings of firecrackers and clusters of gold coins. Dinners with family and offerings to ancestors. No event in the Chinese calender holds a greater importance, or is as richly celebrated, as the Lunar New Year. This complete introduction to the holiday explores its many symbols and rituals, tracing their history and meanings, and describing the differences in its celebration from Hong Kong to Taiwan, Singapore to mainland China. Beginning with notable days in the month preceding the holiday and extendingto the Lantern Festival fifteen days into the New Year, the author guides the reader through the etiquette of gift-giving and the selection of special foods, holiday greetings, and popular decorations. Many Chinese traditions have been lost forever, but in communities throughout the world the anticipation, preparation, and celebration of the Lunar New Year endures.

Chinese New Year Tricia Brown,1997 Text and photographs depict the celebration of Chinese New Year by Chinese Americans living in San Francisco's Chinatown.

Fun with Chinese Festivals Tan H. Peng,1991 Singaporean cartoonist Tan Huay Peng wrote about the origins, legends and stories behind the major Chinese festivals celebrated in South-east Asia, but passed away before completing his work. 8 of 9 festivals are included.

Four Aunties and a Wedding Jesse Q. Sutanto,2022-03-29 The aunties are back, fiercer than ever and ready to handle any catastrophe—even the mafia—in this delightful and hilarious sequel by Jesse Q. Sutanto, author of Dial A for Aunties. Meddy Chan has been to countless weddings, but she never imagined how her own would turn out. Now the day has arrived, and she can't wait to marry her college sweetheart, Nathan. Instead of having Ma and the aunts cater to her wedding, Meddy wants them to enjoy the day as guests. As a compromise, they find the perfect wedding vendors: a Chinese-Indonesian family-run company just like theirs. Meddy is hesitant at first, but she hits it off right away with the wedding photographer, Staphanie, who reminds Meddy of herself, down to the unfortunately misspelled name. Meddy realizes that is where their similarities end, however, when she overhears Staphanie talking about taking out a target. Horrified, Meddy can’t believe Staphanie and her family aren’t just like her own, they are The Family—actual mafia, and they're using Meddy's wedding as a chance to conduct shady business. Her aunties and mother won’t let Meddy’s wedding ceremony become a murder scene—over their dead bodies—and will do whatever it takes to save her special day, even if it means taking on the mafia.

The Uninhabitable Earth David Wallace-Wells,2019-02-19 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of The Noonday Demon NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New Yorker • The New York Times Book Review • Time • NPR • The Economist • The Paris Review • Toronto Star • GQ • The Times Literary Supplement • The New York Public Library • Kirkus Reviews It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (The Guardian) and “this generation’s Silent Spring” (The Washington Post), The Uninhabitable Earth is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. The Uninhabitable Earth is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. LONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, The New York Times “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—The Economist “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, The New York Times “The book has potential to be this

generation’s Silent Spring.”—The Washington Post “The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, The New York Review of Books

BraveHearts Bud Withers,2002-09 The inspirational and touching story of Gonzaga's rise from college basketball obscurity to near mythic status as everyone's favorite underdog, this book was penned by acclaimed college basketball writer Bud Withers, who has covered the Zags since it all began. In dramatic fashion he reanimates the events of the last few years, adding flesh to the personalities and summoning the details, great and small, that make up this unforgettable story. Readers will meet players such as Blake Stepp, a blue chip high school recruit who selected Gonzaga because of what it wasn't; Dan Dickau, who became a first-round NBA pick in 2002 after becoming Gonzaga's first All-American player in the history of the men's basketball program; Dan Monson, the former coach who instilled a fearless attitude among the players and began Gonzaga's storied run; Mark Few, the current coach who has continued and expanded upon the program's great success; and Father Tony Lehmann, the school's longtime chaplain who died in March 2002, who was the inspirational leader of the basketball team. This book is a must read for any college basketball fan wanting to know more about Gonzaga, the team that makes deep runs into the NCAA tournament almost every year without compromising on the small-school values that still separate it from the basketball factories it terrorizes each March.

The Right Place Arturo Bris,2021-07-28 The Right Place explains why firms succeed in one country and fail in another, irrespective of their inner drivers, and suggests potential initiatives that governments can take to help the private sector create jobs and, consequently, make their countries more prosperous. The competitiveness race is not unlike a cycling race. If you want to ride fast, you need three things: a good bike, to be in good shape, and a smooth and fast road. In a collaborative model, you might say the business is the bicycle, the business leader is the cyclist, and the road is the government and the external environment. The responsibility of a government is to design and build the best possible road. It turns out that when the road is good, good cyclists suddenly appear and want to race on it. In this book, competition and macroeconomics expert, Arturo Bris, provides the analysis of country competitive performance based on 30 years advising countries on this topic. The typical mistakes that countries make are revealed and the pillars necessary in building a competitive economy: economic performance as a necessary condition for prosperity; government efficiency, so the public sector can create the conditions for a productive economy; business efficiency, so companies can create jobs; and infrastructure, both tangible and intangible, so businesses and individuals can operate efficiently. With contemporary case studies throughout, the book provides an illuminating read for politicians, business leaders and students of macroeconomics.
