Metric Pattern Cutting for Women's Wear Winifred Aldrich,2009-03-16 Metric Pattern Cutting for Women's Wear, first published in 1975, provides a straightforward introductory book for students beginning courses in flat pattern cutting. This fifth edition continues to offer an introduction to the

principles of pattern cutting, with a range of good basic blocks and examples of their application to garments. New for this edition is the inclusion of colour to help students recognize the different sections of the book and to enhance the garment illustrations? Colour illustrations also offer a new dimension to the updated material on computer-aided design and the CAD chapter now provides students with a clear guide to the technology. The size charts have been revised to reflect the changes in body sizing, the co-ordination with European size charts and to the way that clothes are now marketed to different sectors. The great expansion of casual wear has led to the growth of 'flat cutting' with no darting, and the section devoted to this type of cutting has been further expanded. This best-selling textbook with its tried-and-tested presentation of authoritative text and clear diagrams remains the essential purchase for students of fashion and design.

Religious Accommodation and its Limits Farrah Raza,2023-04-20 On what

grounds should religious accommodation claims be limited? When do religious claims harm the autonomy of others? This book proposes an original model of religious accommodation which can be applied in secular liberal democracies where religious diversity has been a hotly contested issue. Addressing the complex question of limitations to the right to Freedom of Religion or Belief and how these limitations might be determined, it examines how religious claims can harm the autonomy of others and emphasises the need for an appropriate balancing of competing interests. Drawing on a range of case study examples from jurisdictions including the US, Canada, the European Court of Human Rights, the European Union's Court of Justice, the UK, Germany and France, this is a timely contribution to the debate on how a legal duty or policy approach in favour of religious accommodation can be applied in practice. Moreover, the proposed model offers criteria that may be used to guide the implementation of equality and diversity policies in contexts such as employment and education. The book will be of interest to academics, legal practitioners and policy-makers in the field.

What We Wear Maya Ajmera, Elise Hofer Derstine, Cynthia Pon, 2012-02-01 A celebration of clothing in bright, beautiful photographs of exuberant and diverse children from around the world, WHAT WE WEAR: DRESSING UP AROUND THE WORLD inspires young readers to explore the way clothing makes them feel and how it tells the world who they are. What we wear can identify who we are:

what team we play for or what team we root for, where we go to school, how we worship, or how we represent our heritage. What we wear expresses our individuality, and clothes can make us happy, confident, and proud. Whether it's a piper in a tartan plaid, a cowpoke in a cowboy hat, or a novice in ceremonial face paint, children everywhere wear different clothes and accessories for different reasons. But, one thing they all have in common is that they are all unique and beautiful. Backmatter encourages young readers to explore the way people dress in other countries and other cultures at folk festivals, at museums, and at home by asking about their own family heritage.
