Weekly Weather and Crop Bulletin ,1943 Final yearly issue includes index of special articles. December through March issues contain reports of snow and ice conditions.

Category 7 Bill Evans,Marianna Jameson,2007-07-10 A Category 4 hurricane, with winds of up to 155 miles per hour, tears roofs off buildings, smashes windows and doors, and can send floodwaters up to the second floor. Evacuation is suggested for up to six miles inland. Hurricane Katrina was a Category 4 when she made landfall. Hurricane Simone is a Category 7—the biggest, strongest storm in recorded history. When she hits New York City, skyscrapers will fall. Subways and tunnels will flood. Lower Manhattan and much of Queens and Brooklyn will disappear under more than thirty feet of water. All along the Eastern Seaboard, towns and cities are being evacuated as wind-driven rain lashes the coast and storm surges crash through seawalls. Roads are packed with fleeing motorists whose cars are jammed with every personal possession that can be crammed in, plus family members, friends, and beloved pets. A huge natural disaster is brewing in the Atlantic. Except that Simone isn't natural. She's the product of rogue weather science being wielded by billionaire Carter Thompson as part of a personal vendetta against US President Winslow Benson. Once Carter wanted to bring rain to the desert and feed the starving peoples of the planet. Now he wants to show Benson—and the rest of the world—just how powerful wind and water can be. If technology created Simone, perhaps technology can stop her. It's up to Kate Sherman, once a member of Carter's weather team; and Jake Baxter, a weatherman for the CIA, to try, using a secret US Navy weapon. The catch? It has to be deployed inside the hurricane. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Weather Jenny Offill,2021-01-19 NEW YORK TIMES BESTSELLER • From the beloved author of the nationwide best seller Dept. of Speculation comes a “darkly funny and urgent” (NPR) tour de force about a family, and a nation, in crisis. Lizzie works in the library of a university where she was once a promising graduate student. Her side hustle is answering the letters that come in to Hell and High Water, the doom-laden podcast hosted by her former mentor. At first it suits her, this chance to practice her other calling as an unofficial shrink—she has always played this role to her divorced mother and brother recovering from addiction—but soon Lizzie finds herself struggling to strike the obligatory note of hope in her responses. The reassuring rhythms of her life as a wife and mother begin to falter as her obsession with disaster psychology and people preparing for the end of the world grows. A marvelous feat of compression, a mix of great feeling and wry humor, Weather is an electrifying encounter with one of the most gifted writers at work today.

Thunder & Lightning Lauren Redniss, 2015-10-27 From the National Book Award finalist Lauren Redniss, author of *Radioactive*, comes a dazzling fusion of storytelling, visual art, and reportage that grapples with weather in all its dimensions: its danger and its beauty, why it happens and what it means. WINNER OF THE PEN/E. O. WILSON LITERARY SCIENCE WRITING AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO CHRONICLE, KIRKUS REVIEWS, AND SHELF AWARENESS Weather is the very air we breathe—it shapes our daily lives and alters the course of history. In *Thunder & Lightning*, Lauren Redniss tells the story of weather and humankind through the ages. This wide-ranging work roams from the driest desert on earth to a frigid island in the Arctic, from the Biblical flood to the defeat of the Spanish Armada. Redniss visits the headquarters of the National Weather Service, recounts top-secret rainmaking operations during the Vietnam War, and examines the economic impact of disasters like Hurricane Katrina. Drawing on extensive research and countless interviews, she examines our own day and age, from our most personal decisions—Do I need an umbrella today?—to the awesome challenges we face with global climate change. Redniss produced each element of *Thunder & Lightning*: the text, the artwork, the covers, and every page in between. She created many of the images using the antiquated printmaking technique copper plate photogravure etching. She even designed the book's typeface. The result is a book unlike any other: a spellbinding combination of storytelling, art, and science. Praise for *Thunder & Lightning* "[An] aesthetically charged and deeply researched account . . . a wild rainstorm of a book, pelting the reader with ideas and inspiration."—*Nature* "A gorgeous and illuminating illustrated study of weather in all its tempestuous variety . . . Redniss's combo of fact, folklore, and vibrant etched copperplate prints enthralls."—*O: The Oprah Magazine* "Eerily beautiful . . . Contains plenty of scientific explanation (including more than a few nods toward global warming), but also far-flung personal stories that illuminate the beauty, wonder and chaos inherent in the elements."—*The New York Times* "Magical . . . Redniss has . . . shown us how human beings live with nature—fighting, coexisting, taming, predicting via leech barometer and radar and intuition."—*The New York Times Book Review* "[A] twenty-first-century genius . . . Redniss is inventing a new literary genre. . . . The reader willing to put herself fully in Redniss's hands will be rewarded with a delicious feeling of being enveloped by a phenomenon that eclipses the chiming trivialities of daily life."—*Elle* "Lends a graphic-novel-like allure to some of nature's most curious paradoxes."—*Vogue* "Redniss is one of the most creative science writers of our time—her combination of beautiful artwork, reporting, and poetic prose brings science to life in ways that words alone simply cannot."—*Rebecca Skloot* "Redniss combines her own dual punch of expressive art and impressive erudition to give an entirely new take on all that happens above our heads. This is an illuminated book that is also an illuminating one."—*Adam Gopnik* "A strange and wonderful thing, the work of a first-class mind that refuses to submit to any categories or precedent."—*Dave Eggers* "Beautiful and totally original."—*Elizabeth Kolbert*
