Disaster Preparedness NYC Olivia Maria Jovine,2015-01-27 If you live in New York City, you know this great city has seen and recovered from many disasters of every scale. But if the next Hurricane Sandy,

9/11, blizzard, power outage, fire, or heat wave hits your borough, would you be ready? With *Disaster Preparedness NYC*, learn what it takes to be prepared and react to disaster. This book is the go-to guide for emergency preparedness in New York City, from before (planning and packing and practicing) to during (making sure you have all the resources you need to survive for disasters that can last for days, and that you can communicate with those included in your emergency plan) to after. Find out how New York will respond to disaster, from the NYPD's managing of traffic to Hunts Point—which, few know, is one of the world's largest food distribution centers and a crucial part of long-term disaster survival in the tristate area. Included are checklists for home emergency kits and “go bags” when you seek shelter outside your home: first aid, important documents, medications, food and water, and more. But disaster preparedness isn't just about what to pack. The best emergency planning is about people. If you're responsible for children, the sick, the elderly, the disabled, or pets, your emergency plan needs to be tailored to factor in each individual's limitations and special considerations, and *Disaster Preparedness NYC* covers preparing everyone you care about for disaster situations. You're probably familiar with what to do in a fire, flood, or power outage in your own home, but can you say the same if disaster hits when you're anywhere else—on the subway, on the sidewalk, or at the office? No matter what the emergency or where you are when it occurs, be prepared with *Disaster Preparedness NYC*. Appendixes include forms that summarize important medical and legal information, kid-friendly worksheets, and neighborhood maps of emergency information such as evacuation routes, flood zones, major supply stores, and more.

Disaster Survival Guide – Be Prepared for Any Natural Disaster Federal Emergency Management Agency,2024-01-16 Preparedness takes action! Learn more about hazards which can affect your community and ways you can take action to prepare and participate: Earthquakes can occur suddenly and be deadly. Most earthquake-related casualties result from collapsing walls, flying glass, and falling objects. Flooding is the most common natural disaster in the United States and can happen anywhere. Hurricanes have the power to cause widespread devastation, and can affect both coastal and inland areas. Tornadoes are one of nature's most violent storms, and can cause death, injury, and destruction within seconds. Wildfires can occur anywhere and can destroy homes, businesses, infrastructure, natural resources, and agriculture. Winter storms can occur anywhere and bring freezing rain, ice, snow, high winds or a combination of all these conditions. They can cause power outages that last for days or weeks; making it hard to keep warm and making travel very dangerous. Recent national tragedies remind us that the risk is real: an active shooter incident can happen in any place at any time. The best way to make sure you and your loved ones stay safe is to prepare ahead of time.
