Clean Like a Man Tom McNulty, 2004 Most men have a problem with cleaning house: They don't know how to do it, and they don't particularly want to learn. The results are usually a messy house or a bitter spouse—or both. **Clean Like a Man** is the solution. Written specifically for the attention-challenged and motivation-impaired male, it's the first and only housekeeping primer that tells men how to clean the house their way: getting everything done quickly and easily, without getting to Felix Unger about it. It's such a great approach to housekeeping that women will love it too.

Taking Your Talent to the Web Jeffrey Zeldman, 2001 This is an explicit and detailed guide, an intelligent how-to book for professionals. It lays the groundwork and creates context by exploring essential concepts, defines terms that may be new or unfamiliar, and then moves forward with practical software techniques. All the while it is building on the existing knowledge and experience of its professional design audience. **Taking Your Talent to the Web** is based on the Populi Curriculum in Web Communications Design, developed by Jeffrey Zeldman in cooperation with Populi, Inc., (www.populi.com) and the Pratt Institute. The book's purpose is to guide traditional art directors and print designers as they expand their existing careers to include the new field of professional Web Design.

Professional Website Design From Start To Finish

Anne Marie Concepcion,2001-07-26 If I gave you a box of carpentry tools, could you build me a house? While having the right tools to do a project is a great first step, you still need to learn the overall process of how and when to use those tools to achieve your goals, knowledge that few other web design books present. This book starts from the assumption that you have the right tools -- an Internet connection and a web authoring program or an HTML reference book -- to begin with. (If you don't, the first chapter will bring you up to speed.) Then in clean, clear language, it steps you through the web design and development process from start to finish, from a successful studio owner's perspective:

Brainstorming site goals, gathering and converting content, developing a strategic site architecture, balancing elements of tone, message, and navigation, prototyping and presenting designs, organizing and trafficking files, production, subcontracting, publishing and promotion. Whether you're working on a 5-page site for your community organization or you're the project manager for a huge portal site for a Fortune 100, this book will provide you with the essential strategies and checkpoints that ensure a successful web site.

Anne-Marie Concepcion is the founder and creative

director of a busy cross-media (web, print, and CD-ROM) design firm in Chicago, Illinois. She is a seasoned new media consultant and an Adobe and Quark certified trainer. Her clients have included the Joyce Foundation, the Original Levi's Store, R.R. Donnelley and Sons, LobsterGram, the Chicago Tribune and World Book Encyclopedia (for which she wrote their inaugural Desktop Publishing entry in 1994). Anne-Marie has written for HOW, Digital Chicago, X-Ray, Step-by-Step Electronic Design, and was Publish magazine's Web Design columnist.
