Sports-talk Radio in America John Mark

Dempsey, 2006 *Sports-Talk Radio in America* looks at major-, medium-, and small-market stations across the United States that feature an all-sports format, with a focus on the unique personalities and programming strategies that make each station successful. Broadcasters, journalists, and academics provide insight on how and why this media phenomenon has become an important influence of American culture, examining the guy talk broadcasting approach, the traditional sports-emphasis approach, HSOs (hot sports opinions), localism in broadcasting, how sports talk radio builds communities of listeners, and how reckless, on-air comments can actually build ratings.

Sports-Talk Radio in America Frank Hoffmann, Jack M. Dempsey, Martin J Manning, 2012-12-06 An inside look at the hosts, hot spots, and history of sports-talk radio *Sports-Talk Radio in America* looks at major-, medium-, and small-market stations across the United States that feature an all-sports format, with a focus on the unique personalities and programming strategies that make each station successful. Broadcasters, journalists, and academics provide insight on how and why this media phenomenon has become an important influence of American culture, examining the “guy talk” broadcasting approach, the traditional sports-emphasis approach, “HSOs” (hot sports opinions), localism in broadcasting, how sports talk radio builds “communities” of listeners, and how reckless, on-air comments can actually build ratings. For better or worse, millions of (mostly) male listeners indulge their obsession with sports to the exclusion of virtually everything else available on the radio dial—music, news, and political talk. This unique book examines how this “niche of the niche” has formed a bond between its hosts

and their rabid, passionate, and loyal audiences, spinning the dial from the largest, best-known stations in big-league markets to smaller stations in Collegetown, USA, including Philadelphia's WIP, "The Ticket," KTCK in Dallas, WEEL in Boston, "The Team," WQTM in Orlando, KJR in Seattle, KOZN "The Zone" Omaha, Nebraska, WGR and WNSA in Buffalo, Kansas City's WHB, and "The Fan," WFAN in New York, the first all-sports radio station and the blueprint for the format. Sports-Talk Radio in America puts you in the studio with Mike and the Mad Dog, Angelo Cataldi, Howard Eskin, "The Musers" ("Junior" Miller and George Dunham), Norm Hitges, John Dennis and Gerry Callahan, Dan Sileo, Howard Simon, and Art Wander. Sports-Talk Radio in America examines: how stations create an environment in which listeners become part of a social group (social-identity and self-categorization theories) personality-driven programming the station's commitment to local teams and their fans how exploring controversial topics beyond sports broadens station's appeal and attracts upscale, affluent audience how an abundance of live, play-by-play broadcasting, creating plenty of available content college sports in a town without a major professional sports team how local sports is framed by hosts and callers the conflicted relationship between sports-talk radio and the print media and much more! Sports-Talk Radio in America is a must-read for academics and professionals working in radio-television and popular culture.

Airline e-Commerce Michael Hanke, 2016-05-20 From the few tickets that were sold by Alaska Airlines and former British Midland in December 1995 via the industry's first airline booking engine websites, global online travel has grown to generate today more than half a trillion dollars in annual revenue. This development has brought significant changes to the airline business, travel markets, and

consumers. Today, airlines worldwide not only use e-commerce for online marketing and selling but also as a platform to offer unique services and capabilities that have no counterpart in the physical world. This book is an in-depth introduction to airline e-commerce. It covers a broad scope of areas that are essential to an airline's ongoing digital transformation. Digital properties & features E-marketing E-sales & distribution Web customer service E-commerce organization E-commerce strategy Written by an airline e-commerce expert and illustrated with numerous examples of leading airlines in this area, Dr. Hanke provides for comprehensive behind-the-scenes details of how airline e-commerce works. This book is a crucial companion for students and practitioners alike because it allows the reader to acquire a thorough foundation of airline e-commerce. Furthermore, the book enables the reader to appreciate the ramifications of airline e-commerce in certain corporate areas and to take effective action for a successful e-commerce strategy.

Earth to Brockton Jay White,2022-04-26 What is not written--and shared--may never exist after we are gone. We all have stories. There is something behind everything we do! Only we see it from our perspective, and what we don't say may never be recaptured. --Jay White Many of us go through life without writing down and sharing our stories. Once we are gone, the tales of our lives risk being lost to the ages. In his book *Earth to Brockton*, Jay White provides us with a memorable and entertaining narrative of a young man's exploits after leaving 1970s Brockton, moving to Maine, and launching sideways into adulthood. When Jay left for college in 1989, he wanted to pursue a life involved in baseball. He didn't cut it as a player. A few writing gigs and baseball statistical data entry positions and even graduation from professional umpire school bore no fruit. As it would be, life and plans do not always match. Instead, he had to regroup and find a recreated path (and a way to pay for his college degree). Jay ended up holding over forty mostly unrelated jobs in eight states and two countries. With very little money, much loneliness, and lots of adventure, he collected many stories worth sharing. During the global pandemic, while being restricted from friends and extended family and unable to share those stories in person, Jay produced this compilation to provide a healthy

alternative to the daily news and the stressors endured by many. Jay entertains us with thoughtful, witty, and often humorous observations on his life's journey from the right field ball boy's stool at Fenway Park to the battlefields of the Middle East and beyond. He hopes to inspire you to write your own stories as he believes we can all learn from them. And he reminds you: your clock is ticking. Please enjoy!

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
