Death Is Not an Option: a View from a Free Medical Clinic Bette

A. Grey,2012-11-30 Bette Grey understands the plight of the uninsured. She has walked in the shoes of those she now helps to get healthcare. She believes the life events that triggered this journey were actually blessings in disguise to not only others but for her as well. She credits God with the nudges to begin the project. No matter what direction her life took, she always was brought back to the idea for a free clinic. While recuperating from a vital surgery, she thought about those with the same issues who had no access to care other than through the local emergency room. And then she really thought about those who might refuse to go. She knew they would ultimately end up in the emergency room as a necessity, nearing death. She

credits the ABC news program, 20/20 and the segment featuring Jon BonJovi. The performer was dedicating many dollars to a local free clinic in his community. The free clinic in Red Bank followed the Volunteers in Medicine clinic model. Bette innocently decided to explore the internet to find out about this type of clinic. She had no intentions of doing anything further but she believes God had other plans. Fast forward with many meetings under her belt, she was able to open the fifty-first Volunteers in Medicine clinic. As she looks back, she believes the lives saved are incredible, more than she ever thought. She really thought the clinic would be more for acute illness rather than the chronic diseases the clinic have treated. Never did she expect the seriousness of the diagnoses that would lead to the deaths of everyday folks.

Women's Encounters with the Mental Health Establishment

Elayne Clift, 2014-01-27 Explore women's first-person experiences with the mental health establishment! This unique contemporary anthology of women's experiential writing shares women's realities, perceptions, and experiences (positive and negative) within the therapeutic environment. These artistic expressions of personal experience will help women understand their own encounters in a new light. They are also instructive and enlightening for any practitioner working with women in a mental health setting. Charlotte Perkins Gilman's famous short story (included here), *The Yellow Wallpaper*, which inspired this title, has come to represent the struggle of contemporary women to be understood by the therapeutic milieu from whom they seek psychological support and psychiatric treatment. An icon of feminist writing, the 1892 story symbolizes affirmation and validation for the female experience regarding mental health and therapy. This anthology, in the spirit of

Gilman's work, gives voice to today's women so that their own encounters with the mental health establishment can be validating and affirming to others. It will also enlighten those in the helping professions as they extend their services to women in a time of growing need and shrinking resources. In addition to *The Yellow Wallpaper* and a foreword and afterword by noted psychiatric professionals, *Women's Encounters with the Mental Health Establishment: Escaping the Yellow Wallpaper* also contains works by authors including: Sylvia Plath Kate Millett Anne Sexton Lauren Slater Martha Manning Elayne Clift and many more! Through prose and poetry, the contributors to this volume offer a creative, artistic, and highly readable contribution to the literatures of women's studies and psychology! Handbook for Patients at the Clinical Center National Institutes of Health (U.S.). Clinical Center, 1953

To Act as a Unit John D. Clough, 2005-04 Tracing the history of the Cleveland Clinic from its start as a small not-for-profit group practice to being the world's second largest private academic medical center, this medical history tells one of the most dramatic stories in modern medicine. Starting on the battlefield hospitals of World War I, this details how the clinic achieved medical firsts, such as the discovery of coronary angiography and the world's first successful larynx transplant, improved hospital safety, and met the challenges of the 21st century to be ranked among the top five hospitals in America. This text not only recounts the history of the clinic but presents a model for other not-for-profit organizations on how to endure and thrive.

GOOD TIMES IN THE HOSPITAL JAMES G. McCULLY,

MD,2012-10 Good Times in the Hospital is a collection of unlikely stories, poignant vignettes, and humorous anecdotes gathered from a lifetime of experience with real doctors and patients. As the setting moves from Duke University Medical School, to The Mayo Clinic, to an inner-city charity hospital, to a military hospital, to private hospitals in metropolitan centers and rural towns, this inside look at hospital life allows the reader to gradually gain a new perspective on medical men and women: They are not much different from the rest of us. After forty years of medical education and hospital practice, the author concludes that, Doctors are no worse than other people. As for the patients in these stories although hospitals are engaged in the most serious business imaginable you cannot find more laugh-out-loud behavior anywhere. This is because when people are seeking medical care, they are vulnerable and reveal their true, inner selves. And, it turns out that the true, inner selves of most people are often some combination of fascinating, inexplicable, and ridiculous. To paraphrase a quote by Mel Brooks: So long as this old world keeps spinning around and around, every person riding on it will occasionally get dizzy and do something stupid. Good Times in the Hospital reminds us that it is unhealthy to take life too seriously and a lighthearted temperament is just as important as a sound diet. This point of view makes it possible for one book to combine a rare glimpse inside the hospital, an informative look at health care, and an entertaining collection of anecdotes. There are chapters about juvenile practical jokes among medical students, mistakes by doctors in training, serious life lessons learned at the bedside, hospital affairs that end badly, doctors threatening other doctors with handguns, a girl who tries to

stop her grandma's pacemaker with an MR scanner, an identical twin who has the surgery intended for her sister, an old man patiently waiting his turn in a charity hospital emergency room while holding his intestines in his hand, boyhood memories of a doctor who accompanied his father making house calls, a doctor who missed his chance to win a Nobel Prize by not listening to his patient, an intriguing case of domestic abuse, fascinating hypochondriacs, insights into why intelligent people spend their last dollar on irrational treatments, amazing examples of cures by mind over matter, the importance of our attitude on our wellness, and even reflections on the question of medical miracles. Is it appropriate to laugh at the behavior of doctors attending their patients and entertain ourselves with yarns of patients in their sickbed? *Good Times in the Hospital* promotes the viewpoint that the best way to deal with our inevitable foibles is to laugh about them. The author says, If you believe that some things are sacrosanct and immune from humor, you are reading the wrong book. In an epilogue following this rich tapestry of medical tales, the author offers some final thoughts on how to sort through medical advice, a discussion of alternative medicine, the real effect of malpractice lawsuits on doctors, and the responsibility of patients for their own health. This epilogue is a rare opportunity to hear from an experienced, retired physician on such matters. Such frank opinions are virtually never discussed by doctors in practice, who must be circumspect in what they say for fear of alienating their patients, losing their insurance coverage, or becoming the target of a law firm. Mostly though, *Good Times in the Hospital* is an insightful panoply of true-life stories that illustrate the best and worst of human nature, a chance for the reader to have some fun and learn a little along the way.

Essays on Women, Medicine & Health Oakley Ann
Oakley,2019-08-06 In this collection of essays, Ann Oakley, one of the
most influential social scientists of the last twenty years, brings
together the best of her work on the sociology of women's health. She
focuses on four main themes - divisions of labour, motherhood,
technology and methodology - and in her own inimitable style,
combines serious academic discourse from a feminist sociological
perspective with a practical understanding of what it is to be women
facing the often impersonal world of twentieth-century medicine.
Updating and substantially expanding on her earlier work, Telling
the Truth About Jerusalem, this new collection bridges the
medical/social divide in an accessible and personable way.
