**The Financial Advisor M&A Guidebook** Greg Friedman,Shaun Kapusinski,2020-02-22 With M&As in the RIA space increasing, many firms are rapidly changing hands with little to no expert guidance on how to successfully execute a merger or acquisition. In 2017, a record number of M&A deals closed in the advisor space – 168 transactions, or a 22% growth over 2016. Aside from a fifth straight year of record highs in M&A activity, the size of the acquired firms has also increased, with average acquisitions involving wealth managers exceeding \$1.01 billion in assets under management. For many advisors, it only takes a handful of missteps during a merger or acquisition to jeopardize their business, but with so much unknown, advisors need a guidebook for success. A significant and often overlooked component to a successful RIA merger or acquisition is the thoughtful integration of technology. This comprehensive guide walks you through the steps of strategy, assessment, implementation, adoption and growth, all while considering how to best inspire and galvanize a firm's most valuable asset – its people. Combining the real-life experiences of a life-long financial advisor with the expertise of a 15-year operations director and founder of a large RIA ops network, this book takes real M&A experiences of the financial services industry and offers best practices, tools and resources to help advisors make smart decisions about technology integration that elevates the firm's goals and solidifies its future success.

**Undiversified** Ellen Carr,Katrina Dudley,2021-08-03 Diversification is a core principle of investing. Yet money managers have not applied it to their own ranks. Only

around 10 percent of portfolio managers—the people most directly responsible for investing your money—are female, and the numbers are even worse at the ownership level. What are the causes of this underrepresentation, and what are its consequences—including for firms’ and clients’ bottom lines? In *Undiversified*, experienced practitioners Ellen Carr and Katrina Dudley examine the lack of women in investment management and propose solutions to improve the imbalance. They explore the barriers that subtly but effectively discourage women from entering and staying in the industry at each point in the pipeline. At the entry level, the lack of visible role models discourages students from considering the field, and those who do embark on an investment management career face many obstacles to retention and promotion. Carr and Dudley highlight the importance of informal knowledge about how to navigate career tracks, without which women are left at a disadvantage in an industry that lionizes confidence. They showcase a diverse constellation of successful female portfolio managers to demystify the profession. Drawing on wide-ranging research, interviews with prospective, current, and former industry practitioners, and the authors’ own experiences, *Undiversified* makes a compelling case that increasing the number of women could help transform active investment management at a time when it is under threat from passive strategies and technological innovation.

*Investment Banking* Joshua Rosenbaum,Joshua Pearl,2020-03-20 A timely update to the global best-selling book on investment banking and valuation In the constantly evolving world of finance, a solid technical foundation is an essential tool for success. Due to the fast-paced nature of this world, however, no one was able to take the time to properly codify its lifeblood—namely, valuation and dealmaking. Rosenbaum and Pearl originally responded to this need in 2009 by writing the first edition of the book that they wish had existed when they were trying to break into Wall Street. *Investment Banking: Valuation, LBOs, M&A, and IPOs, Third Edition* is a highly accessible and authoritative book written by investment bankers that explains how to perform the valuation work and financial analysis at the core of Wall Street—comparable companies, precedent transactions, DCF, LBO, M&A analysis . . . and now IPO analytics and valuation. Using a step-by-step, how-to approach for each methodology, the authors build a chronological knowledge base and define key terms, financial concepts, and processes throughout the book. The genesis for the original book stemmed from the authors' personal experiences as students interviewing for investment banking positions. As they both independently went through the rigorous process, they realized that their classroom experiences were a step removed from how valuation and financial analysis were performed in real-world situations. Consequently, they created this book to provide a leg up to those individuals seeking or beginning careers on Wall Street—from students at undergraduate universities and graduate schools to career changers looking to break into finance. Now, over 10 years after the release of the first edition, the book is more relevant and topical than ever. It is used in over 200 universities globally and has become a go-to resource for investment banks, private equity, investment firms, and corporations undertaking M&A transactions, LBOs, IPOs, restructurings, and investment decisions. As the world of finance adjusts to the new normal of the post-Great Recession era, it merits revisiting the pillars of the second edition for today's environment. While the fundamentals haven't changed, the environment must adapt to changing market developments and conditions. As a result, Rosenbaum and Pearl have updated their widely adopted book accordingly, while adding two new chapters on IPOs.

*Rescuing Retirement* Teresa Ghilarducci,Tony James,2018 In *Rescuing Retirement*, Teresa Ghilarducci and Tony James offer a comprehensive yet simple plan to help workers save for retirement, increase retirement savings by earning higher returns, and guarantee lifelong income for everyone. It offers a practical guide to the future of secure retirement.

**Plato's Lemonade Stand** Tom Morris,2019-12-29 We've all heard the adage: When life hands you lemons, make lemonade. But no one ever says how. Finally, with the inspiration of Plato and the help other great philosophers, Tom Morris has figured it out and here gives us a recipe we all can use. Along the way, he shows us how to move with wisdom from difficulty to delight in everything we do.

*Conquering the Seven Faces of Risk* Scott Juds,2017-11-16 Risk is not a one-dimensional problem cured by a single dose of diversification. It's a multidimensional problem, and diversification's passive risk reduction is only just the start. At least since Markowitz developed Modern Portfolio Theory 65 years ago, risk has generally been measured as the standard deviation from average return. However, Behavioral Economics (and even the dictionary) say risk is really about the loss of value, which is quite different from volatility. Risk has at least seven unique faces, including (1) Single-Stock Risk, (2) Market Volatility, (3) Bear Market Crash, (4) Momentum Loss, (5) Backtesting Deception, (6) Strategy Hired/Fired Late, and (7) Retirement Savings Will Not Be Enough. The elephant in the room for the majority of people facing retirement is a serious retirement savings shortfall - which makes their most serious risk about earning sufficient returns. Fortunately, a Royal Society Fellow, a National Medal of Science winner, and a trio of Nobel Laureates have laid the foundation for active risk reduction and forever changed the game. This book intends to shake the very foundation of the sleepy momentum mono-culture that seems happily mired in decades-old, simplistic, risk models that not only fail to treat momentum as the multi-faceted problem it is, but also fail to consider fundamental signal processing methods (older than Modern Portfolio Theory) that reduce the random walk part of the signal and improve the probability of making a better investment choice. The good news is two-fold: (1) the book's principles and methods are described in a manner most ordinary investors will easily grasp, and (2) while it is truly complicated under the hood (like my car), software tools make it easy to drive. So, buckle up, turn the page, and let's go for a ride!
