The Acquisitive Society Richard Henry Tawney, 1922 The *Acquisitive Society* was written by R. H. Tawney and published in 1920. Tawney herein criticizes the selfish individualism of modern industrial societies. He argues that capitalism corrupts via the promotion of economic self-interest, leading to aimless production in response to greed and insatiable acquisitiveness, and hence to perversions of industrialism. He attests further that, by extension, nationalism leads to the perversion of imperialism and to a necessarily failed balance of power strategy, resulting in unnecessary wars. It is a commonplace that the characteristic virtue of Englishmen is their power of sustained practical activity, and their characteristic vice a reluctance to test the quality of that activity by reference to principles. They are incurious as to theory, take fundamentals for granted, and are more interested in the state of the roads than in their place on the map. And it might fairly be argued that in ordinary times that combination of intellectual tameness with practical energy is sufficiently serviceable to explain, if not to justify, the equanimity with which its possessors bear the criticism of more mentally adventurous nations. It is the mood of those who have made their bargain with fate and are content to take what it offers without re-opening the deal. It leaves the mind free to concentrate undisturbed upon profitable activities, because it is not distracted by a taste for unprofitable speculations. Most generations, it might be said, walk in a path which they neither make, nor discover, but accept; the main thing is that they should march. The blinkers worn by Englishmen enable them to trot all the more steadily along the beaten {2} road, without being disturbed by curiosity as to their destination.

The Story of the Selma Voting Rights Marches in Photographs David Aretha, 2014-01-01 The Civil Rights Act of 1964 was a momentous victory for civil rights activists, but one major obstacle remained in the path toward equal rights for African Americans: the right to vote. In the South, segregationists prevented African Americans from voting. Civil rights leaders believed it was time for strong action and chose Selma, Alabama, as the rallying point. There, the marches and protests captured the nation's attention. Through gripping primary source photographs, author David Aretha explores this important time in American history.

Gravity, Geoid and Space Missions Christopher Jekeli, Luisa M.C. Bastos, Joana Fernandes, 2005-12-28 The IAG International Symposium on Gravity, Geoid, and Space Missions 2004 (GGSM2004) was held in the beautiful city of Porto, Portugal, from 30 August to 3 September 2004. This symposium encompassed the themes of Commission 2 (Gravity Field) of the newly structured IAG, as well as interdisciplinary topics related to geoid and gravity modeling, with special attention given to the current and planned gravi- dedicated satellite missions. The symposium also followed in the tradition of mid-term meetings that were held between the quadrennial joint meetings of the International Geoid and Gravity Commissions. The previous mid-term meetings were the International Symposia on Gravity, Geoid, and Marine Geodesy (Tokyo, 1996), and Gravity, Geoid, and Geodynamics (Banff, 2000). GGSM2004 aimed to bring together scientists from different areas in the geosciences, working with gravity and geoid related problems, both from the theoretical and practical points of view. Topics of interest included the integration of heterogeneous data and contributions from satellite and airborne techniques to the study of the spatial and temporal variations of the gravity field. In addition to the special focus on the CHAMP, GRACE, and GOCE satellite missions, attention was also directed toward projects addressing topographic and ice field mapping using SAR, LIDAR, and laser altimetry, as well as missions and studies related to planetary geodesy.

The Long Embrace Judith Freeman, 2008-11-11 Raymond Chandler was among the most original and enduring crime novelists of the twentieth century. Yet much of his pre-writing life, including his unconventional marriage, has remained shrouded in mystery. In this compelling, wholly original book, Judith Freeman sets out to solve the puzzle of who Chandler was and how he became the writer who would create in Philip Marlowe an icon of American culture. Visiting Chandler's many homes and apartments, Freeman uncovers vestiges of the Los Angeles that was Chandler's terrain and inspiration for his imagination. She also uncovers the life of Cissy Pascal, the older, twice-divorced woman Chandler married in 1924. A revelation of a marriage that was a wellspring of need, illusion, and creativity, *The Long Embrace* provides us with a more complete picture of Raymond Chandler's life and art than any we have had before.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
