Richard Breitman

Hitler's Shadow Richard Breitman,2011-04 This report is based on findings from newly-declassified decades-old Army and CIA records released under the Nazi War Crimes Disclosure Act of 1998. These records were processed and reviewed by the National Archives-led Nazi War Crimes and Japanese Imperial Government Records Interagency Working Group. The report highlights materials opened under the Act, in addition to records that were previously opened but had not been mined by historians and researchers, including records from the Office of Strategic Services (a CIA predecessor), dossiers of the Army Staff's Intelligence Records of the Investigative Records Repository, State Dept. records, and files of the Navy Judge Advocate General. This is a print on demand report.

Handbook of Fluorous Chemistry John A. Gladysz,Dennis P. Curran,István T. Horváth,2006-03-06 Edited by the leading experts John Gladysz, Dennis Curran, and István Horváth, this handbook is the first to summarize all the essential aspects of this emerging field of chemistry. Whether the reader is seeking an introduction to the concept of fluorous biphasic catalysis, summaries of partition coefficients involving fluorous and organic solvents, or information on the latest fluorous mixture separation techniques, this authoritative compilation of contributions, written by the world's top authors, provides key information needed for successfully working with the diverse and fascinating families of fluorous molecules. The large number of reliable experimental procedures in particular makes this the ideal guide for newcomers wanting to use this elegant method in the laboratory. In addition, experts will also find a wealth of important information concisely contained in one ready reference. The result is an indispensable resource for everyone currently working or intending to work in this field.

Recent Developments Of Diazo Compounds In Organic Synthesis Di Qiu,Jianbo Wang,2020-12-29 Diazo compounds are

versatile substances with diverse transformations in organic synthesis and other fields. Studies of diazo compounds have been ongoing for a very long time but still attract significant attention within the organic chemistry community, with new papers related to diazo compounds appearing at a daily pace. Over the past twenty years, there have been over fifty reviews and accounts related to the reactions of diazo compounds, but most of them cover limited aspects of diazo compounds. In addition to organic synthesis, diazo compounds have found applications in interdisciplinary fields such as material sciences, chemical biology and also polymerization. In this comprehensive book, the authors cover the most recent advances in the fields related to diazo compounds, including the application of donor-acceptor carbenes, carbene-based cross-coupling reactions and polymerizations, as well as the breakthrough in catalytic asymmetric carbene O-H, S-H, and N-H bond insertions. They also cover the application of flow chemistry in diazo reactions. The authors aim to provide a contemporary and comprehensive review for investigators engaged in or with interest in diazo compounds to boost further developments in this fascinating field.

U.S. Intelligence and the Nazis Richard

Breitman,2005-04-04 This book is based on the unprecedented declassification of thousands of US intelligence files.

Model Nazi Catherine Epstein,2012-03-22 The compelling story of Arthur Greiser, territorial leader of the Warthegau and the man who initiated the Final Solution in Nazi-occupied Poland.

The Advisors Herbert Frank York,1989 First published in 1976, *The Advisors* is an absorbing look at the technical, strategic, and human aspects of the great debate that led to the decision to build the first hydrogen bomb, Based on the author's own participation in Project Superbomb, on interviews with other participants, and on declassified documents, this book explains the complete background to this major acceleration of the nuclear arms race. For this reissue, the author has written a new Preface and Epilogue. The reissue also includes a recently declassified essay by Hans A. Bethe discussing the history of the H-bomb project from his unique vantage point as Director of the Theoretical Division at Los Alamos. He has revised the essay specifically for inclusion in this book.

The Nuremberg Interviews Leon Goldensohn,2007-12-18 During the Nuremberg trials, Leon Goldensohn—a U.S. Army psychiatrist—monitored the mental health of two dozen Germans leaders charged with carrying out genocide. These recorded conversations went largely unexamined for more than fifty years, until Robert Gellately—one of the premier historians of Nazi Germany—made them available to the public in this remarkable collection. Here are interviews with the likes of Hans Frank, Hermann Goering, Ernst Kaltenbrunner, and Joachim von Ribbentrop—the highest ranking Nazi officials in the Nuremberg jails. Here too are interviews with lesser-known officials essential to the inner workings of the Third Reich. Candid and often shockingly truthful, *The Nuremberg Interviews* is a profound addition to our understanding of the Nazi mind and mission.

War and Politics Bernard Brodie,1973 This book attempts to put war in its political context.

The Ultimate Decision Ernest R. May, 1960 A teenage brother and sister find a robot that seems willing to do everything from dusting their rooms to doing their homework, but they discover that they must learn computer programming to control it.

The Secretary of Defense Douglas Kinnard, 2021-10-21 Since its creation by the National Security Act of 1947 the office of secretary of defense has grown rapidly in power and influence, surpassing at times that of the secretary of state to become second only to the presidency in the government of the United States. The pivotal secretaries, according to Kinnard, are James Forrestal, Charles Wilson, Robert McNamara, Melvin Laird, and James Schlesinger. Kinnard analyzes the administration of each of these secretaries not only within the domestic and international contexts of his time but also within the bureaucratic world in which the secretary functions along with the president and secretary of state.

Austria in the European Union GÃ¼nter Bischof, Anton Pelinka, Michael Gehler, Austria joined the European Union in 1995, with the overwhelming support of its citizenry. In June 1994, a record 66.6 percent of the Austrian population voted in favor of joining the Union, and Austria acceded on January 1, 1995. Only three years later, in the second half of 1998, Austria assumed its first presidency of the European Union. Its competent conduct of the Union's business enhanced its reputation. The sense that Austria was a role model collapsed overnight, after a new conservative People's Party (VP/FP) coalition government was formed in Austria in early February 2000. Austria became Europe's nightmare. This volume has two purposes. The first is to assess Austria's first five years in the European Union. The second is Austria's ongoing struggle with its past. Heinrich Neisser evaluates and assesses Austria's commitment to the European Union. Thomas Angerer offers a long-term perspective of regionalization and globalization trends in Austrian foreign affairs. Waldemar Hummer analyzes contradictions between

Austrian neutrality and Europe's emerging common security policy. Johannes Pollak and Sonja Puntischer Rieckmann look at current debates over weighing future voting rights in the European Commission. Michael Huelshoff evaluates Austria's EU presidency in 1998 and compares it to the subsequent 1999 German presidency. Gerda Falkner examines the withering away of the previously much admired Austrian welfare state. Walter Manoschek scrutinizes the Nazi roots of Jorg Haider's Freedom Party. Michael Gehler critiques the EU sanctions and bemoans the absence of mediation through transnational Christian conservative parties. In reviewing how Austria deals with World War II, Richard Mitten investigates discourses on victimhood in postwar Austria and the place of Jews in this process. A Roundtable presents overwhelming evidence of Austrians' deep involvement in Nazi war crimes, and includes articles by Sabine Loitfellner and Winfried Garscha. This addition to the Contemporary Austrian Studies series will be welcomed by political scientists, historians and legal scholars, particularly those with a strong interest in European affairs. Gnter Bischof is professor of history and executive director of the International Studies Center at the University of New Orleans. Anton Pelinka is professor of political science at the University of Innsbruck and director of the Institute of Conflict Research in Vienna. Michael Gehler is professor of contemporary history at the University of Innsbruck. *Austria in the European Union* is a highly detailed, expertly researched blend of history, economics, and a calculating appraisal of a nation's future within the context of the evolving European international collaboration. *Austrian in the European Union* is strongly recommended for European Studies, Political Studies, and International Relations supplemental reading lists and academic reference collections.- The Midwest Book Review

The Last Days of Hitler Hugh Redwald Trevor-Roper,1958

The Hitler Book Fyodor Parparov,Igor Saleyev,Otto Günsche,Heinz Linge,2005-11-07 This eyewitness account was

compiled for one man's eyes only: those of Josef Stalin. One of the first biographies of Adolf Hitler, it derives from the testimony of his two closest assistants, interrogated at the Soviet leader's command, in order to understand the psychology of his greatest enemy - and to be certain that he was dead.--BOOK JACKET.

Nazi Palestine Klaus-Michael Mallmann, Martin Cüppers, 2013-10-18 Well documented factual account of a planned genocide.

Until the Final Hour Gertraud Junge, 2004 Offering an insider's perspective on the final days of the Third Reich, the recollections of a woman who became Hitler's secretary in 1942 sheds new light on his day-to-day life, character, and habits.
