Studio Television Production and Directing Andrew Hicks Utterback, 2023-06-23 This updated third edition of *Studio Television Production and Directing* introduces readers to the basic fundamentals of studio and control room production. Accessible and focused, readers of this updated third edition will learn about essential studio and control room terminology and the common technology package. This book is your back-to-the-basics guide to common technology—including principles of directing, assistant directing, technical directing, playback, audio ops, basic studio lighting, an introduction to set design, camera ops, floor directing, story types (VO, VO/SOT, PKG), basic engineering, and more. Whether an established professional or a student, this book provides readers with the technical expertise to successfully coordinate live or recorded multicamera production. In this new edition, author Andrew Hicks Utterback offers an expanded glossary and new material on visualization walls, alternative camera mounts, basic engineering, and news narrative diagramming.

TOWERS IN THE SAND Donn R. Colee Jr., 2016-08-30 Broadcasting touches almost every person in the United States every day. But like the air we breathe, we seldom give it a second thought. *Towers in the Sand* is the only comprehensive history of Florida's broadcasting industry, 1922-2016, the people who brought the stations to life, and the events that saw the state grow from boom to bust and back again to now the nation's third most populous. Over a decade in the making and fully referenced and indexed, *Towers in the Sand* tells stories from over eighty Florida broadcasting pioneers and current leaders, from the Keys to the Panhandle. A celebration of broadcasting's proudest moments through hard-hitting journalism and editorials, lifesaving moments through decades of hurricanes, and lighthearted moments with favorite personalities and promotions. *Towers in the Sand* also laments the loss of a national treasure as most stations were transformed from local community partners to lines on corporate balance sheets. As broadcasting sits at the precipice of a very uncertain future, the author hopes through this work to engage thought, conversation, and action to ensure its continued relevance in society.

Weather on the Air Robert Henson, 2013-01-22 From low humor to high drama, TV weather

reporting has encompassed an enormous range of styles and approaches, triggering chuckles, infuriating the masses, and at times even saving lives. In *Weather on the Air*, meteorologist and science journalist Robert Henson covers it all—the people, technology, science, and show business that combine to deliver the weather to the public each day. Featuring the long-term drive to professionalize weathercasting; the complex relations between government and private forecasters; and the effects of climate-change science and the Internet on today's broadcasts. With dozens of photos and anecdotes illuminating the many forces that have shaped weather broadcasts over the years, this engaging study will be an invaluable tool for students of broadcast meteorology and mass communication and an entertaining read for anyone fascinated by the public face of weather.

The Damocles Agenda Jeff Edwards, 2022-02-10 Civilization had an off switch... The Russians call it Lunnaya Pesnya. Moon Song. They bring the device aboard the International Space Station disguised as an experimental electromagnetic propulsion system. Just a harmless EmDrive prototype, ferried into space for testing in microgravity. But the device is not what it appears to be and it's far from harmless. When military cosmonauts hijack the ISS, Russia's plans of global conquest are revealed. Moon Song is a game-changing electromagnetic pulse weapon, capable of attacking any location on Earth from orbit. The first target is Kennedy Space Center. Uncounted kiloteslas of electromagnetic force slash through the atmosphere like an unseen sword—wiping out microchips, transistors, digital storage devices, and electronic circuits of all kinds. In an instant, Cape Canaveral—and the surrounding areas of Cocoa Beach, Rockledge, Titusville, and Patrick Air Force Base—are stripped of every necessity of modern existence. Throughout the target zone, microchips are fried; credit cards are slicked; hard drives are erased. Electronic systems of all kinds suffer catastrophic failure, taking out cell phones, landlines, radios, vehicles, aircraft, and every electrical component within the

footprint of the EMP beam. A single pulse of energy has driven the U.S. manned space program into the dark ages. Now, Russia holds the high ground. From orbit, they can detect and neutralize any attempt to attack the ISS. The destruction of Canaveral shows what will happen to any nation that challenges Russian supremacy. With the world literally held hostage, there's no way to fight back. Or is there?

Presumed Guilty Jose Baez, Peter Golenbock, 2013-08-27 New York Times bestseller *Presumed Guilty* exposes shocking, never-before revealed, exclusive information from the trial of the century and the verdict that shocked the nation. When Caylee Anthony was reported missing in Orlando, Florida, in July 2008, the public spent the next three years following the investigation and the eventual trial of her mother, Casey Anthony. On July 5, 2011, the case that captured headlines worldwide exploded when, against all odds, defense attorney Jose Baez delivered one of the biggest legal upsets in American history: a not-guilty verdict. In this tell-all, Baez shares secrets the defense knew but has not disclosed to anyone until now and frankly reveals his experiences throughout the entire case—discovering the evidence, meeting Casey Anthony for the first time, being with George and Cindy Anthony day after day, leading defense strategy meetings, and spending weeks in the judge's chambers. *Presumed Guilty* shows how Baez, a struggling, high-school dropout, became one of the nation's most high-profile defense attorneys through his tireless efforts to seek justice for one

of the country's most vilified murder suspects.
