Surgeon's Story Mark Oristano,2016-12-15 oted pediatric heart surgeon Dr. Kristine Guleserian has opened up her OR, and her career, to author Mark Oristano to create SURGEON'S STORY. Dr. G's life, training and work are discussed in detail, framed around the incredibly dramatic story of a heart transplant operation for a two-year old girl whose own heart was rapidly dying.

Between Riverside and Crazy Stephen Adly Guirgis,2016-05-13 THE STORY: Ex-cop and recent widower Walter "Pops" Washington and his newly paroled son Junior have spent a lifetime living between Riverside and crazy. But now, the NYPD is demanding his signature to close an outstanding lawsuit, the landlord wants him out, the liquor store is closed—and the church won't leave him alone. When the struggle to keep one of New York City's last great rent-stabilized apartments collides with old wounds, sketchy new houseguests, and a final ultimatum, it seems that the old days may be dead and gone.

Oral Health Literacy Institute of Medicine,Board on Population Health and Public Health Practice,Roundtable on Health Literacy,2013-02-19 The Institute of Medicine (IOM) Roundtable on Health Literacy focuses on bringing together leaders from the federal government, foundations, health plans, associations, and private companies to address challenges facing health literacy practice and research and to identify approaches to promote health literacy in both the public and private sectors. The roundtable serves to educate the public, press, and policy makers regarding the issues of health literacy, sponsoring workshops to discuss approaches to resolve health literacy challenges. It also builds partnerships to move the field of health literacy forward by translating research findings into practical strategies for implementation. The Roundtable held a workshop March 29, 2012, to explore the field of oral health literacy. The workshop was organized by an independent planning committee in accordance with the procedures of the National Academy of Sciences. The planning group was composed of Sharon Barrett, Benard P. Dreyer, Alice M. Horowitz, Clarence Pearson, and Rima Rudd. The role of the workshop planning committee was limited to planning the workshop. Unlike a consensus committee report, a workshop summary may not contain conclusions and recommendations, except as expressed by and attributed to individual presenters and participants. Therefore, the summary has been prepared by the workshop rapporteur as a factual summary of what occurred at the workshop.

The Craft of Information Visualization Benjamin B. Bederson,Ben Shneiderman,2003-05-22 Since the beginning of the computer age, researchers from many disciplines have sought to facilitate people's use of computers and to provide ways for scientists to make sense of the immense quantities of data coming out of them. One gainful result of these efforts has been the field of information visualization, whose technology is increasingly applied in scientific research, digital libraries, data mining, financial data analysis, market studies, manufacturing

production control, and data discovery. This book collects 38 of the key papers on information visualization from a leading and prominent research lab, the University of Maryland's Human-Computer Interaction Lab (HCIL). Celebrating HCIL's 20th anniversary, this book presents a coherent body of work from a respected community that has had many success stories with its research and commercial spin-offs. Each chapter contains an introduction specifically written for this volume by two leading HCI researchers, to describe the connections among those papers and reveal HCIL's individual approach to developing innovations. *Presents key ideas, novel interfaces, and major applications of information visualization tools, embedded in inspirational prototypes. *Techniques can be widely applied in scientific research, digital libraries, data mining, financial data analysis, business market studies, manufacturing production control, drug discovery, and genomic studies. *Provides an insider view to the scientific process and evolution of innovation, as told by the researchers themselves. *This work comes from the prominent and high profile University of Maryland's Human Computer Interaction Lab

Mallard Fillmore-- Bruce Tinsley,1995 Mallard Fillmore lampoons everything from political correctness to Phil, Oprah, and Geraldo to our government's insatiable appetite for spending our money. His marvelous supporting cast includes wickedly wonderful caricatures of everyone who's anyone, from Hollywood to D.C. to Arkansas.

The Better Brain Solution Steven Masley,2018 Alzheimer's disease is the #1 most terrifying disease today. Despite billions of dollars of research, there are no significant cures for dementia or Alzheimer's (the most common form of memory loss), which accounts for up to 70 percent of all dementia. Almost six million Americans have been diagnosed with Alzheimer's; with an annual cost of dementia care and research in the United States of \$215 billion, more than is spent on cancer or heart disease. In *The Better Brain Solution*, Dr. Steven Masley writes of the two urgent epidemics we are facing now--escalating rates of disabling memory loss and rapidly increasing rates of diabetes and pre-diabetes--and yet both conditions are largely preventable. Most people today understand the effect that elevated blood sugar has on their cardiovascular health, but few understand that insulin resistance is significantly damaging to the brain. In *The Better Brain Solution*, Masley offers a program that, in the fight against diabetes, memory loss, and cognitive decline, can reverse insulin resistance, enhance cognitive performance, and stop cognitive decline before it is too late. Masley gives the reader the tools he has developed for his own private patients to prevent and reverse this metabolic syndrome and to achieve normal blood sugar levels (below 95 mg/dL). He explores the impact of insulin resistance on the brain and the

heart/brain/diabetes connection, explaining how cognitive function and memory work and he discusses the risk factors for memory loss. The Better Brain Solution offers the reader a comprehensive plan for achieving optimal brain health, providing information on brain-boosting foods and supplements as well as providing a practical way to assess cognitive function. With 50 recipes for foods that improve brain and body and that are easy to prepare.

Inside U.S.A. John Gunther, 2021-09-30 The seventy-fifth anniversary edition of Gunther's classic portrait of America John Gunther's Inside series were among the most popular books of reportage of the 1930s and 1940s. For Inside U.S.A., his magnum opus, Gunther set out from California and visited every state in the country, offering frank, lucid, and humorous observations along the way in what legendary publisher Robert Gottlieb, writing in the New York Times, calls Gunther's "fluent, personal, casual, snappy" voice. Gunther's insights on race, labor, the impact of massive New Deal public works projects, rural life, urbanization, and much more yield fascinating insight into life in a postwar America that had vaulted into the status of the world's preeminent superpower. This seventy-fifth-anniversary edition of Inside U.S.A. provides an invaluable picture of America as it was and is both a delight to read and filled with insights that remain deeply relevant today.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

It's Your Biz Susan Wilson Solovic, Ellen R. Kadin, 2012 Presents tips and advice for creating a new business, utilizing the author's experience in creating her own successful business to guide readers in planning, funding, promotion, pricing, and self-evaluation.

The Orlando Shooter Alice Willis Wilder, 2016-07-11 The Orlando Shootings left behind them a trail of mental and

emotional devastation for a nation already so divided. On the 16th of June of 2016, Omar Mateen, a young American man walked into a gay nightclub named Pulse in Orlando, where he opened fire on the crowd. Forty-nine people lost their lives and fifty-three more were injured. In the aftermath, Mateen was shot by law enforcement as he refused to give himself in or hand over his weapon over a three hour standoff.
