Joseph Caro

**The Lemon Car Consumer Handbook** Rob Benson,2011-07-31 Many people purchase a vehicle and then drive away to find out that it actually doesn't drive well. Did they buy a lemon or not? A lemon car is a defective car which you buy at extremely bargain price without being aware of all its mechanical flaws. There are many factors to consider before you can claim if you positively have a lemon. What makes a car a lemon? You might think you have a lemon but you actually don't. Your car might have enough defects that it really qualifies as being a lemon. Did you know that even though the car drives okay that it may still be a lemon? Consumers don't realize that they have rights when they buy new or used cars that turn out to be lemons. If you sign the papers on a new or used car in a dealership and then drive away to find the car doesn't work you can do something about it. There are laws for lemon cars. All states comply with the Uniform Commercial Code. This book will provide all the information to help you with: 1) How to check if your car is a lemon or not 2) Find out if your car qualifies as a lemon even after many repair attempts 3) What you can do if your car is a lemon If you have a lemon car, use the lemon laws so you don't have to be stuck with a lemon any longer!

**Economic Morality and Jewish Law** Aaron Levine (1946-2011),2012-07-16 Economic Morality and Jewish Law compares the way in which welfare economics and Jewish law determine the propriety of an economic action, whether by a private citizen or the government. Espousing what philosophers would call a consequentialist ethical system, welfare economics evaluates the worthiness of an economic action based on whether the action would increase the wealth of society in the long run. In sharp contrast, Jewish law espouses a deontological system of ethics. Within this ethical system, the determination of the propriety of an action is entirely a matter of discovering the applicable rule in Judaism's code of ethics. This volume explores a variety of issues implicating morality for both individual commercial activity and economic public policy. Issues examined include price controls, the living wage, the lemons problem, short selling, and Ronald Coase's seminal theories on negative externalities. To provide an analytic framework for the study of these issues, the work first delineates the normative theories behind the concept of economic morality for welfare economics and Jewish law, and presents a case study illustrating the deontological nature of Jewish law. The book introduces what for many readers will be a new perspective on familiar economic issues. Despite the very different approaches that welfare economics and Jewish law take in evaluating the worthiness of an economic action, the author reveals a remarkable symmetry between the two systems in their ultimate prescriptions for certain economic issues.

**Lemon Laws** Margaret C. Jasper,2005 The car you've just bought is a lemon and now you want to take action. Lemon Laws is the invaluable guidebook that informs car buyers of their rights and offers resources to benefit unfortunate owners of defective vehicles. Extensive coverage is provided on consumer protection laws, federal warranty laws, federal protection Acts, lemon laws for all 50 states, and tips to avoid buying another lemon. The Legal Almanac series serves to educate the general public on a variety of legal issues pertinent to everyday life and to keep readers informed of their rights and remedies under the law. Each volume in the series presents an explanation of a specific legal issue in simple, clearly written text, making the Almanac a concise and perfect desktop reference tool. All volumes provide state-by-state coverage. Selected state statutes are included, as are important case law and legislation, charts and tables for comparison.
