**The Korean War** ,2000-01-01 The Korean War (1950-53) began as a conflict between North Korea and South Korea and eventually involved the United States and nineteen other nations. An estimated three million people lost their lives during the war. For Americans who think that only GIs and their United Nations contingent comrades fought effectively, The Korean War will be a surprising introduction to the valor and sacrifice of the South Korean army. This comprehensive view of the war from the South Korean perspective has not been previously available in English translation. The Korean War comprises three volumes. Volume one examines the background of the war and sketches its development up to the intervention by Communist China. It carefully analyzes North Korean war planning, South Korea's early defensive efforts, and the collective security measures taken by the United Nations. The volume summarizes subsequent military operations, the defense along the Naktong Line, and the counteroffensive carried out in conjunction with the United Nations forces. The Korean War considers recently declassified documents as well as primary accounts by veterans.

*Wealth of the Solomons* Judith A. Bennett,1987-05-01 Du site de l'éd.: The history of the Solomon Islands is in itself an intriguing story, and Dr. Bennett tells it more than well. The depth and breadth of the work is impressive in at least two respects. First, it covers events in the Solomons from initial European contact in the

middle-1500s to the country's emergence as an independent and sovereign state in 1978. Second, all facets of colonial history are covered; to name only a few: the early contact period, the whaling trade, the development of plantations, the nature of British colonial rule, and missionization. Considering the scope of this volume, it represents a definitive history of the Solomon Islands, and it will remain so for many years to come.

This book presents the proceedings of Global Telehealth 2015 (GT2015), hosted by COACH: Canada's Health Informatics Association, and held in May 2015, in Toronto, Canada. The theme of this year's conference is 'Serving the Underserved: Integrating Technology & Information for Better Healthcare'.
