Health and socio-economic status over the life course Axel Börsch-Supan,Johanna Bristle,Karen Andersen-Ranberg,Agar Brugiavini,Florence Jusot,Howard Litwin,Guglielmo Weber,2019-06-04 Health in later life is shaped by behavior and policies over the life course and reflects the differences between the societies in which we are ageing. This multidisciplinary book answers questions from all life course phases and its interconnections from a European perspective based on the most recent SHARE data, such as: How is our health related to personality traits and influenced by our childhood conditions and careers? Which role does our social network play? Which impacts of the different health care and societal regimes can we trace at older ages? Which are the differences and similarities across European countries?

Chinese Urbanism: Urban Form And Life In The Tang-song Dynasties Jing Xie,2020-02-25 Since the 1990s, the urban landscape of China has witnessed revolutionary changes that are unrivalled in any country of the world throughout history. Rapid urbanization, facilitated by the modern planning mechanism for growth, provides a feast for property developers. Yet, associated urban problems such as housing affordability, traffic congestion, energy consumption, and environmental deterioration are aggravated. This book takes a historic approach to investigate the planning philosophy, urban form and life of the past. Through a detailed study of urban development from early times through the imperial period with a focus on the Tang-Song dynasties, this book attempts to articulate the good qualities of urban landscapes from the past that still have instructive value for modern practices. The focus on the Tang-Song period is not only because China was the most advanced civilization of its time, but also because it underwent a similar process of 'urbanization', evident by tremendous economic growth, a dramatic rise of urban population, and an extended building boom. Through evaluating the streets, city layout, public places, urban communities, houses and gardens, and using interdisciplinary research in urban planning, urban design, architecture, history, and cultural studies,

this book asserts that the past is quintessentially important. The past not only truthfully records the course of social and cultural formation of urban community and its associated physical fabric, but also regulates the directions we may take in the future.

ADHD Stephen P. Hinshaw, Katherine Ellison, 2015-10-02 Rates of diagnosis of attention-deficit/hyperactivity disorder (ADHD) are skyrocketing, throughout America and the rest of the world. U.S. rates of youth diagnosis have increased 40% from just a decade ago. Adults with ADHD are now the fastest-growing segment of the population receiving diagnosis and medication. The disorder is painful and sometimes disabling for individuals and tremendously costly for society; yet, widespread misinformation, skepticism, and unanswered questions have jeopardized effective diagnosis and treatment. Researched and written by Stephen Hinshaw, an international expert on ADHD, and Katherine Ellison, a Pulitzer-Prize winning journalist and author, ADHD: What Everyone Needs to Know? is the go-to book for authoritative, current, accurate, and compelling information about the global ADHD epidemic. This book addresses questions such as: ? Is ADHD a genuine medical condition or a means of pathologizing active and exploratory behavior? ? Do medications for ADHD serve as needed treatments, or are they attempts at social control, designed to bolster profits of pharmaceutical firms? ? Has the ADHD label become a ruse by which parents can game the educational system for accommodations? ? How do symptoms and impairments related to ADHD differ

between girls and women and boys and men? ? Why are ADHD medications often used as performance enhancers by college and high-school students? ADHD: What Everyone Needs to Know? clears the air of the most polarizing and misleading information that abounds, providing straight talk and sound guidelines for educators, policymakers, health professionals, parents, and the general public. It shows the reality of ADHD but does not ignore the forces that have pushed up rates of diagnosis to alarmingly high levels.

Easy Rider: My Life on a Bike Rob Hayles, 2013-06-20 The son of a wrestler turned cycling coach called Killer Kowalski, Rob Hayles was soon winning races himself and realizing that he didn't really want to work for a living. The world of amateur club cycling in the 1990s was a long way from the millionaire sport of today though. When Rob first rode for Great Britain, it was with his own bike, one spare tyre, and a hand-me-down jersey. Yet Rob became an integral part of the amazing success story of British cycling, and has been at the centre of the sport for the past two decades. With Bradley Wiggins, he was a member of the first GB team to become world champions at the team pursuit, the most demanding and thrilling discipline on the track. With teammate David Millar, he witnessed first-hand the drug-strewn, often demeaning life of the professional road cyclist. And as Mark Cavendish's training partner, Rob has been the experienced influence at the side of the fastest man on two wheels. *Easy Rider* is an unforgettable journey through revolutionary times. Sharp, down-to-earth, packed with anecdotes and just plain fun, it takes you from the humblest of beginnings through a golden era in British cycling.

Wisdom Song: The Life of Baba Amte Neesha Mirchandani, 2006-04-01 Born into privilege and wealth, Murlidhar Devidas Amte was a maverick who wanted to live life to the fullest. He realized early on that he had to live, not for himself, but for others - or else all his privilege, position and superior personal qualities would be mere tinsel. The pioneering commune at Anandwan, where those affected by leprosy could live with dignity and pride; the Bharat Jodo marches across the length and breadth of India to promote national unity and harmony; the decade-long vigil by the Narmada river in solidarity with those at the receiving end of state-sponsored environmental devastation - Baba Amte did this and

much more, coping the whole time with a crippling spinal degenerative disease. The countless lives transformed by three generations of the Amte family are shining testimonials to the magnitude of Baba Amte's vision, and the indomitable spirit that made that vision real. With in-depth conversations with Baba, and interviews with many of his close friends and family, this biography is equally a record of the collective memory of those who have known him best. What emerges is an intimate portrait of one of the few individuals of our times who have embodied the cherished ideals of compassion and selfless service.

Revolution Song: The Story of America's Founding in Six Remarkable Lives Russell

Shorto, 2017-11-07 "An engaging piece of historical detective work and narrative craft." —Chicago Tribune At a time when America's founding principles are being debated as never before, Russell Shorto looks back to the era in which those principles were forged. In *Revolution Song*, Shorto weaves the lives of six people into a seamless narrative that casts fresh light on the range of experience in colonial America on the cusp of revolution. The result is a brilliant defense of American values with a compelling message: the American Revolution is still being fought today, and its ideals are worth defending.
