Where the Wind Leads Dr. Vinh Chung, 2014-04-29 The remarkable first-hand account of Vinh Chung, a Vietnamese refugee, and his family's daring escape from communist oppression for the chance of a better life in America. Discover a story of personal sacrifice, redemption, endurance against almost insurmountable odds, and what it truly means to be American. Vinh Chung was born in South Vietnam, just eight months after it fell to the communists in 1975. His family was wealthy, controlling a rice-milling empire worth millions; but within months of the communist takeover, the Chungs lost everything and were reduced to abject poverty. Knowing that their children would have no future under the new government, the Chungs decided to flee the country. In 1979, they joined the legendary "boat people" and sailed into the South China Sea, despite knowing that an estimated two hundred thousand of their countrymen had already perished at the hands of brutal pirates and violent seas. *Where the Wind Leads* follows Vinh Chung and his family on their desperate journey from pre-war Vietnam. Vinh shares: The family's perilous journey through pirate attacks on a lawless sea Their miraculous rescue and a new home in the unlikely town of Fort Smith, Arkansas Vinh's struggled against poverty, discrimination, and a bewildering language barrier His graduation from Harvard Medical School *Where the Wind Leads* is Vinh's tribute to the courage and sacrifice of his parents, a testimony to his family's faith, and a reminder to people everywhere that the American dream, while

still possible, carries with it a greater responsibility.

Late one night, near the woods of her animal hospital, Frannie stumbles upon a strange, astonishing phenomenon that will change the course of her life forever: an eleven-year-old girl named Max. With breathtaking energy, Max leads Frannie and Kit to uncover one of the most diabolical and inhuman plots of modern science. Bold and compelling, *When the Wind Blows* is a story of suspense and passion as only James Patterson could tell it.

Connemara Tim Robinson, 2007-06-19 The first volume in Tim Robinson's phenomenal Connemara Trilogy - which Robert Macfarlane has called 'One of the most remarkable non-fiction projects undertaken in English'. In its landscape, history and folklore, Connemara is a singular region: ill-defined geographically, and yet unmistakably a place apart from the rest of Ireland. Tim Robinson, who established himself as Ireland's most brilliant living non-fiction writer with the two-volume *Stones of Aran*, moved from Aran to Connemara nearly twenty years ago. This book is the result of his extraordinary engagement with the mountains, bogs and shorelines of the region, and with its folklore and its often terrible history: a work as beautiful and surprising as the place it attempts to describe. Chosen as a book of the year by *Iain Sinclair*,

Robert Macfarlane and Colm Tóibín 'One of the greatest writers of lands ... No one has disentangled the tales the stones of Ireland have to tell so deftly and retold them so beautifully' Fintan O'Toole 'Dazzling ... an indubitable classic' Giles Foden, Condé Nast Traveller 'He is that rarest of phenomena, a scientist and an artist, and his method is to combine scientific rigour with artistic reverie in a seamless blend that both informs and delights' John Banville 'One of contemporary Ireland's finest literary stylists' Joseph O'Connor, Guardian

A war-torn country... only one way out. Ten-year-old Malik's world is falling apart. Soldiers have invaded town, and his mother is missing, leaving Malik with his grandfather, Papa. Along with a thousand other refugees, their hope for escape to a new life lies in gaining passage aboard one ship -- but the demand for tickets is high, and so is the cost. Can they make it on? And will they find Mama before the ship departs? When things don't go as planned, Malik must summon all of his courage and resourcefulness to survive. A heart-wrenching and suspenseful story of sacrifice and resilience, *Close to the Wind* confronts the realities of war in a timeless and accessible way.

What Color Is the Wind? Anne Herbauts, 2016 A blind child questions all he encounters--a dog, wolf, elephant, mountain, bird, stream, and tree--about the color of the wind. Each responds differently, with a shape, color, smell, texture, or idea. Each page displays a visual and tactile palette of cutouts, textures, colors. It is a sensory experience that makes the invisible experiential, ending with the wind as the pages fly. A graduate of the Academy of Fine Arts in Brussels, Anne Herbauts expresses an original world in each of her books. Awake to the richness of the world, endlessly curious, and rigorous in her work, Anne has written and illustrated over twenty books.

Where the Spirits Ride the Wind Felicitas D.

Goodman, 1990-08-22 "Dr. Goodman has pioneered in the study of bodily postures and altered states of consciousness." —Stanley Krippner, professor of personal mythology and parapsychology "And suddenly the understanding of my own vision washed over me like a mighty wave . . . For life or for death, I was committed to that mighty realm of which I was shown a brief reminder, the world where all was forever motion and emergence, that realm where the spirits ride the wind." —from the Prologue Anthropologist and spiritual explorer Felicitas Goodman reexamines our notions of the nature of reality by studying the ritual postures of native art assumed by her subjects during trance states. For readers desiring to discover this world of ancient myths, she has included a practical guide on how to achieve such ecstatic experiences. "The

book is clearly written for the general reader and includes many descriptions of trance experiences. It may serve as a good introduction to the nature and appeal of the shamanic revival in modern Western cultures.” —Theological Book Review “A case study in experiential anthropology that offers a unique mix of autobiography, mythology, experiential research, and archaeological data to support a challenging thesis—that certain body postures may help induce specific trance states.”

—Shaman’s Drum “This is a spellbinding and exceptionally readable book by an extraordinary woman.” —Yoga Journal

The Boy Who Harnessed the Wind William Kamkwamba,Bryan Mealer,2015-02-05 Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

The Wind Blew Pat Hutchins,2012-02-21 A rhymed tale describing the antics of a capricious wind. The wind blew, and

blew, and blew! It blew so hard, it took everything with it: Mr. White's umbrella, Priscilla's balloon, the twins' scarves, even the wig on the judge's head. But just when the wind was about to carry everything out to sea, it changed its mind! With rhyming verse and colorful illustrations, Pat Hutchins takes us on a merry chase that is well worth the effort.

Who Owns the Wind? David McDermott Hughes, 2021-10-12
The energy transition has begun. To succeed - to replace fossil fuels with wind and solar power - that process must be fair. Otherwise, mounting popular protest against wind farms will prolong carbon pollution and deepen the climate crisis. David Hughes examines that anti-industrial, anti-corporate resistance, drawing insights from a Spanish village surrounded by turbines. In the lives of these neighbours - freighted with centuries of exploitation - clean power and social justice fit together only awkwardly. Proposals for a green economy, the Green New Deal, or Europe's Green Deal require more effort. We must rethink aesthetics, livelihood, property, and, most essentially, the private nature of wind resources. Ultimately, the energy transition will be public and just, or it may not be at all

The Wind and the Trees Todd Stewart, 2021-03-15
A gentle meditation on the cycle of life, told by two trees. One day, a tiny pine seedling strikes up a conversation with a nearby tree. As the seedling grows larger, the older pine shares what it has learned about the strong wind that blows through the forest. Wind stretches trees and dries them out, but it also scatters seeds, spreads messages across the forest, and helps trees grow strong as it pushes against their trunks. As time passes, the wind takes its toll on the older tree. It loses needles and starts to droop as the young tree grows fuller and stronger. When a fierce storm rolls in, the heavy winds take down the older tree, leaving the younger one all alone. Or so it thinks. Soon after, a new seedling blown in by the wind lands on the spot where the old tree fell, and the cycle begins again. This moving picture book poignantly honors

intergenerational relationships and the exchange of wisdom, while also opening up conversations about loss and environmental stewardship.

Fly Into the Wind Lt Colonel Dan Rooney, 2020-11-17 USA TODAY BESTSELLER “Lt Colonel Dan Rooney is a true patriot who serves our country with courage and honor.”—George H.W. Bush, 41st President of the United States F-16 fighter pilot, American hero, Folds of Honor founder, PGA professional, and inspirational family man Dan Rooney delivers a motivational code for living to help ordinary people ascend to their highest level in life. Part spiritual guide and part call-to-action, *Fly Into the Wind* combines Lt Colonel Rooney’s fighter pilot stories with his discovery of faith and purpose in order to help each reader achieve a philosophy he calls CAVU, after the Air Force acronym that stands for “ceiling and visibility unrestricted.” CAVU describes the perfect conditions for flying a fighter jet, when steel-blue skies invite pilots to spread their wings like supersonic eagles. In today’s world of identity politics, fractured racial relations, and external turmoil, Rooney’s book will show how all of us are connected by God in more ways than we realize, and that the path to fulfillment begins with changing ourselves in order to better one another. From the outside, Lieutenant Colonel Dan “Noonan” Rooney was living the American Dream: he was an F-16 fighter pilot, PGA Professional, husband to his college sweetheart, and father of five daughters. His position in life should have been a blessing. But a near-tragic mishap while piloting his F-16 triggered an ominous life storm that altered his trajectory and filled him with self-doubt. Realizing that a jet takes off into the wind because it requires resistance over its wings to fly, Lt Colonel Rooney’s attitude toward the resistance he encountered in his life changed from resentment to humble introspection. Hyper-focused on the precise areas that are immediately under your control, CAVU is a disciplined approach to each day that will help you reshape, motivate, prioritize, and ultimately thrive. In *Fly Into the Wind*, Lt. Colonel Rooney breaks

down CAVU into ten unique lines of effort (LOE), with each LOE building upon the previous one to provide a positive vector toward a new way of living. Along this enlightened path, readers will discover a renewed belief in themselves and the art of the possible. The time for self-discovery and ultimate achievement begins now.
