The Last Boy (Enhanced Edition) Jane Leavy, 2010-11-16 Award-winning sports writer Jane Leavy follows her New York Times runaway bestseller *Sandy Koufax* with the definitive biography of baseball icon Mickey Mantle. The legendary Hall-of-Fame outfielder was a national hero during his record-setting career with the New York Yankees, but public revelations of alcoholism, infidelity, and family strife badly tarnished the ballplayer's reputation in his latter years. In *The Last Boy*, Leavy plumbs the depths of the complex athlete, using copious first-hand research as well as her own memories, to show why The Mick remains the most beloved and misunderstood Yankee slugger of all time.

Treasured Memories Karen J. Benne, 2012-08 This book is about my dad, a unique individual, who had his own BACK WOODS way of doing things. He played like a KID but had the heart of a LION. Even though we had some dysfunctional issues under our roof, I can look back now and have a good laugh. I'm very proud of everything he accomplished, against odds, no-one else would have taken. He was ONE OF A KIND! I hope you enjoy reading about him and how he succeeded in raising all us kids.

Hip Hop in America: A Regional Guide [2 volumes] Mickey Hess, 2009-11-25 An insightful new resource that looks at the rise of American hip hop as a series of distinct regional events, with essays covering the growth of hip hop culture in specific cities across the nation. Thoroughly researched, thoroughly in tune with the culture, *Hip Hop in America: A Regional Guide* profiles two dozen specific hip hop scenes across the United States, showing how each place shaped a singular identity. Through its unique geographic perspective, it captures the astonishing diversity of a genre that has captivated the nation and the world. In two volumes organized by broad regions (East Coast, West Coast and Midwest and the Dirty South), *Hip Hop in*

America spans the complete history of rap—from its 1970s origins to the rap battles between Queens and the Bronx in the 1980s, from the well-publicized East Coast vs. West Coast conflicts in the 1990s to the rise of the Midwest and South over the past ten years. Each essay showcases the history of the local scene, including the MCs, DJs, b-boys and b-girls, label owners, hip hop clubs, and radio shows that have created distinct styles of hip hop culture.

High Precision Optical Spectroscopy and Quantum State Selected Photodissociation of Ultracold 88Sr_2 Molecules in an Optical Lattice Mickey McDonald, 2017-11-18 This thesis unites the fields of optical atomic clocks and ultracold molecular science, laying the foundation for optical molecular measurements of unprecedented precision. Building upon optical manipulation techniques developed by the atomic clock community, this work delves into attaining surgical control of molecular quantum states. The thesis develops two experimental observables that one can measure with optical-lattice-trapped ultracold molecules: extremely narrow optical spectra, and angular distributions of photofragments that are ejected when the diatomic molecules are dissociated by laser light pulses. The former allows molecular spectroscopy approaching the level of atomic clocks, leading into molecular metrology and tests of fundamental physics. The latter opens the field of ultracold chemistry through observation of quantum effects such as matter-wave interference of photofragments and tunneling through reaction barriers. The thesis also describes a discovery of a new method of thermometry that can be used near absolute zero temperatures for particles lacking cycling transitions, solving a long-standing experimental problem in atomic and molecular physics.
